"You're right: I came in bear thick he said this:

"When I tell you that the Deutschland new assessment law. ly necessary metals, of which there is a serious shortage in Germany for munition purposes, and that there is reason to believe these particular metals were a part of the small stock mined in Allied territory, you will see again how to be the serious shortage in Germany for munition purposes, and that there is reason to believe these particular metals were thaving a chat, and, as usual, the conversation veered round to the expense of living. "It's really awful how the rise in prices has affected us!" said one sadly. "Why, do you know that my bills for clothes for this year are exactly double what they were last year?" (Goodness)" grasped the other. "I ly:

announced that the company had arranged to spend half a million dollars in enlarging its plant in the United States.

Ever since the war began the Borden government has been urged to prohibit

the export of nickel, on the ground that it would be shipped from the United States to Germany, but the government paid no attention. Now Sir Robert Cecil says there is reason, to believe that part of the Deutschland's cargo was "certain vitally necessary metals mined in Allied territory," which is a diplomatic way of saying "nickel mined in Canada."

Sir Robert's statement lends a greater interest to the query of a minister in Toronto, who is also a Conservative, at a recent political meeting, when he asked how much Canadian nickel came back "The mileage of roads assumed in a county system is usually from 12 to 18 per cent. of the total road mileage of the county, and therefore bears some proportion to the number of townships and area of the county. The improvement of 15 per cent. of the roads will county system is usually from 12 to 18 per cent. of the total road mileage of the county. The improvement of 15 per cent. of the roads will county, and therefore bears some proportion to the number of townships and area of the county. The improvement of 15 per cent. of the roads will county system is usually from 12 to 18 per cent. of the total road mileage of the county, and therefore bears some proportion to the number of townships and area of the county. The improvement of 15 per cent. of the roads will county system is usually from 12 to 18 per cent. of the total road mileage of the county. The improvement of 15 per cent. of the roads will county and therefore bears some proportion to the number of townships and area of the county. The improvement of 15 per cent. of the roads will county system is usually from 12 to 18 per cent. of the roads will county, and therefore bears some proportion to the number of townships and area of the county. The improvement of 15 per cent. of the roads will county system is usually from 12 to 18 per cent. of the roads will county system is usually from 12 to 18 per cent. of the roads will county system is usually from 12 to 18 per cent. of the roads will per cent. of the county. T

ed how much Canadian nickel came back by the department."

The Borden government's vehement ary county roads are built of gravel or assertion that no Canadian nickel has broken stone, well drained. If the magone to Germany is answered by Sir terial can be got locally the cost is less. the export of nickel except from Can-soil, and freight rates on stone must be Canadian people do not now rise in emphatic protest they will be open to the the Empire. There is no such thing as a surface over an old stone or macadam dodging the issue raised by sir Robert road, a cost of \$2,500 or \$8,500 per mile

It was alike complimentary to Dr. cils for the improvement of roads near

and the Canadian Club that so many attended the luncheon at Bond's last evening to hear an exposition of the new assessment law. There has not been so large an attendance of members at a cent. respectively.

Canadian Club luncheon for a long period, and that they were rewarded for their attendance last evening is as certain as that they were there. With the siderable value. skill of a trained teacher, thoroughly master of his subject, Dr. Kierstead explained the provisions of the proposed new assessment law, and set forth the shown that the present price of four in reasons which influenced the commission in adopting them. The hopeless inefficiency of our present system of civic

Cheap Cathartics and Cheap Salts Can't

Cure Constination ABBEY'S EFFERYESCENT SALT ACTS GENTLY AND GIVES PROMPT RELIEF

Purgative pills, sweet lozengers, cheap salts and other cheap cathartics cannot cure constipation. They merely irritate and sting the tired bowels.

Abbey's Effervescent Salt overcomes constipation in an easy, gentle, normal way. It acts on the liver, stimulates the flow of bile, regulates the bowels and kidneys, and puts the whole system in a vigorous, active condition. Take it first thing on arising in a tumbler of warm water.

FOR THE NERVES there's nothing like Abbey's Vita Tablets—50c. a box. Abbey's Efferisalt

Atonic laxative that regulates
the kidneys and bowels.

LIKELY BENEFIT ST. JOHN

(Extract from the Times, London, England, September 30.)

lines."
Early in this month it was pointed out in The Times that the Anchor Line was understood to have acquired an interest in the passenger ships of the Donaldson Line, which trades to Canada, and it would seem likely that this development has given rise to the present report. The interest in this transaction was enhanced by the fact that the Cunard Company holds a controlling interest in the Anchor Line and that a few months previously the Cunard had concluded a far-reaching agreement with the Canadian Northern Railway Company and had acquired the vessels owned and controlled by that company.

The Canadian Pacific Company now

vessels owned and controlled by that company.

The Canadian Pacific Company now own the Allan Line, the vessels of the two companies being managed by the Canadian Pacific Ocean Services Limited and the White Star Line is associated with the Dominion Line as being joint subsidiaries of the International Mercantile Marine Company of New Jersey. The passenger lines in the Canadian trades may therefore be separated into three principal groups as follows:

Canadian Pacific-Allan Line, White

cruits for the P. P. C. L. I. The standard of the men who have been taken on the strength of this unit is exceptionally good. As in former universities companies the men enlisted in this unit have been carefully selected with the result that the company offers congenial companions in its ranks to men who

would fail to find such company in other regiments.

One feature of the company is the number of men who have passed their lieutenant's qualifying examinations and have enlisted in the ranks of this company. The first draft sent across from this company went overseas in July and had six qualified lieutenants in its ranks. This excellent record has been surpassed by the second draft, which is ready to proceed overseas at once. This draft has enlisted ten men qualified for the rank of lieutenant and one who has passed his captain's qualifications. Several of these men were offered appointments with units now forming but have preferred to proceed overseas at once and win their appointments in France.

Veno's is no ordinary cough mixture, but an absolute specific for every kind of cough, cold, or throat trouble. It is just wonderful how it cures those acute colds and throat troubles that are so prevalent at this season. A few doses of Veno's and you are well again, because Veno's is a real lung and chest herouble at once. There is no dope in it so you can take it freely, and give it to children, too. Prices 30 cents and 60 cents, from druggists and stores throughout Canada.

OLD ENGLISH RECIPE FOR CA-TARRHAL DEAFNESS AND

HEAD NOISES. If you know someone who is troubled with head noises, or Catarrhal I caness, cut out this formula, and hat d it to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. Recent experiments have proved conclusively that Catarrhal Deafness, head noises, etc., were the direct cause of constitutional disease, and that salves, sprays, inhalers, etc., merely temporize with the complaint and seldom, if ever effect a permanent cure temporize with the complaint and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective prescription which was eventually formulated, and which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that any one can treat themselves in their own home at little expense.

one can treat themselves in their own home at little expense.

Secure from your druggist I oz. Parmint (Double Strength), about 75c. worth. Take this home and add to it ½ pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose should begin to relieve the distressing head noises, headache, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat, are other symptoms that show the presence of catarrhal poison, and which are often entirely overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are directly caused by catarrh; therefore, there must be many people whose hearing can be restored by this simple home treatment.

Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this prescription a trial.

Important Note: In ordering Parmint always specify that you want double strength. Your druggist has it or he can easily get it for you. If not send 75c.—postal note or money order—to the International Laboratories, 74 St. Antoine St., Montreal, Que., Can., and they will supply you.

INSTEAD OF PAINT

DON'T paint your pretty home this season, but use instead Velvex Creosote Shingle Stains. By so doing, you can bring out all the beauty of the wood. And think of the preservative value. Velvex Shingle Stains contain Creosote, the greatest wood preservative known. This means prolonged protection Velvex Creosote Shingle Stains Half the Cost - Twice the Wear

Velvex Creosote Shingle Stains cost about half as much as paint. And they wear much better because they penetrate the wood. They do not evaporate or dry out and of course they cannot peel off. These stains come in any color you want. They are very easily applied. You want to investigate them. We have the compared in any wear of the wear of the wear of the wood stained with Velvex Creosote Shingle Stain. Carritte-Paterson Mfg. Co., Limited Halifax, N. S. St. John, N. B. Sydney, N.
