QUALITY is the thing that keeps a car out of the repair shop.
You can't always be careful in your driving---buy a car that you are not afraid to use.

Buy the Russell Model "L" \$2,000

See it at The Automobile Show

VOU can count on this: The car that is skimp in quality will skimp in service. You can't get real service without real quality.

Model "L" is a car that is made to use---and made to use in Canada.

Handsome, comfortable, economical and serviceable. Serviceable because of these features and many more: The splendid 24horsepower RUSSELL engine; the metal-to-metal clutch-never out of order; the shaft drive-no waste of power; the nickel steel driving mechanism-no broken gears; the floating type of rear axle-extra heavy sleeves.

A remarkable value at such a price. Meeting with a tremendous sale. Even

fully equipped it costs but \$2,200. Russell "Thirty" Model "H" \$2,500

Only slightly higher in price than Model "L," with a larger, more powerful motor and a high degree of luxury and striking style. Distinctly the foremost car of its class.
