

MORE TIMBER RANGERS TO GUARD NORTH FOREST

Territory Extends From North Bay
to Junction of T. & N. O.
and G. T. P.

There has been a large increase in the number of fire rangers appointed to patrol the forests of Northern Ontario this year and the territory kept under surveillance has also been considerably extended because the tourist travel is stretching out further year after year.

Last year two parties were considered sufficient but this year it was decided that much greater precautions must be taken on account of the rush of prospectors into the northern country.

A Well Known Cobalt Miner

THOR WARNER,
one of the best known men in Cobalt, who
was with the original survey of the T. &
N. O. Railroad and located the Bonanza
Wendigo Lake claims. Owned by Cobalt
Certainty Silver Mines, Ltd.

CANADA'S PREMIER ENDORSES Cobalt Silver and Gold Dis- tricts of Northern Ontario.

From the Chicago British and Canadian
American editorial in issue of May 10,
1907:

WONDERFUL COBALT.
The London Financial News on Saturday
said: "When Sir Wilfrid Laurier said he
knew Cobalt to be fabulously rich, it may
be taken as a certainty he was not talking
through his hat. The richness of the region
did not really need his endorsement, but
it is welcome because it will help British
capital in its struggle to keep the wealth
of Cobalt from drifting into American
hands. Undoubtedly the public testimony
of the Canadian Premier is to the advantage
of the vast wealth which the Cobalt dis-
tricts have developed will give confidence
to British investors, and lead to the divi-
sion of a vast amount of speculative funds
seeking employment from fields of com-
parative uncertainty to that in Ontario,
which offers guarantees of stability that
are nowhere else found in the world of
mineral adventure, and the Province of
Ontario, whose mining regulations make it
practically impossible to secure a mining
license, cannot fail to profit by this
timely utterance. There is, however, abun-
dant capital flowing into Ontario on the
same account from the United States, and
notably from Chicago, where companies de-
veloping Cobalt holdings have been suc-
cessfully capitalized through the use of the
columns of this paper. These investments
have proven so remunerative, through the
rapid increment of stock values, that they
are being looked to with active interest by
investors, who, having been made fully ac-
quainted with the splendidly devised re-
gulations of the Ontario government for
the supervision of mining operations, are im-
pressed by the care taken to minimize
any speculative risk, by making it prac-
tically impossible to secure a mining license
without a solid basis of value to guarantee
results from development. And there is no
question that the profitable experience of
Chicago people who have already put their
money into Cobalt enterprises will lead to
much larger investments in the future, so
strong is the confidence that has been in-
spired in the Ontario El Dorado, which is
a definite reality, and not a field of dreams
inviting the pursuit of illusive but unsub-
stantial and unproductive rainbows."

The same paper prints the following:

A COBALT OPPORTUNITY

A Cobalt Company with Large
Holdings and Low Capital-
ization.

"The Cobalt Certainty Silver Mines Ltd.,
Incorporated under the laws of Ontario,
owning 340 acres and capitalized at \$2,
000,000, is on account of its large holdings
and low capitalization, going to be a levi-
athan of this province. Investors would well
investigate the proposition. Every officer
and director is a resident of Cobalt, Ont.
Full particulars can be obtained from Com-
Bros. First National Bank Building, Chi-
cago, Ill."

Specimens of the rich Cobalt silver and
gold ores are on view at Com-Bros' offices,
and these well known specialists in Cobalt
stocks have just issued a new report on the
gold fields of Larder Lake in Northern On-
tario, which they will send you free upon
request, together with a new report show-
ing all the enormously rich mineral dis-
tricts of Cobalt. This is an opportunity of
a day. You do not have to wait a life-
time for profits and dividends.
There is an active demand for Cobalt
Certainty Silver Mines Ltd. stock both in
Canada and the United States at the pre-
sent price of thirty cents per share. This
stock is advancing steadily, and is on the
road to par and should sell well above par
within three months.

COBALT OPPORTUNITY

We are organizing a syndicate to operate a proven prop-
erty, located in the centre of the rich silver-bearing area.
Syndicate shares \$250 each, payable in cash or instalments.
Only a limited number of shares for sale. Each syndicate
share entitles holder to 2500 shares in Company to be incor-
porated.

This is a full-time opportunity to get in on the ground
floor. The opportunity that seldom knocks at the door a
second time. For full particulars address

THE S. S. NESBITT COMPANY
MINING BROKERS
Confederation Life Building, Toronto.

WILLS & COMPANY BROKERS WEEKLY BULLETIN.

TORONTO, May 11, 1907.
Cobalt stocks have been quiet all week.
We would not be at all surprised if Nip-
issing passed their next dividend. We would
regard it as a perfectly proper proceeding
in view of the methods they are adopting
in their development. It would make the
stock a safe staple if the dividend were paid
and held up until it was on a firm
basis. We think it is very safe to
expect this.

Mekilly-Darragh will also very likely
pass their dividend. As a matter of fact,
they should not have paid the first one, but
as their mine is very rich it will ultimately
pay good dividends. They developed a
work is not sufficiently advanced as yet
to warrant it.

Foster—A complete report will be issued
to the stockholders of this company with-
in the next week or ten days. It will be
of such nature as to let the stockholders
know precisely where they are at, and
what their mine is worth. We think it
will cause a considerably better feeling,
and that can be absolutely relied upon.
A complete monthly report will also be given
to the public.

Amalgamated has had quite a drop, owing
to the releasing of some 200,000 shares
from pool. The loss-cut is now in 70 feet,
with about 20 feet of drift; about the
No. 3 vein. The showing is improving.
We are not selling our own.

Cleveland—A wonderful strike is again
reported on this property. According to
Boston advice it is 26 feet wide. They
also make the statement that they are
winning a surplus sufficient to pay ex-
cesses of the mine for their power plant.
Lawson—Further litigation is still going
this stock up.

Silver Queen and Tritheway—Have been
strong.

Tenagami—Has been in very good
demand, with very little stock offered. In-
siders are buying this stock as they see
it is certainly wonderful.

North Cobalt—The strike on this prop-
erty is looking very good. Here is one
of the curious conditions of the camp. This
is an actual shipping mine and while there
is a large body of stock, it is not being
picked up around 35c to 45c per share. We
think this is the cheapest single
in the district. There is no other stock
with this capitalization and showing
selling at such a price.

"Our good thing did not come off." It
will take time to get this stock up.
Peterson Lake has been extremely weak
owing to large offerings. No particular
reason assigned.

Conglomerate has also been weak, regardless
of the dividend just declared.
Yours very truly,
WILLS & COMPANY.

CANADIAN PACIFIC COBALT

DEVELOPMENT COMPANY, LIMITED

An Investment Which Will Stand
THE STRICTEST INVESTIGATION

We Wish You, "MR. INVESTOR," to Investigate

It consists of 971 acres of valuable mining lands right in the very heart of the rich Cobalt dis-
trict, and surrounded by some of the most famous mining properties, whose owners and stock-holders
have become immensely rich. The properties have a larger acreage than the great Nipissing prop-
erties, while mining engineers and mining experts have reported that "with proper and systematic de-
velopment, these properties are bound to yield ores in marvelous abundance," and in all probability will
rival any of the famous mines in this great mining camp. The first issue of 500,000 shares of treasury
stock was placed on the market less than a month ago at 12 1/2 cents a share.

Already over 400,000 Shares of the Stock have been taken up,
and less than 100,000 remain. The Price Will Positively
Advance to 15 cents on June 1st.

We do not desire to over-estimate the great possibilities that are bound to follow systematic de-
velopment of these magnificent mining properties—but when we tell you that numbers of the most prac-
tical mining men, business men, professional men and shrewd investors are putting their money in
this stock, with every confidence of big returns, you will not wonder that we emphasize the remarkable
opportunity it offers to investors. The company is capitalized for \$3,500,000. No personal liability.
Par value of shares \$1.00. Each fully paid and non-assessable.

The Balance of Treasury Shares are open to Investors at
12 1/2 cents a Share until June the First, when Stock
will Positively Advance to 15 cents.

The best days are still to come for Cobalt mining interests. Those who get in early will achieve
and make tremendous profits from their investments. Give this proposition the most careful investiga-
tion. Write to the undersigned for prospectus and map which will give you full details as to the
personnel of the company; location of claim and famous mines which surround them. Or better still,
wire orders at our expense, and make sure of stock, as we are likely to close books almost any time.
We reserve the right to accept or decline purchases of treasury stock at 12 1/2 cents any time before
June 1st.

BUY "GOLD MINT"

MINING COMPANY'S STOCK.

(TO BE INCORPORATED.)

100,000 Shares Won't Last Long. Buy Now.
Subscription at 10 Cents Closes May 15th

\$1,000 Buys 10,000 Shares. Par Value \$10,000.

\$100 Buys 1,000 Shares, Fully Paid; \$50 Buys 500 Shares; \$25 Buys 250 Shares; \$10 Buys 100 Shares; \$5 Buys 50 Shares.

THE WAY TO MAKE MONEY IN MINES IS:

BUY SHARES in a new property well located.

DON'T wait until the first profit has gone to others.

BUY a stock at the low points.

LARDER LAKE is a new gold field, untried till now. Ore
running into hundreds of thousands of dollars per ton
has been uncovered here.

SELL at a good advance.

DON'T try to take the dividends and the increase in
value. Let the other fellow have a chance.

COBALTs have been sidetracked in the mad rush to
get holdings around the first discoveries at Larder
Lake.

THE GOLD MINT PROPERTY IS ONE OF THE FIRST.

PROPERTIES

Fourteen 40-acre claims. Only
a half mile from Larder Lake.
Rich discoveries have been
made. Stock will advance
steadily.

FORMATION

Slates and quartzite with bands
of schists showing good veins
of quartz and porphyry carry-
ing free gold running to very
high values per ton.

OFFER We offer the balance of 100,000 shares GOLD MINT stock at TEN CENTS PER SHARE, as long as it
lasts, and advise its purchase on location, formation and general natural advantages.

Make checks, money orders payable to DREANY & COMPANY, 701-2-3 Traders Bank, Toronto, Canada.

Send For Latest Cobalt Map. Price 50 Cents.

FREE TO ALL LARDER LAKE GOLD

stocks. Apply— BOX 24, WORLD.

on duty in the Eastern Forest Reserve
and in the Sibley Reserve.

It will thus be seen that the depart-
ment is endeavoring to extend closer
and more intelligent supervision of the
great timber wealth of the crown on
territory where the pine is unsold.
In addition to the rangers above ap-
pointed there will be a staff of prob-
ably 300 fire rangers on licensed berths.
These rangers are nominated by the
timber licensees and appointed by the
department.

Concert for Incubates.

The patients of the Toronto Hospital
for Incubates enjoyed a splendid con-
cert on Thursday evening given un-
der the auspices of Mrs. R. B. Ham-
mon, assisted by Miss Ross. The
following ladies and gentlemen kindly
gave their services: Miss Red and
Miss Craig, Harvey Lloyd, Miss White,
D. Sinclair, lady impersonator; Mr.
Drennan, Bandman Carwell, xylo-
phone solo, and the Queen's Own
Creole Band. Miss Jenkins was a most
efficient accompanist.
