MAY CHANGE THE FOG SIGNAL

Experiments Now Being Conducted Off Partridge Island

STEAM INSTEAD OF COMPRESSED AIR

Col. Anderson, Marine Department Official, Here from Ottawa and Others Making Test—He Speaks of the Results.

The fog alarm on Partridge Island was subjected to a series of interesting experiments Friday in order to test the merits of the system of sounding the diaphone by steam drive instead of compressed air, as at present.

Col. Anderson, of the marine and fisheries department, Ottawa, with J. P. Northey, of Toronto, president of the Canadian Fog Signal Company, and W. H. Gaines, Merion (Conn.), who introduced the first diaphone into the States, arrived in the city Friday.

The government steamer Lansdowne was employed to convey the party some miles out into the bay, from which distance the result of the several methods was ascertained.

SUSSEX SEED FAIR A GOOD ONE

Exhibits Not Numerous, But of Good Quality—First Skating Carnival of the Season.

Sussex, N. B., Feb. 1.—Sussex and St. John Agricultural Society held its annual seed fair today in Melley Memorial Hall.

The exhibit of grains and roots, while not quite so numerous as former years, made up in quality what it lacked in quantity and the judge, Prof. Klink, of St. Anne de Bellevue (Que.), expressed himself as well pleased with many of the samples.

A meeting was held in the hall this evening, the speakers being S. J. Moore, maritime representative of the seed branch, Shubenacadie; Prof. Klink and Bernard, deputy commissioner of agriculture.

The subject of seed selection was ably dealt with by Prof. Klink with the aid of several charts setting forth the results of experiments.

The first carnival of the season at the Institute this evening was well attended. The costumes were good and numerous.
