Leave Sunday Laws to The Provinces

Quebec Will Not Conform to Our Standards Amend B. N. A. Act to Suit Conditions

W. F. Maclean Urges Parliament to Apply For Relief Since All Regret Transfer of Authority to Federal

Government. CLAUSE TO EXEMPT JEWS

FROM SUNDAY OBSERVANCE Defeated by Large Majority-Members of Cabinet Divided

on Question - Lively Discussion on Clause Eleven. Ottawa, June 27 .- (Special.) -One of the significant events in the house today was the speech of W. F. Maclean (S. York) on the Sunday bill. His main proposal to regulate Sabbath regula-

tion to the various provinces, and his plain solution for the pending embarrassments that surround the bill were welcome on both sides of the house and may bear fruit in some affirmative action by the government. In a word, he advocated that SUN

DAY OBSERVANCE LAWS SHOULD BE MADE BY THE PROVINCES AND IF TREY HAD NOT SUFFI-CIENT JURISDICTION IN THAT RE-GARD, A CONFERENCE BETWEEN THE FEDERAL POWER AND THE PROVINCIAL POWER SHOULD BE HELD: and if they all agreed, as he believed they would, then the British parliament should amend the British North America Act in this direction.

The house was in committee on sec tion nine of the Lord's Day bill, which, as drafted, forbade the shooting at a target on Sunday, but permitted the hunting of game and shooting matches with live pigeons, turkeys, etc., Mr. maciean spoke in substance as fol-

A Compromise. This section, he said, was considered a compromise. In itself it was not versity or opinion among the people of the different provinces respecting the proper observance of the Lord's Day. rersonally he favored a reasonable observance of the day of rest. It should only be a day of cessation from labor, but it should be governed by such leg-

and life-long traditions.

It was impossible for the Dominion parliament to pass any law to be effective from sea to sea, and to govern all nationolities, denominations, creeds and localities, that would not often one or more provinces by Lawrence market and the Manufacturers' Building at the exhibition grounds, which a Preston firm got, but the rake-off does not seem to have been forthcoming what might seem to some the sevand witness baseball games on Sun-On the other hand, it would be oppressive and unjust to require the people of Quebec to sufficiently change conform to the standards of Toronto.

The Remedy. For many years Sunday legislation investi had been universally considered a provants. vincial matter. Everyone now express-er regret that it had been transferred to the Dominion parliament. Nobody asked for that transfer, no one desired

it, everyone regretted it.
What was the remedy? He proposed that the provinces endeavor to agree on a national measure. If that proved to be feasible, then let us at once apply for relief to the imperial parlia-ment. An amendment could be proposed to the B. N. A. Act, declaring this power to pass Sunday legislation to be vested in the various provinces.
"I entered this house," said Mr. Mac-

lan. "in 1892. Since then we have been from time to time embroiled in hearttrenched on prejudices of race, creed, or which invaded provincial rights."

He had consistently maintained that these LOCAL QUESTIONS SHOULD

J. O. Thorn, the king bee of the Menot opposing Protestants, he was fa-

voring the unification of Canada, By referring this question to the various provinces, we would have a stricter Sunday law in Ontario and that would meet the wishes of his constituents; at the same time we would have Sunday laws in other vrovinces adapted to their own people, and a great danger to our national unity would be re-

There is not a provincial legislature that cannot frame a Sabbath observance bill that will secure a proper observance of the Sabbath. The Dominion government cannot frame and pass such a hill. But what does Ontario get under the provisions of this bill as we now have it? Will not the people of To-ronto be shocked when they know that under this law a SUNDAY PI-GEON-SHOOTING MATCH OR A DASEBALL MATCH WILL BE ALLOWD IN THE CENTRE OF TO-PONTO, AND THAT THE MINISTER OF JUSTICE IS LEGALIZING IT? This parliament has never dealt successfully with such questions in the to develop the country and to pro-mote feelings of brotherhood among a'l classes of this community. We should leave questions like the one now

Ald. Dr. Noble Backs Up World's Attitude-Civic "Report" He Declares to Be Worthless.

"I have been reading in The World what that man said about the abattoirs and have strong reasons to belive his statements are absolutely true," remarged Ald. Dr. Noble, chairman of the board of health to a World reporter

A professional case that was very imperative prevented Dr. Noble from attending the meeting he called, of the board of health yesterday. With characteristic vigor the alderman said that he did not think the report they had intended to discuss at the board meeting was worth the paper it was written on. It was made by "just one of the ordinary inspectors," the doctor said. All the abattoirs had been visited by this official on June 12, and his report dealt with matters such as lack of water, close accommodation, broken down floors and such things. It wasn't a report such as should have been prepared for the board and a discussion of it was almost a matter of form.

"What that man told The World is important, and to get at the root of the evil here must be some change in the intended to discuss at the board meet-

The government was formed from the lower house, which represented the people. He should, concluded the doctor, who seemed to be very much in earnest about it. He did not think a report from one of the regular inspectors was of much moment. The circumstances required a thoroly competent man to report upon it.

There was proceeding in this country to-day another movement, natural and peculiar to our special conditions, a movement which is rapidly leading us towards absolute national independence. It will involve, when it comes, changed relations with our the table. (Canadian Associated Press Cable.) London, June 27.-The King and a fashionable audience of nearly 3000 attended the British-Canadian concert, organized by Harriss and held in the Queen's Hall tonight. His majesty, who was received with great enthusiasm, both inside and outside, was escorted to the box by Lord Strathcona. Many prominent Canadians were among the audience. The concert was a triumph for Mr. Harriss, the chief feature being his composition, "Pan," presented here for the first time, and conducted by himself. It was enthusiastically received. He was assisted by the London Symphony Orchestra and a chorus of 250. The solo parts were taken by Mile. Donalda Miss Ida Kahn, John Harrison and Frank Davies.
