Board of Control Recommended That Property Be Bought for \$225,000 - Neighbors of Mrs. Honey Ask for Investigation Into Removal to Asylum-Salary Increases.

After some discussion the board of control decided to send on to council the parks committee's recommendation that the Knex College grounds b expropriated for park purposes. Controller Hocken said that this property was the most unique of any in Canada, and it would be a shame for the city to allow it to go into private hands. Controller Church thought it should be paid for on the local improvement plan. Mayor Geary was in favor of acquiring the property, but he did not like the suggestion that Spadina-avenue should run thru the centre of it. It was finally decided to send the matter on to council, the Note being

three to two.
In view of the fact that the property was sold yesterday, it will not matter what the council decided to do on

Want an Investigation · Controller McCarthy presented a pe-tition signed by 31 residents of Laughton-avenue asking the city to investi-gate the case of Mrs. Thomas Honey of 64 Laughton-avenue, who last Mon-day was conveyed to the Queen-street asylum by her husband and a private detective. The residents declare that Mrs. Honey is not insane and should not be detained there. It was said that Asylum Inspector Rogers was told of the case and at first refused to take any action; later he promised to investigate. Mayor Geary was under the impression that the matter should be investigated, but he advised that it should be laid before the provincial secretary, who had the necessary isdiction. The petitioners were notified to direct their appeal to this quarter The petitioners were notified thru A. G. P. Frost, one of the residents of the street, who was present.

Apartment Houses

G. T. Price assistant city architect, told the board that permits had been withheld from 20 or 30 applications to erect apartment houses until the by-law was passed by the council. He was under the impression that the effect. Mayor Geary, however, said that the instructions were only that all doubtful applications should be sub-mitted to the board. Regarding the application for an apartment house on Palmerston-boulevard Mr. Price said that the plans did not comply with the building restrictions on that street and hence the permit would not be issued. Mayor Geary was not impressed with Dr. Hastings' report regarding condi-Isolation Hospital "We should clean this matter up," he said, "and give the public confidence in this institution." It was suggested that the cal board of health should deal with

the matter, but nothing was decided as to what action should be taken. Salary Increases. The board did not concur in the report of the parks committee with reference to the salaries of the district superintendents as proposed by Parks

Commissioner Chambers. At the present time these men are receiving \$1200, about by the addition of the dock ocanid Mr. Chambers suggested that in cupied by the steamer Turbinia last view of their increased duties their salaries should be increased to \$1600. The board decided to recommend that they be given an increase of \$100 yearly until the maximum salary of \$1600 be reached. The chief cierk at a salary of \$1800 was also objected to, and the Controller Hocken claimed that the the ferry building with the new dock.

lief Fund, but the board decided to addition to the end upper exits now get further information before making there. any recommendation Feeble\_Minded.

Controller McCartiy wanted the board to deal with the sub-committee's report on the feeble-minded in order that the matter could come before council on Monday. It was decided, however, to have the report printed and bmitted to the council at their meeting two weeks from Monday.

A deputation from the Western Hos-

pital, headed by Dr. Ferguson, waited on the board and asked for an increased grant for that institution. The board asked for a general statement before dealing with the matter.
