\$1.65

A little girl from the age of 7 to 12 is sometimes as hard on shoe leather as the average boy of the same age. They don't want a heavy clumsy boot, but one which combining durability and good appearance will fit the foot equally as well as a more expensive one.

That's the reason why parents insist on having our Box Calf Boots for their girls.

ANOTHER WAR IN SOUTH AFRICA.

British Troops Sent Against the Basutos.

Flying Column Has Left Pretoria—Boers Alarmed, Are Pleading for Permission to Carry Arms.

NEW YORK, Sept. 28.—A special cable from London to the Sun says that it is stated there that a driving force left Pretoria on September 24th for the border of Basuto land.

Since the death of Lerthoff, the paramount chief, and the report of the last German defeat in Southwest Africa the Basutos have been restless and a war-like feeling has been simmering ready to burst out at any moment.

Young chiefs are traversing the country stirring up a sort of holy war that is aimed more at the Boers than the British. It is alleged that the British resident at Maseru has recently appeared to the high commissioner to arm the farmers living on the border.

The Boers there are presently asking permission to carry rifles. The Pondoos are also reported to be restless and anxious to join the Basutos. The story includes a statement that Great Britain is being urged to send more troops. Nothing official on the subject is given out.

FILIPINOS NOT FIT FOR INDEPENDENCE.

Gulf Between Natives and Americans are Widening—Uncle Sam's New Domain a Smoldering Volcano.

SAN FRANCISCO, Sept. 28.—Members of the Tatt party who arrived from the Orient have summarized for the Associated Press their impressions as follows:

Congressman Cooper (chairman of the house of committee on insular affairs): "One effect of the trip will be, in a large measure, to take the question of immediate Philippine independence out of politics. Personal study of the situation has, I think, convinced the members of our party, Democrats and Republicans, that the inhabitants of the Philippine Islands are not now capable of free selection of government. This conclusion is admitted to be true by educated and conservative Filipinos themselves, though they like a majority of the other people of the islands, hope for an independent government when the inhabitants of the islands shall become fitted to maintain it."

Congressman Foss, chairman of the house committee on naval affairs: "I made this journey largely for the purpose of making a study of questions touching within the scope of the work of the committee of which I am chairman. The journey to the Philippines gave me every opportunity to see Cavite, Manila Bay and Subig Bay and return home more firmly convinced than ever of the importance of the establishment of an extensive and thoroughly equipped naval base in the Philippines."

Senator Patterson (Cal.): "The Philippines, the more you know of them the more serious appears the problem. I am convinced that in its government we are getting farther and farther away from Secretary Taft's policy. The Philippines for the Filipinos and ultimate independence. The gulf between the natives and the Americans is widening. I fear the Philippines are a smoldering volcano."

FELL TWO STORIES; NOT A SCRATCH.

Marvellous Escape of the Two Year Old Daughter of William McColgan, of Rock Street.

The two-year-old daughter of Wm. McColgan, of Rock street, fell last night from a two-story window and is now as lively as ever, having in some marvellous manner escaped without any injury.

The little girl who was playing in a room on the second floor climbed up on a chair and pressed her hand against a window screen which was on hinges. The screen was unlocked and opened letting the child fall to the ground.

The child was picked up unconscious and carried into the house and Dr. Andrews of Garden street, was immediately summoned. No injuries were discovered and now, as stated before, the child is playing around the house.

FRANCE AND GERMANY SIGN TREATY.

PARIS, Sept. 28.—Premier Rouvier and Prince von Radolin, the German ambassador, at noon today signed the Franco-German accord concerning the Moroccan conference, thus definitely determining the difficult negotiations. Preceding the signature, Dr. Rosen, representing Germany, and L. Rivoll, in behalf of France, met at the foreign office and went over the final details of the protocol.

The official details of the accord will be given out later.

BANK OF NEW BRUNSWICK JOINS BANK OF MONTREAL.

Deal For Amalgamation Said to be Practically Concluded, Awaiting Only the Sanction of the Stockholders.

While the officials refuse to admit that the deal has been concluded the Star is authoritatively informed that details for the amalgamation of the Bank of New Brunswick with the Bank of Montreal have been practically arranged and await the sanction of the stockholders.

Ever since his connection with the Bank of New Brunswick it is understood that Manager W. E. Stavert has been an advocate of some such union, both on account of the competition under present conditions and also on account of the present distribution of tax conditions. The directors have apparently been brought to the same way of thinking, and it is said that the merger was practically settled during a visit of Mr. Stavert and a delegation of the directors to Montreal this week. What the terms are, when the union will take place or what the effect will be on the staff and stockholders of the Bank of New Brunswick is not yet revealed.

Of course nothing can be finally settled until the matter is referred to a meeting of the stockholders.

W. E. Stavert, general manager of the Bank of New Brunswick, when seen by the Star this morning, would neither deny or confirm the correctness of the report, although his manner without doubt pointed to the rumor being well founded.

Said Mr. Stavert: "The Bank of New Brunswick has from time to time had proposals for merging with other banks of Canada have had, but up to the present time they have not seen their way clear to accept any of the propositions that have been made to them. Whether such proposals have been received from the Bank of Montreal, and has been discussed by the directors, I am not in a position to say. "Supposing any proposition of the sort had been received and discussed by the bank, it would rest with the shareholders to accept or refuse it. A two-thirds majority being required."

"The Bank of New Brunswick has a capital of \$500,000, with a rest fund of \$800,000. The shares are \$100 each. The present price is \$250 to \$285. The bank was established in 1820, and for the last twenty years has paid a twelve per cent. dividend. Our bank has approached this dividend in recent years, but none have come nearer than ten per cent."

Asked whether the recent report as to his going over to the Bank of Montreal was not kind color to the Star's information, Mr. Stavert said: "I am not in a position to say anything about it. I keep on guessing."

J. M. Robinson, one of the directors of the Bank of New Brunswick, in reply to the Star's request for confirmation, said: "I suppose it comes out of Mr. Stavert's going over to the Bank of Montreal. As far as I am concerned I have nothing to say for publication. I can't say one way or another whether or not we have received any such a proposition. This is a private matter, and I have nothing further to say."

Col Geo. West Jones, a director, said this morning that he had absolutely nothing to say for publication. The bank could not be sold without the consent of the shareholders, and as one he knew nothing about the talked of deal. Mr. Jones was well pleased with the showing the bank had made in the last few years and saw no reason why a sale should be made.

Frank Starr also one of the Bank of New Brunswick directors, informed the Star this morning that he had absolutely nothing to say on the matter one way or the other. To use Mr. Starr's expression he was "dumb."

The proposed union will bring together the two oldest banks in Canada. The Bank of New Brunswick is three years the junior of the Bank of Montreal, which was established in 1817. Some years ago the capital was reduced from \$1,000,000 to \$500,000, share holders taking cash for half of their holdings. Last June it paid its 16th half yearly dividend.

During the period of Senator Lewis's and Mr. Schofield's management the Bank pursued an exceedingly conservative policy. While other banks were opening agencies throughout Canada, the Bank of New Brunswick did business only at the head office. Business in this limited field was found profitable and for a time the Bank of Montreal took advantage of strong connections it had in Boston and elsewhere.

When Mr. Stavert took over the management he saw the necessity of establishing agencies throughout this country. He has in a few years opened branches in Carleton, North End, Campbellton, Sussex, Riverview, (Albert Co.) East, Florenceville, Grand Manan, Summerside, P. E. I. and Charlottetown, P. E. I.

GIRL'S ASSAULTER KILLED BY ENRAGED FATHER.

DETROIT, Mich., Sept. 28.—While protecting his 16-year-old invalid daughter from assault today in the yard in the rear of his residence on Michigan Avenue, William R. Harrington lost Charles Martin, a laborer who boarded at his home, so severely with a baseball bat that Martin died two hours later in a hospital. During the melee Ernest Bloom, another boarder, was also beaten by Harrington, and severely injured. Martin, it is alleged, by Harrington, had been drinking and attacked the girl when she stepped out into the yard early in the morning. Her cries aroused the father, who rushed to her rescue with a baseball bat. His blows fractured Martin's skull. Harrington mistook Bloom's endeavors to help him for an attack, and beat him also with the club.

EQUITABLE HAS PAID OUT \$24,000,000 IN SIX MONTHS.

NEW YORK, Sept. 28.—A statement was given out from the office of President Paul Morton, of the Equitable Life Assurance Society today saying that at a meeting of the directors of the society to be held tomorrow, Mr. Morton will report that the Equitable Society has paid out from January 1st, until Aug. 31, 1905, in death claims, annuities, endowments, purchased policies, and other benefits, the sum of over \$24,000,000.

"This," the statement declares, "is an average of more than \$115,000 for every working day and has been done in the regular course of business. The money all went to the beneficiaries of the society and in many instances was the sole reliance of those receiving it."

The mayor of one of the small towns near Paris has indicated a "yellow" laughter from assault today in the yard in the rear of his residence on Michigan Avenue, William R. Harrington lost Charles Martin, a laborer who boarded at his home, so severely with a baseball bat that Martin died two hours later in a hospital. During the melee Ernest Bloom, another boarder, was also beaten by Harrington, and severely injured. WITTE WARMLY WELCOMED HOME.

Populace Acclaims Russia's Greatest Statesman.

Crowds Received Him In St. Petersburg and Presented Him With an Address of Gratitude.

ST. PETERSBURG, Sept. 28.—M. Witte, the senior Russian peace plenipotentiary, returned to St. Petersburg today, and the enthusiastic welcome accorded by the waiting crowds fully demonstrated the great popularity of the statesman and public appreciation of the services he has rendered his country at Portsmouth. Cheers followed cheer as the plenipotentiary alighted from the train, and when later M. Witte replied in an intensely patriotic strain to the addresses of welcome, popular enthusiasm found full vent. The crowd had collected near where M. Witte would descend from the train, and when he appeared they broke out into long and loud cheers to which M. Witte bowed acknowledgment. The spokesman then advanced and read the address of welcome, and in the meantime standing bareheaded. It read:

"You have accomplished your difficult task and the nation is grateful to you. You have given the credit for your feat to Emperor Nicholas and President Roosevelt, Emperor William of Germany and to the press but you forgot yourself. We however appreciate your services to your country. The tree you planted at the Washington homestead at Mount Vernon will serve as a token of the union between the two nations. You have gained much. For ourselves and for those present we give you a hearty welcome."

When the cheers had died away M. Witte who was deeply moved by the sincerity of the welcome said:

"I was so little prepared for this kind reception that I must ask your pardon for the incoherence of my words. I have performed my duty well because I strictly obeyed his Majesty's instructions, because circumstances favored me, because the world is weary of this bloody war, because all classes of American society from President Roosevelt down were in sympathy with my and your cause, because I was true to my country and her and our interests."

M. Witte's last word was followed by further loud and hearty cheering, after which M. Witte shook hands with the deliverer of the address and his friends and former colleagues.

GRACE BEECHAM ARRANGED.

(Special to the Star.)

MONTCTON, N. B., Sept. 28.—Grace Beecham was arraigned in the police court this morning on the charge of setting fire to a barn owned by Flewelling Wilbur. After hearing the evidence of George Dryden, the man in charge of Wilbur's place, the case was adjourned till this afternoon. The Beecham woman besides setting fire to the barn assaulted a girl named Wilbur, who was stopping in Wilbur's house.

LONDON HONORS GENERAL BOOTH.

LONDON, Sept. 27.—The corporation of London, at a meeting this afternoon, unanimously resolved to confer the freedom of the city on General Booth, of the Salvation Army, in recognition of his great work for the moral and social elevation of the people. This is regarded as an unusual recognition by the city, which is accustomed to bestow the freedom only on members of royal families, military naval heroes or statesmen of marked preeminence.

A physician at Bordeaux, France, was called on the other day to graft an eyelid on a man's face who had been badly burned. There was no healthy skin near the eye so a piece of skin was partly severed from the man's left arm and kept in contact with the eye for ten days. The operation is said to have been a complete success.
