Thousands of women are neglectful in this way because they shrink from the embarrassing examinations and local treatment insisted upon by the majority of obscure physicians.

Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., has discovered a wonderful medicine that cures all diseases peculiar to women, in the privacy of the home, without the necessity of these embarrassing examinations.

This great medicine is known as Dr. Pierce's Favorite Prescription. It acts directly on the delicate and important organs that bear the burdens of wifehood and motherhood. It makes them strong, healthy and vigorous. It heals internal ulceration and inflammation and stops debilitating drains. It transforms weak, nervous women into healthy women.
