TORONTO JUNCTION, July 24.—A little boy, aged 2 years, son of James Mahoney, 36 McMurray-avenue, was bitten on the arm by a fox terrier about 5 o'clock this afternoon while sitting on the doorstep of his home. Dr. Matheson was called and cauterized the wound. The dog was shot shortly afterwards by P.C. Lavery.

About 6:15 to-night Mrs. Moffit, about 60 years old, who resides on Jerome-street, in returning from the city, got off a westbound car at the corner of Dundas and Jerome-streets, and on passing round the rear end of the car to cross the street, was struck by an east-bound car. She was badly cut on the forehead, and was taken to her home on Jerome-street, a few doors from Dundas-street. Dr. Matheson was called, and five stitches in the wound. Otherwise she is not seriously injured.

Miss Theodora W. Ives, second daughter of W. H. Ives, Dundas-street, was married in St. John's Church this afternoon to Lieut. W. J. Allan, 13th Regiment, Hamilton. Rev. T. Beverley Abbott officiated. The bridal couple left by the 6:20 p.m. train for Buffalo and eastern points for a two weeks' vacation.

Robert Hastings Aiger, who stole articles from C.P.R. freight cars, has been confined in the police station since yesterday as his father has not yet appeared to take the boy to the country, as he intended to do.

The work on the new G.T.R. Station is progressing. The site is directly opposite the dilapidated street car which at present is known as the station. The new building will have a frontage of about 90 feet and a width of about 20 feet. The foundation, which is of concrete, is almost completed, and the building itself will be of brick.

More than 1000 persons journeyed to Berlin to-day for the merchants' picnic. The C.P.R. Station this morning was the scene of great activity, and the appearance of the Junction this afternoon showed how popular this excursion has been to the townspeople, as the streets were almost deserted. A large program of sports had been arranged and the indications point to a very enjoyable day.

It only remains to repeat our former argument. Our men's clothing is made exclusively for our own trade. That means specially selected materials, patterns and colors.

Further, even at the original prices, our suits afforded a greater measure of good style and fine tailoring than can be found in most high-grade custom-made clothing.

Weigh the quality with the special prices, and you will see that this offering affords the best values in Ready-to-Wear Clothing in Toronto.

EAST TORONTO.

Magistrate Ellis Again Defers G.T.R. Case for a Week.

EAST TORONTO, July 24.—Magistrate Ellis to-day again adjourned the long-deferred case of the G.T.R., charged with violation of the Lord's Day Act.

The case will be formally adjourned from week to week until September. The magistrate also gave judgment in the case of Henry Richard Basbell, a farm hand in the employ of Anderson White, a farmer on the Danforth-road, near Woburn.

Basbell was charged with sending a threatening letter to Mabel Warwick, a domestic in the employ of A. Muir of the Kingston-road.

The young man urged Miss Warwick to marry him, which the latter refused to do. Basbell thereupon penned a threatening letter on Muir's gate directed to the young lady.

Magistrate Ellis advised Muir to leave the neighborhood, and the Salvation Army took him in charge.

The marriage of Miss Gertrude, daughter of Harry Blaylock of York, to Fairfax Bowring of Penetang look place at the home of the bride's parents at 5 o'clock this afternoon. Miss Winnie, daughter of Councillor Lawrence, left to-day for a month's visit in Midland.

Two rinks of the Rusholme-road Bowling Club met the village team on the home grounds here to-night and met defeat, by a score of 35 to 24. The village rinks were skippered by E. Stephenson, with a score of 17, and J. J. Size, 15. The city rinks were skippered by E. Legge, 11, and M. Gibson, 15.

The visitors extolled themselves as delighted with the treatment accorded them by the local team.

William Brodie, the well-known taxidermist of this village, has received from A. D. Smith of Fort William a magnificent pair of moose horns, which are attracting considerable attention. The horns were found in the depths of the forest, about 150 miles north of Fort William, and were securely locked together. They are exceptionally large and in perfect condition.

Philip Dixon, formerly of this village, has left the Cobalt district, upon the black files as the worst in the history of the mining region.

HAGERMAN'S CORNERS.

York County Lady Made a Most Creditable Record in Late Contest.

HAGERMAN'S CORNERS, July 24.—The splendid showings in the "Trip to London" contest, is a subject for congratulation. That the young lady, a purely athletic district, remote from any large centre, should make such a splendid record, attests to the popularity of Miss Beynon, and to the high standard of T. P. Woodward and C. N. Hagerman, who, together with a host of friends, were unsparring in promoting her interests.

EXHIBITION WILL BE GREATEST IN YEARS

New Grand Stand a Wonder—Other New Buildings Most Attractive.

Yesterday afternoon the press was entered by the exhibition grounds by the management.

A drive thru the grounds showed the many improvements which have been made since last year, but in the meantime showed but part of them, as the large gang of men at work on the different buildings, and on the grounds thruout, will make the citizens of Toronto still prouder of their great fair show, which in many years has been the pride of Ontario.

One thing that catches the eye even before reaching the grounds is the new stand, which is the finest in America," said Director Fleming to the newspapermen. There is no doubt that the new stand is a beautiful one. One end, made of brick and concrete, is until a walk is taken from end to end, and the seating capacity is placed at 15,000, one would be inclined to think that it was a conservative estimate.

Absolutely Safe

Nothing has been neglected in the construction of the stand. It is strongly built, affords comfort and is fire-proof. Steel brick and concrete are the materials used in its construction. It is a one-deck stand and has been built so that the man at the very top seat can see as much as the man at the bottom. The fireworks even will be visible from the very top seats, which the frequenters of the exhibition were not afforded in last year's exhibition.

The new agricultural building is also most attractive. It is 256 feet long and 102 feet deep, divided into three sections, comprising the horticultural, floricultural and agricultural departments.

The building is surrounded by a large glass dome. At separate intervals on the dome are 20 ribs, each of which is dotted with colored incandescent lights. The cost of putting in the lights alone on the outside of the dome is almost \$300. It will be illuminated by about 1500 lights.

A departure from the exhibitions in Canada is the new railway building, which is being erected. It consists of three different departments, but this year two railways only will be represented, the Grand Trunk and the Canadian Pacific. The other department will be taken up by the Ontario Government, but by next year, it is said, the Canadian Northern will also be represented. This building has not yet been completed, but will be within the next few days, and will certainly add to the appearance of the grounds.

New Dining Hall.

The old floricultural building has been done away with and has been removed to the rear of the grandstand, where it has been transformed into a first-class dining room, which will be under the supervision of Mr. Kenney, steward of the National Club.

The improvements altogether this year, and the improvements which have been spared to better the appearance of the grounds and the facilities for amusement, and which has been shown around by ex-Ald. Fleming and Harry Good.

LOCAL FRUIT MARKET.

Delivered down at the Scott-street market yesterday were light, the Wednesday fair-holiday tending to diminish receipts. Strawberries are scarce and firm, but raspberries are a trifle easier. Potatoes, new and old, continue firm in price, rather than in quality.
