The most delicate persons may take it with perfect safety.

Prepared only by George Franks, Surgeon, London.

Caution—None is genuine unless "George Franks, Blackfriars Road," is engraved on the Government Stamp attached to each bottle.

The following Testimonials are selected from amongst numerous others forwarded to Mr. Franks, from Joseph Henry Green, Esq., F.R.S., one of the Council of the Royal College of Surgeons, Surgeon to St. Thomas's Hospital, and Professor of Surgery in King's College, London.

"I have made trial of Mr. FRANKS'S Solution of Copaiba, at St. Thomas's Hospital, in a variety of cases of discharges in the male and female, and the results warrant my stating, that it is an efficient remedy, and one which does not produce the usual unpleasant effects of Copaiba."

(Signed) "JOSEPH HENRY GREEN, Esq., 45, Lincoln Inn Fields, April, 15, 1835."

From Bransby Cooper, Esq., F.R.S., one of the Council of the Royal College of Surgeons, London; Surgeon to Guy's Hospital, and Lecturer on Anatomy, &c.

"Mr. Bransby Cooper presents his compliments to Mr. George Franks, and has great pleasure in bearing testimony to the efficacy of the Solution of Copaiba in Gonorrhoea, for which disease Mr. Cooper has prescribed the solution in ten or twelve cases with perfect success."

(Signed) "NEW-STREET, April 13, 1835."

From ALEXANDER TWEEDIE, Esq., Surgeon to the Metropolitan Free Hospital, Carey-street, Lincoln's Inn Fields.

"I am, dear Sir,—I have notes of six cases, in which I have administered your preparation of Copaiba, for the cure of Gonorrhoea, in all of which the disease has been subdued in a shorter period of time than according to the ordinary plans hitherto made use of."

"Besides these cases of which I have taken notes, I have treated several instances at the Grenville-street Hospital, and am quite satisfied that it possesses a control over the urgent symptoms of Gonorrhoea, relieving the discharge and mitigating the scalding in a manner, that I have not observed in the usual methods of exhibiting Copaiba."

"In one instance only did it disagree with the stomach; but in this it seemed to depend rather on the method of exhibition than on the remedy itself, for on diluting it with a larger quantity of water, the objection was at once obviated, and the patient got well in ten days from the time that I commenced taking the medicine. I have not had a case in which the discharge continued longer than ten days after commencing this treatment."

"I am, dear Sir, yours very truly, (Signed) "ALEXANDER TWEEDIE, Esq., 10, New-street, April 13, 1835."

Within a period of two months, upwards of 300 patients were treated with Franks's Specific Solution of Copaiba, with perfect success, at the above Metropolitan Hospital, viz. St. Thomas's, Guy's, and the Free Hospital, by their respective Surgeons, whose Testimonials are given above.

BINNEY'S PURE FLUID MAGNESIA. Greatly improved in purity and condensation.

THE great advantages of this elegant preparation are, that being in a fluid state, and possessing all the properties of Magnesia in general use, it is not liable to form dangerous concretions in the bowels. It corrects acidity and relieves heart-burn effectually, without injuring the coats of the stomach, or producing any of those insupportable results resulting from the use of the Carbonates of Soda and Potash; it prevents the food of infants turning sour during digestion; it is very useful in cases of gout, gravel, and other complaints of the bladder, and under all circumstances, it acts as a pleasing aperient, peculiarly adapted for females particularly during pregnancy.

Dr. Conquest has expressed his regret that he should have allowed himself to be imposed upon by an ephemeris statement of Sir James Murray, and says "I have acquired the use of the certidone I gave you," he subsequently said "I am pleased that you continue the use of my certidone." The following is a copy—

"Dear Sir,—I have been much pleased with the Binney's solution of Magnesia, and feel with many others that the profession and the public are indebted to you for a highly valuable addition to our list of medicines. It is agreeable and aperient, it cannot fail to supersede many now in use, but which so offend the taste and the stomach, as to justify their banishment from our prescriptions."

Your's respectfully, J. P. CONQUEST, Finsbury-square, July 19, 1835.

"Mr. Dinneford, 172, Bond-street." Dr. Wilkinson of Bath says "a bottle of Sir James Murray's Fluid Magnesia, sent me by a chemist in the town for analgesia, gave me most agreeable relief of anguish and throes of colic of Soda to the owner; white years yielded sixteen grains of pure magnesia to the owner. It consequently bears testimony to the correctness of the above results."

"Mr. Murray of Bath, after denying in the strongest terms the impudent fabrication attributed to him, says, "in proof of my sincerity, I have written to Sir James Murray to cancel my name into only in connection with his testimonials."

Mr. Heron of the National medical hall, Dublin, says, "your preparation is really beautiful. I enclose you Morgan's analysis of your solution; he says it is the purest he ever saw, and 32 per cent stronger than Sir James Murray's, which he formerly examined and reported on."

The Acidulated Lemon Syrup usually sold with the solution, renders the most delightful of salads, Draughts, and increases the aperient quality; it is procured of JOHN G. SHARP, Chemist & Druggist, Agent for New-Brunswick, who will supply prescriptions containing the certificates of the most eminent Physicians in London. June 25.

To the Afflicted. NOTWITHSTANDING the great powers the Essence of Smoke possesses in the preservation of the human system, it has since its introduction into this Province, been found to possess other properties, which are of higher importance to the human system, viz. its wonderful Sanative power in the removal of inflammation, allaying Pain, arresting the progress of Peers, Morification and Cancer; consequently useful in a variety of diseases.

Hundreds of respectable persons residing in St. John and in the country, can, and are ready to attest to its efficacy in the following diseases, from which it has had its most successful effects: Rheumatism, Pain in the back, &c. Inflammations and swellings of every description; Spine, Venereal, Stricture, Gonorrhoea, &c. Applied warm with the friction of the hand.

Chronic or acute inflammation of the Eye; cutaneous eruptions; burns and scalds; ring-worm; and head-aches—Applied cold.

Cancer, gonorrhoea, fever, scalds—Applied warm.
