Turn it over, turn it back, examine it right and left, inside and outside, it falls to present to me a single re-deeming feature in any phase of it from beginning to end.

You have a total of \$139,000,000 representing the direct and indirect liabilities which the Government assumed in connection with this enterprise. You could have taken a portion of that money to the harbors of Hallfax and St. John and could have equipped those harbors so that they could have handled the traffic coming them for occur shipment. You would

Why is St. John passed over? If the shortest line is the object, why do you go 100 miles out of the way? St. John is only 428 miles from Mon-treal by way of Levis, Riviere du Loup and the St. John Valley.

You will have over again the result that the traffic which reaches the At-lantic will be outpouring itself at two Canadian ports. Of course, the Grand Trunk Pacific Company agree that they will not in any manner encourage the transportation of such trade by reutes other than those provided. Of course, they agree to that and very possibly will adhere to the agreement as far as that is concerned. But they will say: We do not appearance the diversion of the second se encourage the diversion of traffic. We have adhered to the letter of our contract.
