CONDITION OF CROPS

tion, But This is Confined to Western Provinces.

OTTAWA, Oct. 12.-(Special.)-The of a year ago. But the reduction applies chiefly to the northwest provinces. In the eastern provinces a

vinces. In the eastern provinces a high per cent, is maintained for nearly all the crops, and quantity and quaity are better than a year ago, and still better than two years ago. In Manitoba, Saskatchewan and Alberta there is a drop of about twenty per cent. In the quality of grains and roots, but the threshings indicate that the yield will be larger for wheat, oats and barley than was promised at the end of August.

CATTLE MARKETS

Buffalo and New York Cattle Firm-

East Buffalo Live Stock.

Mortimer, B.S.A., was in the Many of the farmers of Kent have city Wednesday, en route to Montcommenced to harvest their sugar real, from which port they will sail beets, and some are even hauling them for Liverpool, England, via S.S. Vic-

Kerr Lake and Big Returns Are Promised.

After two years of active mining the Hargrave property is beginning to show its worth. It took two years of after that the dividend paying power increased fast and the dividend was advanced from time to time till it has been raised to 40 per cent. per an-

grave. Two years of active mining carried on continuously has opened sibilities can be understood. In that time fifteen veins have been located and in the three where mining opera-tions have been carried on rich ore has been found in avery Sheep Active and Steam.

NEW YORK, Oct. 12.—Beeves—Receipts, 572; firm; steers, \$4.75 to \$6.80; bulls, \$3.50 to \$4; cows, \$2.25 to \$4.60. Exports, 1500 auarters of beef.

Caives—Receipts, 2929; veals slow, but steady; westerns and grassers weak, veals, \$5 to \$11; culls, \$5 to \$7; grassers, veals, \$5 to \$1.50 to \$4.50; westerns, \$3.75 to \$6.

Sheep Active and Steam.

For the whole of the end of Septements of the steer per cent, better than two years ago and 2.39 better than two years ago and beans are nearly eight per cent, lower in condition than a year ago, but nearly the per cent, lower in condition than a year ago, but nearly the per cent, lower in condition than a year ago, but nearly the per cent, lower in condition than a year ago, but nearly the per cent, lower in condition than a year ago, but nearly the per cent, lower in condition than a year ago, but nearly the per cent, lower in condition than a year ago, but nearly the per cent, lower in condition than a year ago, but nearly the value of the condition than a year ago, but nearly the value of the condition of rye at the end of Septements and carries in width, being, as much as inches wide in places. The shaft is down 125 feet, and ore is being taken out and shipped. The value of the ore taken out and shipped. The value of the ore taken out and sold has run about six times the expenses since last May, and is fully three times the expenses of the whole mine, which in the past three months has included expensive work in running the long drift from workings to open up No. 2

workings at the 375 foot level 400 feet up north, near the Kerr Lake line, to where it was known the No. 2 entered Hargrave from the Kerr Lake Co.'s property at the Kerr Lake's 225 foot level. At this point it is from 9 to 12 inches wide and carries ore variously estimated at from 4000 to 6000 ounces to the ton. It is expected that this point will be reached within the next two weeks. If the vein carries for 100 feet as it is where it enters Hargrave the value of the ore contained will run into millions of dollars. As the ore from this vein will have to come out thru the No. 3 workings, the mine management is now arranging to increase the hoisting capacity there.

"Jacobs" vein. From this vein Kerr Lake has mined many hundreds of thousands of dollars of ore. As soon as convenient it is the intention of the mine management to sink another hundred feet on No. 1 vein as developments there have been so satisfac-tory. From these workings a drift can be run south to open up No. 4 veln. This is a strong vein and will give cope for further active development.
The active mining, however, will, for the present, be carried on on Nos. 1, and 2 veins. The formation of the Kerr Lake and Hargrave is identical, both having the conglomerate in the northern sections and the diabase in the south. In both diabase and conglomerate rich ore has been encountered in both properties. The opening up of No. 2 vein which comes in from the Kerr Lake property, and which at the Kerr Lake 225 level is 9 to 12 inches wide carrying ore aver-

With the New York Exchange clos

World Office,
Wednesday Evening, Oct. 12.
Cobalt stocks were in rather scant supply on the local mining exchanges to-day, and there being a good call for most of the securities, higher prices Bar silver in London, 25 5-16d oz. Bar silver in New York, 54%c oz. Mexican dollars, 45c. Trading was more active than during the past few days, but there was not sufficient stock on offer to satisfy the

-Afternoon Sales.Bailey-500 at 7%.
Beaver-500 at 23%, 500 at 32%, 100
2%; buyers sixty days, 1000 at 34%, 10 over for to-morrow rather than bid prices up any higher, since the shares were not forthcoming on the way up.

The market's action to-day clearly demonstrated the sound basis on which present values are based. Holders showed little disposition to realize on their holdings, and even those whose tooks showed substantial profits on the

opportunity to secure certain profits.
City of Cobalt was a strong feature,
these shares selling up three points,
with little stock coming out even at the
higher prices. The buying was formuwith little stock coming out even at the higher prices. The buying was formulated on the idea that the directors would place the security on a dividend basis at their meeting on Friday, the financial position of the company being such that some such action was thought warranted.

Right of Way continued its upward movement, gaining another two points at 36 1-4, and closing only a small fracmovement, gaining another two points at 36 1-4, and closing only a small fraction under that price. Chambers-Ferland and Cobalt Lake were prime favorites in the trading also, and both

IMPRESSED BY PORCUPINE

is Busy and Very Prosperous Big Gold Producer.

Messrs. P. S. Hairston of Toron and B. P. Foster of Cleveland returns yesterday after spending ten days in Porcupine. Both of these gentlemen are very much impressed with the various properties inspected by them, and they think that it is only a matter of getting proper transportation into the camp before the gold wealth of this district will be widely recog-

Mr. Foster of Cleveland who has had

a long career as a mining engineer, is taking charge of the property of the United Porcupine Gold Mines Company. This property is located in the Township of Whitney. Since February last the company has continuously ployed ten men in developing claim, and during that time veins have been uncovered. The principal vein is about forty feet wide, and has been traced for some three hundred feet. On this vein a shaft is now being sunk, and the showings are good at a depth of twenty teet, which has now been reached.

Mr. Hairston told The World that the whole Porcupine camp was busy and prosperous, and that everyone in the field felt confident that Porcupine will ultimately become one of the richest gold producers in the world. "We had ten days in the camp," Mr. Hairston said, "and it would be hard to express what we saw, in language which would be appreciated by those who have not seen a big gold proposi

HAVE YOU ADVANTAGED?

Three weeks ago we said to buy Right of Way at 221-2c. Yesterday this stock sold at 36. At the same time we advised purchases of City of Cobalt, Peterson Lake, Little Nipissing and Beaver. Compare to-day's prices with those when we recommended purchases. Don't forget that the Cobalt stocks are in a bull market. Higher prices are warranted in many stocks. Nova Scotia has been dull for many months, and we think that holders of these shares will profit by averaging at present prices. Wetlauffer and Chambers-Ferland will bear the scrutiny of cautious buyers, also Rochester.

A GOOD MARKET!

We have every reason to feel pleased over the present strong market. You have all noticed how consistent we have been in urging the purchase of Cobalts in this space since July last. Although prices have almost doubled in some instances, we know there is a big advance yet to come. If you want to know what stocks to buy, communicate with us. If you have already made your decision, wire your orders at once. A. J. BARR @ COMPANY.
