

SPENCER'S CHLORAMINE PASTILLES.

For the Cure of Hoarseness, Sore Throat, Bronchitis, Cough, and other Derangements of the Breathing Tubes and Lungs.

These are absolutely the most pleasant and efficacious Pastilles yet introduced for the relief of the various disorders of the respiratory organs, induced by the changeableness of the climate.

As the name implies, the principal ingredient of these Pastilles is Muriate of Ammonia, which is itself a valuable remedy for the cure of many bronchial affections, and is here associated with other medicines, having a powerful calmate influence over the mucous membrane of the respiratory tubes, thereby adding effectiveness to the Pastilles, and extending their range of usefulness.

Influenza, Hoarseness, Soreness of the Throat, or any irritation of the throat arising from cold, will almost invariably be relieved by the use of a few of the Tablets.

For clearing and strengthening the voice, they will be found very serviceable.

DIRECTIONS.—Allow one of the Tablets at a time to dissolve slowly in the mouth, taking from eight to twelve during twenty-four hours.

The Spencer Chloramine Pastilles are largely prescribed by Physicians, the speedy relief from their use giving them a greater popularity, wherever known, than any lozenge prepared for Coughs, Colds, Inflammation of the mucous membranes, etc., etc.

Messrs. John Wyeth & Bro., the celebrated Philadelphia Chemists, say of them:—"In our judgment, the combination is an improvement upon the ingredients in Jackson's Ammonia Lozenges. The formula was devised we understand, by Mr. Lenber, an Operative Chemist, held in high esteem in this city for many years; certainly, he has united most judiciously Chloride of Ammonium and Chloride of Potassium, Extracts of Dulcamara, and Hyoscyamus, as calmate anodynes, the pectoral Balsams, Tolu and Peru, with Senega, Squills and a minimum of Ipecac. In fact, we think more highly of it than of any prescription known to us, our long experience making us familiar with the composition of all this class of remedies."

"We have no hesitation in endorsing them unreservedly, as likely to prove of more benefit, immediately, than any of the popular cough remedies, being free from all of the many objections attending the use of Syrups and Lozenges, that so often derange the digestive organs, nauseate, and destroy the appetite, the effect in these cases, being due, usually, to an excess of morphia, tartar emetic, or both, doing harm rather than good."

Price, 25 cents per Bottle, on receipt of which we will forward by mail.
