Yesterday's proceedings at the luncheon of the directors differed somewhat from that of previous days, in that among the speakers was a lady, Miss Fitzgibbon, who is a representative of one of the oldest families of York County. Beside her, and scated on the right of President Withrow, was Mrs. Mulock, wife of the Postmaster-General. To the left of the president sat Mr. D. M. McPherson, M.P. It being Ploncers' Day at the Exhibition, D. B. Read, Q.C., represented the York Ploneers Society, in the place of Rev. Dr. Scadding, who was unable to be present.

After lunch had been disposed of, as usual, the president proposed the health of "The Queen," which was responded to by the party singing the Nntional Anthem.

Upon being called on Mr. D. B. Read, Q.C., thanked the directors for the invitation to be present, and invited them to visit the Ploneers' Cabin.

Miss Fitzgibbon also responded, taking for her theme the examples set by the Queen of what constitutes a true woman. She closed her well-chosen remarks by calling attention to what Canada had accomplished during the past fifty years in the way of establishing constitutional government. Canada's history was unique in the history of the world in this regard. She entreated Canadians to take a greater interest in the history of the country, so that they would be able to say they were proud of her achievements.

The 10,000 or 15,000 people who were there yesterday had the satisfaction and pleasure of inspecting the departments thoroughly and with comfort, as no part of the grounds or buildings was crowded.

The day was dedicated to the pioneers and earlier settlers and the various historical societies of the province. This accounted for the presence of so many venerable, white-haired fathers at the official functions and for the pleasant gathering of the "old boys" at the Pioneers' Log Cabin, at which Rev. Dr. Scadding read a very interesting paper, and reminiscences were indulged in ad lib. Yesterday was also the first day of the great live stock exhibit. This important department of the Fair is a great success this year, the entries being exceptionally numerous and the quality so uniformly high that the judges' closest inspection was demanded in nearly every class. Judging was continued from 10 a.ml, until 5 p.m. Among the horses the thoroughbreds and roadsters passed under the judges' eyes, and there was a high-jumping contest by heavyweight green hunters. The judging of Ayrshire, Jersey, Guernsey and Holstein cattle was carried.

To-day gentlemen will be able to see and select from new hat styles for autumn at Dineens, 81 Yonge-street. This is early fall opening day, and the firm are showing a comprehensive representation of all new English and American style silk and felt hats that are the vogue. The assortment will include Henry Heath's and Dunlap's, of which the firm are sole selling agents for Canada. The ladies are not to be overleoked, for in the ladies' department up stairs there's a very pretty display of new felt walking, wheeling and dress hats, some decided novelties, but quiet and becoming styles.

One Grand Exhibition.

Mr. D. M. McPherson, M.P., was the next speaker. He lauded the success which the directors had made of Toronto's Fair. He believed that the tendency of the times was to concentrate these exhibitions in large centres, so that one grand exhibition could be held in each year. He thought the day of the small country fair was drawing to a close, and that such would tend to the benefit of the country. He closed by drawing a picture of the great prospects in store for Canada.

Mr. R. C. Steele was called upon, and took exception to the remarks of the previous speaker regarding the deing away with the country fairs. Mr. Steele said his heart went out to the boy who was not able to attend the big Fair, but who was able to take his animal, on which he has spent so Lauch time and labor, to the country fair. He claimed that the country fairs were training schools for such exhibitions as that given in Toronto.
