

THE HOUSE IN SUPPLY

Continued from page 1. small villages, however, he had tried to have one vendor handle the books, owing to the small profit from their sale.

Hon. Mr. Fleming replying to Mr. Leger, Westmorland, said that the receipts did not always come up to expenditures, owing to the fact that at the end of the year a great many books remained in stock in the book room.

Fish, Forest and Game Protection. On the item of \$12,000 for fish, forest and game protection, Mr. Sweeney said this was less than was expended last year, and he would like to know if the government expected that protection would cost less this year.

Hon. Mr. Grimmer said owing to the efforts of the guides' association the department did not think it would cost so much this year to protect the fish, forest and game.

Hon. Mr. Grimmer, in reply to Mr. Robinson, said that in future licenses would be imposed on non-resident fishermen.

Mr. Robinson said that there was formerly an abundance of shad in the head waters of the Bay of Fundy, but very few could now be caught there. He would like to see something done to revive the shad fishery. He hoped the government would take the necessary steps with the Dominion authorities.

Dominion Game Little Aid. Hon. Mr. Grimmer said the Dominion government when approached on the subject of fisheries had given the province a very good reception. However, he thought further persistent efforts would probably do some good.

It had been urged that the time for fishing be extended from August 15 to Sept. 15 and he rather favored the idea and would do all he could to see what change could be made.

Hon. Mr. Grimmer in reply to Mr. Byrne, said that a future only provincial license fees would be imposed on non-resident fishermen and the Dominion government would no longer exact a license.

Hon. Mr. Grimmer in reply to Mr. Byrne said the Dominion authorities had agreed that the game warden of the province would, in future, collect fishing licenses from non-resident fishermen.

Slaughtering Game. Hon. Mr. Grimmer in reply to Mr. LaBillico said that the complaint had reached his department of the illegal slaughtering of game in Restigouche county and the game warden of the province were to take the necessary steps to stop it.

The Quebec and New Brunswick authorities were working together to bring about a more satisfactory condition of affairs along the boundary of the province.

Mr. LaBillico claimed that the chief game warden in charge there had no knowledge of the country and conditions in Restigouche and in the slaughtering of game was going on there continually.

Hon. Mr. Grimmer said that the big game all over the province was increasing. There was evidence outside of the fact that the sportsmen were coming to the province in larger numbers than ever and were more successful. There were claims filed against the province for damages for moose killing a cow, for a partridge eating blossoms of an apple tree, and all sorts of cases to show that game was very plentiful.

Hon. Mr. Hazen said charges such as mentioned in the hon. member for Restigouche, had come to his notice last winter and a special warder who was a qualified guide had been sent there to investigate. He reported that persons who had sent information had only rumors upon which to base their charges.

The government realized there was the same trouble in Restigouche county that there was in Quebec counties along the border of the provinces and that the people were carrying over one province to another and slaughtering game and under the present law it was difficult to take any effective action against them.

The government had arrangements under way with the government of Quebec whereby this state of affairs would be remedied. The government had advised that the appointment of a chief game warden whose duty it would be to look after the county of Restigouche.

Hon. Mr. Sweeney, who knew of a party of sportsmen who had found carcasses of cow moose in the woods in Restigouche while travelling between the railway and the fishing district.

Immigration Grant. On the item of \$9,000 for immigration, Hon. Mr. Fleming in reply to Mr. Sweeney explained the workings of the system of carrying on immigration work both on this and the other side of the water so that the work might be carried on in the most effective manner possible. Officials in charge of the immigration department were efficient and conscientious and doing good work. The special immigration agent who was stationed at Woodstock for some time did good work in the short time he was employed.

Mr. Leger (West.) said the government ought to turn its attention toward bringing back to this province former residents who were now living in the New England states.

Hon. Mr. Fleming said the government would be very glad to do anything it could in this direction, but surely it there was anything that could be done to have former New Brunswick residents now residing in Massachusetts to return to this province the official of the Dominion Immigration department at Boston, who was a former New Brunswick man, would be able to do so.

Dominion Government Lax. The Dominion government had not done its share towards promoting immigration to the eastern provinces, although the Dominion immigration officials in London were working heartily in accord with the provincial immigration agent there.

Mr. LaBillico asked what had been done towards providing for the settlement of lands along the line of the International Railway. He said that many people were coming over from the Province of Quebec and wanting lands along the International Railway for settlement, and something would have to be done to provide for their demands.

Hon. Mr. Grimmer said the settlement lands had been laid off along the line of the International Railway and the lots now surveyed were not all taken up. More settlements were being laid off as rapidly as possible, but the land surveys were scarce in this province, and it was difficult to get men to do the work. In fact the staff were being worked to their

capacity at present. He had arranged today with Thomas Malcolm to make a trip over the International Railway in a short time and make an inspection of the provisions made for the protection of the forest from fire.

Books and Printing. On the item of \$250 for Legislative Library books, Dr. Sormany said had previously been recommended that some French books should be placed in the library.

Hon. Mr. Hazen said the matter would be looked into.

On the item of \$13,800 for printing, Mr. Bentley asked if the work was put out to tender.

Hon. Mr. Fleming said most of the printing was of such a nature, as pamphlets that it could not practically be put out to tender, but all such printing as reports was done by tender.

Hon. Mr. Fleming replying to Mr. Robinson, said that in the matter of printers, the lowest bidder was accepted. The government selected, say ten newspapers, and asked them to put in tenders. An endeavor was made to distribute the printing of the company mentioned by his honorable friend reports among printing concerns all over the province.

Hon. Mr. Hazen said that it was the opinion of both the auditor general and King's printer that the government was having printing done today as cheaply as that class of work could be done.

On the item of \$12,000 for steam navigation, Dr. Sormany asked if the amount included an appropriation for the Gloucester Navigation Company, in which the money was to be distributed, was left with the department of public works, and the claim of the company mentioned by his honorable friend would be considered by the chief commissioner when the time came.

Roads and Bridges. On the item of \$258,000 for roads and bridges, Mr. Robinson asked if there was any division of the money so that there would be a certain amount for roads and a certain amount for bridges.

Hon. Mr. Morrissey said it was a proper subject for discussion whether the division should not be made. He had heard it argued that the amount for each county should be voted by the House. He said that Westmorland county had always been well treated by the government and would continue to be in future.

Mr. Robinson said his county got no more than it deserved and probably not as much. He wished to refer to the matter of the Hollow Creek bridge which the chief commissioner had referred to yesterday and the impression had gone out that the chief commissioner had charged Mr. Leger with having received a commission on the cost of construction.

He had examined the books in the department today and had found that only \$38 commission had been paid and not over \$100 as stated by Hon. Mr. Morrissey and that a commission had not been paid to Mr. Leger.

Hon. Mr. Morrissey said he also had examined the books and found that the commission paid was considerably more than \$38. In fact it really amounted to over \$84.

Mr. Leger said he wished once more to state that he had received no commission on the construction of any bridge. He was willing to have the matter fully investigated and would agree to the premier and the leader of the Opposition going into the accounts and making a report back to the House.

The Counties and Road Money. Mr. LaBillico said he was glad the government had decided to treat all counties alike with regard to the roads because they had not done so in the past in the case of Restigouche. He thought the government would find it impracticable to carry out the provisions of their highway act with regard to statute labor in some parts of the province.

Hon. Mr. Morrissey said the government had given Restigouche county last year over \$4,000.

Hon. Mr. Hazen, replying to Mr. Byrne, said that he did not think the gentlemen opposite were getting on when they said the government did not treat the county well because it returned members unfriendly to the government. If any such county was overlooked it was because its members did not place the matter before the government.

St. John county returned opposition members, yet it had been treated very well. Campbellton was another instance. Restigouche in which it was situated sent members unfriendly to the government, yet when Campbellton was wiped out by fire, the government did everything to aid it in its distress.

He thought it would be a good idea for the legislature to vote a certain amount to each county. Of course some counties would have to receive more than others, but that was only reasonable. His hon. friend from Gloucester (Byrne) had said that the auditor general had recommended that separate amounts be voted to highways and bridges. But he must remember that suggestion was impracticable since roads and bridges were so completely interwoven. In Restigouche last year, notwithstanding the complaint of his hon. friend from that county (LaBillico), \$4,000 had been expended on roads and \$29,000 on bridges. This was the largest bridge expenditure in any single county with the exception of Albert.

Hon. Mr. Hazen—What about voting road money to highway boards? Hon. Mr. Hazen continuing, said that he did not agree with that idea at all because it would lead to endless confusion inasmuch as some boards would get more than others naturally and others less, so jealousies would be sure to arise.

Mr. Leger's Affair. Mr. Copp said he would like to add a word to what had been said concerning the charge made in the Moncton Times that Mr. Leger (Westmorland) while a member of the legislature had received money for superintending a bridge. He thought this report was very unfair to Mr. Leger, since the chief commissioner in his speech yesterday had not so charged him. Mr. Leger at the time had denied having received such money and now the official reports show that denials of the Moncton Times' story as made by members of the House and newspapers should publish such denials.

Hon. Mr. Hazen said that he agreed with Mr. Copp that denials made by members should be given publicity.

Hon. Mr. Fleming said that highway boards in some counties would refuse to expend money on highways in Simonds parish in St. John county

the highway board would rather not have the roads repaired than expend money on them for the government.

Mr. Bentley—Oh nonsense. Hon. Mr. Hazen—I don't want my hon. friend to say "Oh nonsense" to me. That is an absolute fact.

Mr. Bentley said he would like to refer to a charge appearing in the synopsis report of the chief commissioner's speech yesterday that he had destroyed a bridge in St. John county. That matter had been thoroughly discussed and he had given the statement an emphatic denial. If anyone thought the bridge had been injured by him, he was willing to pay a competent man's expenses to go down there and examine it and publish his report.

Hon. Mr. Morrissey said that the old government tried the plan some years ago of giving money to municipal councils to spend on bridges and found it impracticable. He had made a charge that when a gentleman had done a certain amount of damage to the bridge in St. John county, but it was confined to a letter which he read from a neighbor of the hon. gentleman and there was any difference of opinion, it was a matter between them.

The items of supply were all passed, and resolutions reported to Mr. Speaker and the committee asked leave to sit again on Tuesday next.

Hon. Mr. Hazen introduced a bill respecting the medical profession. He explained that the bill was introduced at the instance of the council of physicians and surgeons, and that it would affect the provisions of the Riddock Act to provide for reciprocal registration of physicians.

Mr. Robinson gave notice of inquiry as to whether the bridge in Queens county was burned in 1910 and as to the highway grants for the parish of St. Mary's, York county.

Hon. Mr. Hazen presented the report of the law committee.

Mr. Slipp presented a petition in favor of a bill to incorporate the War and Fort Kent Bridge Company, Limited.

The House adjourned at 11:40 o'clock.

WITNESS EXAMINED IN THE HECTOR CASE

George Hector, the colored man, who is in jail on the charge of cutting Mrs. Davidson's throat, at Willow Grove, a few weeks ago, was taken before Magistrate Ritchie again yesterday afternoon, and Dr. Baxter gave evidence that he attended the injured woman at Woodstock, and was wound on the neck with some stitches ordered her removal to the general public hospital.

The chief commissioner had charged Mrs. Davidson was recovered from her injuries so as to be able to leave the hospital. It is expected that the preliminary examination of Hector will be finished in a few days.

PRESBYTERY GRANTS CLERGYMAN'S PETITION

At a meeting of the St. John Presbytery, St. George's, yesterday afternoon, it was decided to grant Rev. Frank Baird, of Sussex, permission to accept the call extended him by the Presbytery of Woodstock, and to grant him a salary of \$1,000 per annum.

Rev. David Lang, the moderator, presided, and among those present were Rev. L. A. McLean, Rev. Frank Baird, Rev. Gordon Wood, Rev. R. A. McDonald, of Richmond, Rev. A. A. Graham, Andrew Malcolm, H. A. White and Wm. L. Brown.

Mr. Baird will continue his charge at Sussex till June 1.

HOTELS. Dufferin. J. C. Jones, Petticoatville, Mrs. C. H. McGee, St. George's, H. McNaught, Woodstock, J. W. McK. Gill, Chicago, Joe Page, Montreal, W. J. Osmond, Boston; Mrs. C. G. Burke, Fredericton; Mrs. A. B. Wood, Fredericton; W. K. Hyslop, Geo. Rogers, New Westminster; Geo. O. Wentworth, New York; H. W. Taylor, Weymouth; F. J. Robinson, Halifax; Capt. and Mrs. Butcher, Machich, W. A. McKeay, Kentville; H. R. Emerson, Amherst.

Royal. J. T. Murphy, Halifax; A. L. Schoeder, J. F. Liscomb, Montreal; F. A. Douglas, Toronto; H. C. Read, Sackville; F. C. Smythe, Halifax; H. H. Coward, New York; J. W. Robinson, St. Stephen; Mrs. E. B. and Mrs. Machich, W. A. McKeay, P. D. McTeich, Montreal; R. H. Weddall, C. H. Fowler, W. L. Jennings, Fredericton; D. W. Smith, Boston; P. P. Farmer, St. John; S. T. Sisson, New York; F. M. Dean, St. Catharines; G. H. Luss, Chatham; T. C. L. Ketchum, Woodstock; Mrs. J. P. Murchill, Miramichi; J. Rapheal, T. H. Bacon, Montreal; S. L. Shannon, Moncton; R. A. Lawlor and wife, Chatham; W. G. Cole, A. B. Farmer, Toronto; J. McDonald, Halifax.

Mrs. Anca Horton. St. Martins, April 5.—The death of Mrs. Nellie Blanch Horton, wife of Amos Horton occurred on Tuesday, at 7 a. m. Mrs. Horton was a victim of tuberculosis, and had been ill for about a year. She was 30 years of age and is survived by her husband, her father and mother, Mr. and Mrs. George Parks, of St. Martins, and four brothers and one sister. Funeral service will be held at her late residence, on Friday, at 2 o'clock, by Rev. R. Dalzell, followed by service in the Methodist church. Interment will take place at Mosher Hill.

Presentation to Popular Man. As he was about to leave for Vancouver last evening, Chester McCosh was waited upon by a party of his friends and presented with a handsome souvenir and an address, as he was the official reports show that McCosh has many friends here, who while wishing him success in the city where he will reside in future, will regret his departure.

Card of Thanks. James H. DeWitt of Lower James, Queens county, wishes to thank his many friends and neighbors for the kindness and sympathy shown him in his recent bereavement.

What the English Newspapers say of THE NEW ENCYCLOPAEDIA BRITANNICA Now in course of issue by the Cambridge University Press

The first 14 volumes of the Eleventh Edition of the Encyclopaedia Britannica were sent out to the periodical press of the British Isles for review towards the end of January. The following Extracts from the many enthusiastic reviews which were then published in Great Britain are characteristic of the attitude towards the new Edition, not only of the press but of every one who has seen and examined the volumes.

"A Historical Incident, Full of National Importance."

"The publication of the 11th edition of the Encyclopaedia Britannica by the University of Cambridge is something more than a merely literary event. It attains to the dignity of a historical incident, full of national importance, alike in its fulness of treatment, its comprehensive character, its authoritative nature—depending upon the work of the highest authorities—its detailed information, its illustrations and maps, and lastly, but by no means least, its index, we believe the present edition to leave behind any and every other publication of the kind, and its successful completion is a matter of congratulation, not only to those responsible for it, but to the English nation at large."—Mr. W. L. Courtney in the Daily Telegraph.

The Most Remarkable Enterprise in Modern Publishing.

"There is no keener pleasure than that of announcing the completion of a great work, and that pleasure is ours today. The first fourteen volumes of the 11th Edition of the Encyclopaedia Britannica are before us, the remaining volumes will follow in a few days, and one of the most remarkable enterprises in modern publishing has been brought to a successful issue. Merely on the score of achievement one can but feel proud that such a great work should have been produced in England, and that pleasure is ours today. The first fourteen volumes of the 11th Edition of the Encyclopaedia Britannica are before us, the remaining volumes will follow in a few days, and one of the most remarkable enterprises in modern publishing has been brought to a successful issue.
