

THE T. EATON CO. LIMITED

Men's Stylish Dress Needs

Nothing pleases us so much as to get hold of a man who is inclined to be fussy, particular or critical about his dress. That's the man who goes away from our Clothing Department with a good opinion of our clothing stocks. If he keeps abreast of the styles of the day he'll recognize how up-to-date our goods are. If he is a judge of qualities and tailoring he realizes that our clothing is faultless and beyond comparison. If he is shrewd enough to determine values he quickly sees the favorable advantages in our prices. Then, back of all, after being suited as to style, material, fit and price, he is surrounded by a further safeguard—the broad Eaton guarantee, which says: "Money refunded if goods don't give satisfaction." That explains the immense success of our clothing trade. Are you taking full advantage of your privilege by buying your clothing and dress needs at this store?

These suggestions from the stocks are in keeping with the season:

Men's Underwear and Shirts

Men's Fine Natural Merino Underwear, shirts and drawers, spring weight, overlapped seams, pearl buttons, French neck, close-ribbed cuffs and ankles, soft finish, natural grey shade; the drawers are made with trouser finish and pearl buttons, sizes 34 to 44, regular price 75c each, for... **.50**

Men's Neglige Zephyr Shirts, for summer wear, laundered neck and wristbands, detached link cuffs, pearl buttons, neat stripes of light and medium blue and pink shades, all sizes, 14 to 17½ in. neck measure, regular price 75c each... **.50**

CANADA AND THE CORONATION.

The people of Canada hardly realize as yet the importance and significance of the great event that is to take place in London in a couple of months. The coronation of King Edward will be accompanied by such a reunion of the people of the different parts of the Empire as has never before occurred. The presence of thousands of people from the colonies promises to be one of the notable features of the celebration. In addition to the soldiers who will represent the various colonies, there will be large numbers of visitors from all parts of the Empire to witness the stirring events in connection with the coronation. It is the desire of the British government and of the people of Great Britain to make the visit of the colonies as pleasant and as interesting as possible. The people from the colonies will no longer visit London as strangers. They will go there as fellow-citizens and friends, and everything will be done to make them feel at home. The importance of the colonies is now fully recognized by the imperial government, and the changed conditions of the Mother Country towards the colonies will be reflected in the gracious treatment that will be accorded to the representatives from the colonies who are present in London during the coronation month. The welcome to Canadians will be especially enthusiastic. Canada is the nearest of the colonies, and is bound to play a leading part in the history of the Empire. Our soldiers have obtained a reputation for bravery, and the valor exhibited by our troops at the battle of Hart's River will be still ringing in the ears of Britons at the coronation. We understand that the High Commissioner is looking after the welfare of the colonists who will visit London this season. We trust that this is so, and we hope the Canadian government will give him a free hand so that Canada may show up as big as possible in the coronation festivities.

THE INFUX OF SETTLERS.

The most pleasing fact in the history of Canada at the present time is the influx of settlers into Manitoba and the Northwest Territories. The optimistic predictions of six months ago are now being realized. Settlers are trekking towards the Northwest in increased numbers daily, and before very long there will be a veritable rush of immigrants. The formation of a land company, which has purchased an acre of land from \$3 up to \$7 and \$8 an acre are sufficient indications of the great movement toward Canada that is now under way. The prairies of Canada are practically the only agricultural lands in North America that have not been taken up. The States has expended its resources, and the people of this country are now turning with greedy eyes toward the Dominion of Canada. It looks as if we were about to experience such a rush as characterized the opening up of Oklahoma and the other Indian reservations. It is said there are 300,000 tenant farmers in the State of Iowa alone. These people can purchase land in Canada for the price of one or two years' rental in the United States. It is quite certain that such an inequality in the price of land cannot long exist. The farmers of the Western States have already become seized with the idea of the fact is beginning to have its results. The settlement of Western Canada is the very thing this country needs. We want population, not only to develop our resources, but to give us relief politically. If the country fills up at the rate of 100,000 or 200,000 a year, it is quite clear that within a decade the question, which Hon. Mr. Tarte has been bringing so persistently to the front, will vanish into thin air. In whatever direction we look, Canada is making substantial progress. The next decade will effect a wonderful change in this country. As much progress has been made during that time as has been made during the preceding 50 years.

THE TICKER IN TORONTO.

The public are notified that business will begin on the Stock Exchange at 10 sharp this morning and daily hereafter, continuing till 3 p.m., with an intermission for lunch. This hanging around till 11.30 has been a severe tax on the patience of speculators, and the decision of the exchange to set the ball going at 10 will be generally appreciated. Fortunes are made hourly minute and second has its value. Under the new rules of the exchange the public will have a gain of a clear hour and a half at the beginning of the day. It would be hazardous to speculate on the profits that may be rolled up during this newly acquired 90 minutes, but judging by what we have seen in the profits the public are liable to be enormous. Toronto is now virtually on a New York basis, the only difference being that in Toronto the shop is shut up during the lunch hour. It is a question whether the brokers should not still further consider the interests of their numerous clients and forego their lunch. It is a pity to see an hour wasted when time is of such vital importance. With stocks fluctuating as wildly as they have been lately, fortunes may be acquired or lost while the brokers are off at lunch. The public are really subjected to too much risk through the cessation of business for one whole hour. When the ticker stops in Toronto these days it is as if

the city's pulse ceased beating. The brokers should not take too selfish a view of their duty to the people. The public want a full five-hour game, played just as it is in New York. They are entitled to it, and the brokers ought to let them have it.

EXCEEDING THEIR DUTY.

In attempting to arbitrarily fix the wages of day laborers at 20 cents per hour, the aldermen are not only causing the city to sustain a direct pecuniary loss, but they are disturbing the business of the city, and not to act as the donkey-engine of labor agitators. The objection to the 20-cent bylaw is not so much the increase it will cause in the cost of various city services as the disturbance it will create in the business of private individuals. The action of the Council seems to have been designed and undertaken with a view to help the demand for higher wages which is just now being made by workmen generally. We do not object to mechanics and laborers demanding the highest wages possible, but we do object to the aldermen fixing an arbitrary and inflexible scale for unskilled laborers, no matter what their capacity may be. As Engineer Rust says, the effect of this arbitrary method of raising the rate of wages will be to flood the city with laborers from the country and other cities, and in the end the bona fide residents of Toronto will suffer.

POLITICAL INTELLIGENCE.

April 15, 16 and 17 are the dates for the Liberal conventions for South, West and East Toronto. Nothing has been done about North Toronto, and the reason is obvious.

W. T. Bailey of Violet Hill is spoken of as the probable choice of the Dufferin County prohibitionists as their candidate at the provincial elections.

The Conservatives convention for the selection of a candidate for North Brant will be held to-day at Paris. The West Huron convention will also be held to-day at Smith's Hill.

Hon. J. R. Stratton is expected to attend the Liberal conventions for South, West and East Toronto, which are to be held in Windsor on April 15 and 16.

The Socialists of Manitoulin Island are entering into an active campaign in behalf of their candidate for the legislature, John McMillan, of the Gore Bay Socialist League. Meetings will be held in every part of the island. In the Township of Mills three-fourths of the voters are said to be Socialists.

The prohibitionists of East Kent have issued a call to the people, calling a convention at Ridgeway for April 10 to decide on what course to pursue in order to best make their influence felt at the coming elections.

The Conservative convention for the four Torontoes will be held in the following order: South Toronto, St. Paul's Hall; North Toronto, Victoria Hall; West Toronto, Oddfellows' Hall; and East Toronto, Northside Avenue, East Toronto, Victoria Hall.

A meeting of the executive of the Third Ward Liberal-Conservative Association was held in St. George's Hall last night. The meeting was held for the purpose of making for the association's meeting to-night in Victoria Hall for the selection of delegates to the convention.

Toronto Socialists are preparing for an active campaign in the coming provincial elections, three of the Socialist leagues having endorsed the calling of a meeting of the party on April 20. Some favor the nomination of candidates in only East and West Toronto, while others favor placing candidates in all four ridings.

A three-cornered fight is promised in South Wellington. The prohibitionists held a meeting in Guelph recently and appointed a committee to select a candidate for the coming election.

T. A. Wardell, the late member for North West, was not a Free Mason, according to the priest who officiated at his funeral. That gentleman said yesterday morning in the presence of the clergy and the lay members of the church that he was nothing more or less than a rumormonger for political purposes.

In Richmond Hall last night a meeting of the Ontario Reform Association was held. The meeting was held for the purpose of making for the association's meeting to-night in Victoria Hall for the selection of delegates to the convention.

A fourth branch of the Ontario Socialist League is being organized in the City of London. The meeting was held last night and the preliminary work of organization done. The branch is to be named the City of London Socialist League.

When WANAMAKER MET KAISER
"I'm Glad to Meet So Entertaining a Young Man," He Said.

Berlin, April 8.—John Wanamaker was presented to Emperor William, according to The Kieles Journal, during one of the latter's expeditions to Norway, on board the Hamburg-American liner Augusta Victoria, when the Emperor visited that steamer.

Disparaging ceremony. Mr. Wanamaker, groomed by Emperor William's hand, shook it firmly and said: "I am glad to meet such an enterprising young man; that is just the sort of things we admire in America," and the conversation continued on in this familiar tone.

Emperor William, who seemed highly interested in this conversation, remarked afterward to a member of his suite: "In all my life nobody ever talked to me like that."

Hard Colds
Hard colds nearly always lead to something serious. They run into chronic bronchitis, pneumonia, consumption. Doctors know this. That's why they so generally approve of Ayer's Cherry Pectoral. They tell us they cannot prescribe anything that cures coughs so quickly.

"Ayer's Cherry Pectoral cured my daughter of a very bad cough after she had tried about everything else without relief."—E. B. Davis, Providence, R. I., Dec. 26, 1894.

YORK, COVE AND SUBURBS.

Junction School Board Fixed Their Estimates for 1902 at \$16,950.

TOWN MAY GROW 3000 THIS YEAR
Sewage Farm for Annette-Street and Vicinity—What Are Duties of Caretakers?

Toronto Junction, April 8.—The Public School Board, at their meeting to-night, fixed upon the following estimates for the year: Teachers' salaries \$13,575; caretakers' salaries \$1,025; fuel \$3,300; water and gas \$200; printing and supplies \$250. Total \$16,950.

The estimated revenue is: Legislative grant \$600; Municipal School grant \$150; Public school inspection \$120; kindergarten \$40; county grant \$150; Municipal School fees \$80; kindergarten \$100; non-resident pupils \$400. Total \$1,640.

Trustee Rice advocated placing a reasonable sum to the credit of the contingency account, as it is quite possible that the population of the town may increase 3,000 before the end of the year, adding largely to the school population.

Seven hundred will be asked for to provide for emergencies, and \$400 will be required for repairs. This will bring the estimated expenditure up to \$22,594.

Trustee Laughton upon the sanitation question in connection with Annette-street school, a subject to which he has devoted a great amount of attention, getting the opinion of a large number of medical men, and visiting London, Stratford and Berlin in order to satisfy himself upon the best system which it would be advisable for the school to inaugurate.

Annette-street school is so situated that it cannot connect with the sanitary sewer system of the town. Mr. Hall secured the services of Mr. Spentman, C.E., and at a comparatively small cost, in his opinion, a sewage farm could be inaugurated which would not only be serviceable for the school, but could be used by the residents of the western portion of the town in England. He stated that a large storm sewer on High Park-avenue, which, under this system, would be connected with the sanitary sewer, Toronto Junction, however, has this advantage over London. There the sewage has to be pumped up to the farm. Here there is a natural drainage into the river.

Trustee Laughton gave an interesting account of his visit to several sewage farms in England. He stated that the towns of large population use this system and believed that the town of Toronto would be benefited by the use of this system. The Board of Health would step in and prevent Toronto from dumping its sewage into the lake and polluting the water supply with water from an intake not far distant. Toronto, he said, was losing money by not having a sewage farm.

The new caretaker at Annette-street school did not scrub the floors during the Easter holidays. Trustee Rice wanted to know why the board had made rules which allowed the caretakers to ignore them. He also lamented that the work of the teachers was not being done properly, and that the school was not being properly maintained.

Trustee Wadsworth explained that the caretakers were not to scrub the floors during the Easter holidays. Trustee Rice wanted to know why the board had made rules which allowed the caretakers to ignore them. He also lamented that the work of the teachers was not being done properly, and that the school was not being properly maintained.

A resolution was passed authorizing the Board of Health to report upon whether the caretakers were performing their duties as they should. All this was wise, of course.

J. W. Ferrier was appointed district instructor at a salary of \$150 to succeed J. G. Wright, resigned.

Junior Notes.
A calico social and concert will be given by the married ladies of Annette-street church on Thursday evening.

Anniversary services at Davenport Methodist Church on Sunday will be addressed by Rev. J. E. Hughes, Dr. Jackson and Rev. J. T. Morris.

The Annette-street school has elected these officers: Honorary president, Mrs. R. Courley, B. A.; president, Miss Edna Mavery; vice-president, Miss Mavery; recording secretary, Miss Mavery; corresponding secretary, Miss Bull; treasurer, Miss Maud Strout.

East Toronto.
Charles McKay was charged before the magistrate on Monday with assaulting Samuel Welch. The case was remanded till Thursday evening.

Mr. L. Mesue gave an illustrated lecture on the history of the Young People's Guild of St. John's Church, Norway. The lecture was to have been given by P. Over, but he was unable to be present.

A. Y. Grant is busily engaged in instructing his pupils for the recital to be given shortly in the Y.M.C.A. Dr. Walters instructed a large class at the Y.M.C.A. on "First Aid to the Wounded" yesterday morning. The classes meet every Tuesday, and are very profitable to those who take part in them.

Stoutville.
A Lawn Tennis Club has been organized in this town. The following officers: President, H. J. Morris; vice-president, Rev. Mr. Cooper; secretary, Mr. J. E. H. Norton, of Grimsby, Ont. "When all that the doctor could do failed me, I was induced to try South American Rheumatic Cure. After taking one bottle I was not only able to leave my bed, but I was able to walk down the street. I think it a wonder."

For three weeks I lay in bed suffering most terribly and utterly helpless from inflammation of the bowels, and after taking one bottle of South American Rheumatic Cure I was able to get up and walk. I think it a wonder."
