Bismarck to be Asked to Take Part in the Prussian Councils Meetings.

Berlin, Jan. 26 .- What political interest there has been aroused this week centered mainly in the deliberations of the commission to which the anti-revolutionary bill was referred. Some bitter contests have been fought within the commission between the representatives of the government and the opponents of the bill, with the result that the government was forced to lay before the comprinted or verbal, upon which the bill was based. The government also suffered a distinct rebuff on paragraph 3, making it a felony to introduce socialist or radical ideas into the army, and the second and more important section of this paragraph, providing severe penalties, even when the indictment has no

Emperor William last night received in audience Count Aoki, the Japanese minister, who presented his majesty with the insignia of the order of the Chrysanthemam, bestowed upon the emperor by the mikado of Japan in recognition of the services rendered to the Japanese army by the instructions given by German officers to the Japanese.

It is announced that the emperor has announced his intention of presiding personally at the meetings of the Prussian state councils, which will be convened to discuss agrarian questions, and that Prince Bismarck will be specially invited to take part in the deliberations. Count von Kanitz and Count von Maribach, the agrarian leaders, will take part in the deliberations of the council of state, teh former having already been appoint-'ed a councillor, and the appointment of the latter has been decided upon.
