QUICKLY!

THE REASON WHY.

We learn from the local organ of the conservatives that the reason why the Tory papers have no comment to make upon Lieutenant-governor Dunsinuir's action in entering into a contract for the wholesale importation of Japanese coolie labor to supplant white labor in this province, is that these papers have not the space to devote to such a matter after dealing with the news of the day and commenting upon the more important items.

For our part we cannot conceive of any more important item of news arising, demanding comment by the responsible press of the province, than this recent exposure of the attempt on the part of James Dunsinuir and the C. P. R. to flood this province with Japanese labor in direct defiance of the approved policy of both the Dominion and provincial governments and in absolute hostility to the spirit, if not the letter, of the legislation of both governments. If the people of British Columbia propose to quietly ignore such conduct on the part of the predatory rich and of big corporations then there will be precious little sense in continuing any agitation for the restriction of Asiatic immigration.

It is remarkable, however, that at the time of the last provincial elections the provincial press had ample space to devote to the publication of wholly false reports that the G. T. P. railway company, in connivance with the liberal party, had contracted for the importation of large numbers of Japanese for construction work and, further, they found space to comment upon what they termed an outrageous condition of affairs and to plead with electors not to vote for the liberal candidates on the strength of these false and malicious reports.

Now that the lieutenant-governor of the province and the Canadian Pacific Railway company have been convicted of what the G. T. P. people were falsely charged with, the Tory commentators have not a word to say. Why? If they were wrong for the G. T. P. to import Japanese laborers, is not equally wrong for James Dunsinuir and the C. P. R. to do so? The G. T. P. people were tried and found guilty by the Tory press without a scrap of evidence. James Dunsinuir and the C. P. R. have been found guilty by the production of authentic official documents and the Tory press finds that its space is too limited to comment on the subject!

When the opportunity to strike a decisive blow, to make clear to the whole Dominion that the people of British Columbia are of one mind on this point, the Tory press apologizes for its silence on the plea of lack of space. The public will infer that sincerity is conspicuously lacking in the Tory anti-Asiatic campaign and its convention talk of "a white Canada."

Recent London cablegrams announce that the British barmoid is not to be legislated out of existence. It was reported sometime since that the Bannerman government contemplated reforms to the license law that would declare the employment of girls and women in bars illegal. Home secretary Gladstone has argued a deputation that this drastic step is not to be taken, the government realizing, he said, that any drastic provisions to check, diminish, or put an end to the employment of women behind the bar might have an immediate result far more disastrous than any mischiefs accruing from the present system.

The Serge of the Serges

In the first place "Blunoz" serge is not made in Nova Scotia.

In the second place, it is not all a blue serge, for it is a freely woven Australian wool serge in both the navy blue and black colors. You have a choice of either.

To be sure they call the Nova Scotians "Blunoses"—but that is not the derivative of "Blunoz" serge.

Only two woollen mills in Canada can make the "Blunoz" Serge—and the Semi-ready Company control and absorb in their tailor shops the entire output.

This is the Canadian Serge which has made the British mills "sit up," and it is the Standard cloth by which the Government judge the tariff needs of this particular Canadian industry.

BROWN & COMPANY

406 BAKER STREET. "THE PLACE WHERE YOUR DOLLARS BRING THEIR VALUE."

DON'T THROW MONEY AWAY

The Chatham Incubator and Brooder, 444 created a New Era in Poultry Raising.

The setting Hen as a Hatcher has been proven a Commercial Failure.

The Chatham Incubator and Brooder has always proved a Money Maker.

A Light, Pleasant and Profitable Business for Women

Many women are today making an independent living and putting in money every month raising poultry with a Chatham Incubator.

Any woman with a little leisure time at her disposal, even if she has never raised poultry before, can make money right from the start. Perhaps you have a friend who is doing so. If so, we can give you the names of many who just now, and this is just where our special prize came to them.

Of course, success depends on getting a right start. You must begin right. You can never make any considerable money as a poultry raiser with hens as hatchers. You must have a good incubator and brooder. This means in the ordinary way an investment which, perhaps you are not prepared to make just now, and this is just where our special offer comes in.

If you are in earnest, we will set you up in the poultry business without a cent of cash. If we were not sure that the Chatham Incubator and Brooder is the best and that with it and a reasonable amount of effort on your part you are sure to make money, we would not make the special offer below.

WE WILL SHIP NOW TO YOUR STATION FREIGHT PREPAID A CHATHAM INCUBATOR AND BROODER.

You Pay us no Cash Till After 1906 Harvest

THE CHATHAM INCUBATOR—It success has encouraged money to make more money than they ever thought possible out of chicks.

Every Farmer Should Raise Poultry

Almost every farmer "keeps hens," but while he knows that there is a certain amount of profit in the business, even when letting it take care of itself, few farmers are aware of how much they are losing every year by not getting into the poultry business in such a way as to make real money out of it.

The setting hen as a hatcher will never be a commercial success. Her business is to lay eggs and she should be kept at it. If you want to raise chicks for profit it is best to begin by installing a Chatham Incubator and Brooder. With such a machine you can begin hatching on a large scale at any time.

You can only get one crop of your fields in a year, but with a Chatham Incubator and Brooder you can raise chicks all year long. You can have a crop every month.

Quite a few farmers have discovered that there is money in the poultry business and have found this branch of farming so profitable that they have installed several Chatham Incubators and Brooders for their regular household duties.

The market is always good and prices are never low. The demand is always in excess of the supply and at certain times of the year you can practically get any price you care to ask for good broilers. With a Chatham Incubator and Brooder you can start hatching at the right time to bring the chicks to marketable condition when the supply is very low and the prices accordingly high. This you could never do with hens as hatchers.

We know that there is money in the poultry business for every farmer who will go about it right. All you have to do is to get a Chatham Incubator and Brooder and start it. But perhaps you are not prepared just now to spend the money. This is why we make the special offer.

IS THIS FAIR?

We know there is money in raising chickens. We know the Chatham Incubator and Brooder has no equal.

We know that with any reasonable effort on your part, you cannot but make money out of the Chatham Incubator and Brooder.

We know that we made a similar offer last year and that in every case the payments were met cheerfully and promptly, and that in many cases money was accompanied by letters expressing satisfaction.

Therefore, we have no hesitation in making this proposition to every honest, earnest man or woman who will add to their yearly profits with a small expenditure of time and money.

This really means that we will set you up in the poultry business without a cent of cash. You can have a crop every month. You can have a crop every month. You can have a crop every month.

Write us a post card with your name and address and we will send you a full particulars as well as our beautifully illustrated book, "How to make money out of chicks." Write today to Chatham.
