A first list of nominations in The
World's Trip to London Contest is
published above, and it marks the be-
ginning of the real battle of ballots.
The past six days have been but a
preliminary skirmish.

Have you entered the race?
In the World of Monday next, the
first standing of candidates will be
given, showing the position of the
entries at the end of the first stage
of the race.

In a letter received by the Trip to
London Editor a day or two ago, a
nomination blank was enclosed for a
young lady in Whitby. At the present
time she has received 9000 votes.
Have you started to work?
If you have not already sent in
your nomination blank to the Trip to
London Editor, do so at once. The
next week will be an important one.
It will give you a chance to deter-
mine your standing in the race, as it
will be published in the World of
Monday next.

Advantages Can't Be Estimated
Miss Jean Blissett, the well-known
Canadian authoress, when asked by
The World what she thought of the
"Trip to London," said:
"Even if it were only for the voy-
age across, a girl should be anxious
to take the trip. No one can estimate
the physical advantages of such a
voyage. Just to breathe the ozone, the
complete rest, the invigorating ocean
breeze—why, it blows every cobweb
from the brain, dissipates every idea
of physical ail.

MAY DAY, AS FAR AS
CAN BE SEEN, WILL
BE QUIET THIS YEAR

Frisco About Only Place Where
Trouble is Expected—Condi-
tions Generally Are Sat-
isfactory in U. S.
Cities.

BOSTON, Mass., April 28.—According
to the labor union officers and busi-
ness agents of workmen's organi-
zations, the industrial situation in
New England may be marked by
fewer contentions between capital
and labor than for many years.

The most serious condition existing
in Boston is due to the strike of
teamsters, begun a month ago. In
New England at large there are sev-
eral causes for unrest in cotton mills,
and it is reported that an attempt
will be made toward higher wages in
Fall River next month.

Men Are Satisfied.
PITTSBURGH, Pa., April 28.—May
Day in Pittsburgh and vicinity is ex-
pected to pass off with fewer labor
disputes than in previous years. Here-
tofore considerable difficulty has been
experienced between the workmen and
building trades, but this year scales
have been signed and the men are
apparently satisfied.

Aside from those of the machinists,
about 200 of whom are already on
strike, it is believed all the wage
scales will be amicably adjusted. The
machinists are striking for an in-
crease of wages and shorter hours. At
two foundries the men are now out
under orders from the union head-
quarters. It is estimated that they will
become general unless the union scale
is agreed to by May 1.

Majority Has Signed.
ST. LOUIS, April 28.—Employers and
labor leaders of St. Louis and the
southwest report labor conditions bet-
ter for May 1 than for many
years past. Practically all wage scales
in St. Louis and the surrounding
territory for 200,000 union men in
St. Louis alone. The union allied
with the building trades council here
have all signed for the year, except
a very few men employed in small
shops.

Many Contracts Renewed.
CHICAGO, Ill., April 28.—The rela-
tions between employer and employe
were probably never so harmonious in
Chicago as they are now. In the past,
on May 1, there have usually been
differences between the labor unions
and the employe in Chicago, but this
year there is scarcely a cloud on the
industrial horizon.

Every union in the building indus-
try, except the contractors of iron
workers, has renewed contracts with
employers, and the iron workers ex-
pect to reach a settlement without a
strike. Machinists have demanded an
increase of 25 cents a day in wages.
Most of the larger firms in the city
have signed a willingness to grant
the increase, and if any strikes are
called May 1, they will be confined to
individual firms. The brick makers
are now holding conferences with their
employers and the two sides will prob-
ably reach a settlement before next
week.

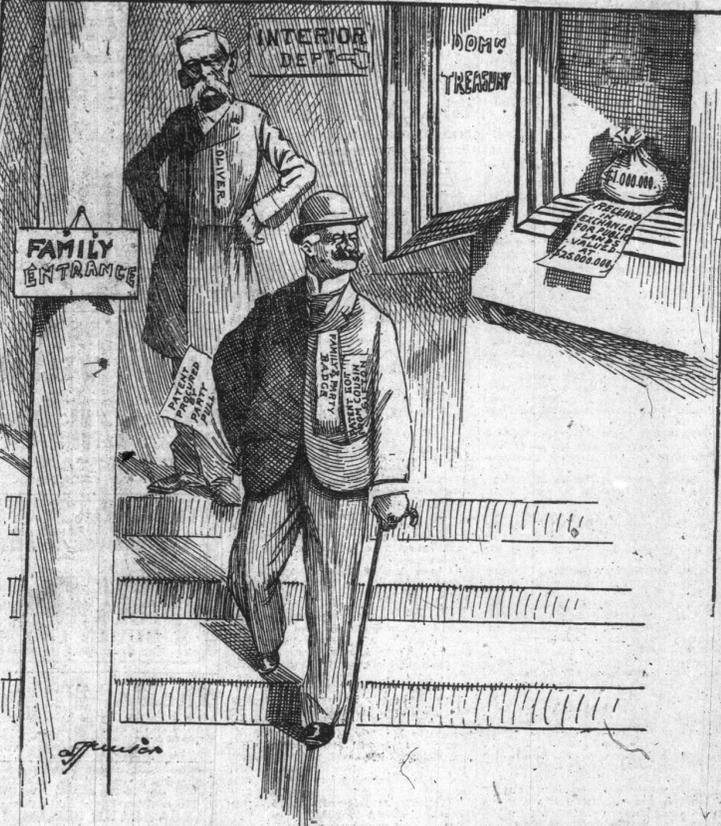

No Trouble Anticipated.
PHILADELPHIA, April 28.—May
Day, which marks the beginning of
the fiscal year in labor circles, prom-
ises to pass in this city with little
friction between workmen and em-
ployers. With few exceptions the
agreements under which the union
men are working are acceptable, and
trouble is not anticipated. At a meet-
ing of the central labor union today,
it was said there would be few labor
troubles. The small unions in the
building trades are all in agreement
and no serious differences are antici-
pated. Labor representatives say they
believe these slight differences will be
adjusted.

Firemen Out on Strike.
NEW YORK, April 28.—Yesterday
afternoon posters were affixed to walls
in the vicinity of the power houses of
the Brooklyn Rapid Transit Company,
stating that there was a strike of fire-
men in five of the power houses, and
asking all men to refrain from accept-
ing positions therein. The placards were
affixed by Timothy Hany, president of
the International Brotherhood of Station-
ary Firemen.

Bad Outlook at Frisco.
SAN FRANCISCO, Cal., April 28.—
Union labor's New Year's Day, May 1,
will find San Francisco facing serious
labor troubles. Eleven unions, includ-
ing every branch of the material trades,
have called May 1 a day of protest, and
next Tuesday night to consider the
refusal of employers to grant an eight-
hour day with nine hours pay. A
vote will be taken to decide whether
the men shall accept the offer of a con-
tinuance of the nine-hour day, with a
5 per cent. increase of wages, or strike.
About 10,000 men are involved.

The street car men have issued a
call for a mass meeting at midnight
on Tuesday to vote on the refusal of
the United Railways to grant motormen
and conductors an eight-hour day and
a wage rate of \$2 a day. If a strike
should be voted, the entire street car
traffic of the city will be paralyzed.
The strike of steam laundry workers,
which went into effect in this city and
Oakland a month ago, is still in pro-
gress, with no immediate prospect of
settlement.

TROUBLE BREWING FOR
MONTREAL SOCIALISTS

Archbishop Bruchesi Condemns
Demonstration—Precaution Will
Be Taken During Parade.

MONTREAL, April 28.—(Special.)—It
looks like a conflict here between the
Roman Catholic religious authorities
and the Montreal Socialists, who are
bound to parade on May 1 with the
red flag at their head. To-day at high
mass Archbishop Bruchesi from his
throne personally read a letter to the
faithful, condemning in the severest
terms the socialistic movement, which
he designated as unchristian, unpatri-
otic and un-Canadian.

Last year the socialists insulted the
clergy as they were passing Laval Uni-
versity, and these scenes may be re-
peated this year. Many business de-
clares they wish to impregnate the
hearts of the masses with hatred
against vested rights and private prop-
erty. His grace called upon the work-
ingmen to refuse their sanction to such
a movement and he declares that they
will listen to his voice. On the other
hand, St. Joseph's Hall was filled to-
day with the partisans of the socialistic
movement, and there must have been at
least two hundred French-Canadians.

Mr. A. St. Martin defended the carry-
ing of the red flag and declared that
Montreal could not claim to be civilized
if the socialists could not do here
what is being done in every other coun-
try in the world.

It is understood that Mayor Ekers
will permit the parade, but will take
precautions to prevent any kind of dis-
order.

The literature at the hall to-day was
not only anti-Catholic, but the organ of
the socialists regaled its readers with
the account of the hanging of a Pro-
testant minister in North Carolina.

Taft Out for
Presidency

COLUMBUS, O., April 28.—That Wil-
liam H. Taft, secretary of war, is in
the canvass for the Republican nomi-
nation for president to stay, is in effect,
the announcement made Saturday night
by A. I. Vorys, state commissioner of
insurance, who is managing the Taft
campaign in Ohio.

SWALLOWED ACID ON STREET

Plainclothes Policeman Saved the Life
John Shradrick.

While on a prolonged spree John
Shradrick, a shoemaker, living at 39
Mutual-street, aged 22, attempted suicide
by swallowing a quantity of car-
bolic acid at the corner of Queen and
Bert-street Saturday night.

As he staggered down Bert-street
he was noticed by Plainclothes Officer
McKenney and Montgomery, who were
passing. He was picked up and a
search revealed a broken bottle.
Shradrick was hustled to St.
Michael's Hospital, where the poison
was pumped from his stomach. He
was then locked up in No. 2-station.

Promise He Made to Borden
to Another Session May
Not Hold Good—Many
Changes Would Be Made
in Cabinet.

OTTAWA, April 28.—(Special.)—A
prominent member of parliament who
asked that he might not be quoted by
name, said to-night: "The opposition
expect at the next session to spring
some new scandals and to give no lit-
tle trouble to the government; but I
have reason to believe that there will
not be a next session."

Mr. Laurier will return in
August and probably appeal at once to
the country. He will sound a strong
note for imperialism to please the Brit-
ish residents, and at the same time
he will have some trade concessions
from the United States. The Georgian
Bay ship canal will be another strong
card with which to appeal to the coun-
try."

It is said that the premier promised
R. L. Borden that there would be an-
other session, but as some Quebec poli-
tician very sagely said: "The promise
is not in writing."

WINNIPEG'S LOAN.

WINNIPEG, April 28.—Mayor Ash-
down states that negotiations have
practically been completed with the
Clydesdale Bank for a loan of \$250,000.

sed thru Winnipeg to-day en route to
Montreal.

Wide Differences of Views Between
Secretary Root and Ottawa Au-
thorities, Who Are Asking
National Compensation for
Sealing Concessions.

LONDON, April 27.—Foreign Secre-
tary Grey is taking advantage of the
presence of the colonial premiers in
London to obtain the first hand views
of Sir Wilfrid Laurier and Sir Robert
Bond on the questions pending be-
tween the United States and Canada
and Newfoundland respectively.

The secretary already has had one
conference with Sir Robert, but it was
largely taken up with the discussion
of the modus vivendi, which the United
States and Great Britain signed to
cover the last fishing season, and to
which the Newfoundland premier
strenuously objected on the ground of
"interference with the rights of the
colony."

Further interviews will occur, look-
ing to the permanent settlement of the
fisheries dispute. It is recognized that
this is not easy of accomplishment,
as there is a strong sentiment against
any interference of the imperial gov-
ernment with the affairs of the colonies.

The Canadian negotiations are giving
the foreign secretary even more trou-
ble than those in which Newfoundland
is interested, but every effort
will be put forth to bring about an
agreement. Premier Laurier has been
too busy thus far with the imperial
conferences and special arrangements to
discuss questions with the foreign
office, but he has made an appoint-
ment with the foreign secretary for
the coming week when the whole mat-
ter will be gone over.

Sir Wilfrid expressed to the Asso-
ciated Press his satisfaction with the
hands in which the negotiations were
left, and spoke hopefully of the out-
come, but from other sources it was
learned that there are wide differences
of views between United States Secre-
tary of State Root and the Cana-
dians.

In almost every case the Canadians
demand some national compensation in
return for what they are asked to con-
cede. As an example, to give up seal-
ing rights for the purpose of allowing
the United States to buy out the sealers,
but also want a further concession
from the United States, which might
take the form of a port in Alaska to
give traders an entry into the Cana-
dian Yukon district without passing
through American territory.

FATAL STORM IN TEXAS

One Village Destroyed and Eight
Lives Lost.

FORT WORTH, Tex., April 28.—One
village is totally destroyed, extensive
damage done to property and crops at
other points, and eight lives are known
to have been lost as a result of a storm
which was general over this state yes-
terday.

THE WILD MAN AND MR. JAFFRAY

The World's wild man had a bad turn
of Saturday. He never got on his feet
at the busy center of the town if he can
get along the roof, as he was leaping
across the roof from the opposite end
of the road to the opposite end he saw
Senator Robert Jaffray, president of The
Globe Printing Company, member of the
Niagara Falls Park Commission, director
of the Toronto Electric Company, in con-
versation with another shareholder of
the latter company. He was telling him
what his newspaper told the public Satur-
day, that it will take in all \$27,000,000
to develop the power supply at the Falls to
the authorized limit, and that, therefore,
Mr. Whitney would dare to antagonize so
great a proposition or attempt any such
illegal undertaking. The Wild Man thought
he saw a leer in the senator's eye, there-
fore certainly was in the editorial. All
the Wild Man would say was "Not being
any longer in control of himself, the Wild Man took
leaving under a big water-tank on a neigh-
borly roof, to remain there on being
evidently's shade might hit him straight
back to a solitary case in a distant
studio where he had counted on passing the
night."
