As Madame Nora was manu-facturing a slip she was constantly sur-rounded by ladies and gentlemen as her deft fingers moulded the different parts of the vessel. When it was finished the peo-ple were loud in their praise of the artistic piece of work. The other artists also come in for a share of praise. The princi-pal feature of the evening was the voling a handsome glass pipe to the homliest man in the room. The competition lay be-tween ex-Ald. Roche and Clement Read. artist. The friends of both parties work-ed assiduously for their respective candi-dates. The poll closed at nine o'clock, and on the count being made Mr. Read had a plurality of 14 votes, and became the possesser of the pipe, which is a marvel-lous piece of workmanship. He will no doubt cherish the article as a memento of the esteem in which he is held by his many friends. This evening a prize the value of \$20, will be given to the most handsome lady in the audience. **Foreign News.** SPECIAL NOTICES The Hampden Watches are superior to all at W. S.
