

TESTIMONIALS.

The following are a few out of the many testimonials received from those who have it in use:—

MY DEAR SIR,

MONTREAL, August 31, 1867.

I have much pleasure in certifying that I consider your Patent Gas Carbonizer a most valuable introduction, especially when the quality of the gas, and the high price charged for it, is considered. I have one now in my house, put up by you, and find I have a much better and brighter light, totally free from smoke or smell of gas, since its introduction. In addition to this I burn much less gas, as I use one foot burners instead of three feet, which I formerly used, and have more light now than I had with the large burners without the Carbonizer.

To Mr. R. Alsop.

Very truly yours,

J. BELL SMITH, Jock.

SIR,

MONTREAL, Sept. 9, 1867.

I take pleasure in certifying that I have had one of Woodward's Patent Carbonizers in use in my house for some time, and am perfectly satisfied that it is a valuable improvement. I believe that I am saving a large amount of gas, as I am using one foot burners instead of three feet, which I used without the Carbonizer, and the light is fully satisfactory.

To R. Alsop, Esq.

A. J. PELL, Great St. James Street.

DEAR SIR,

MONTREAL, 9th Sept., 1867.

I have much pleasure in adding my testimony to the usefulness of Woodward's Carbonizer, both as regards increased illuminating power and also diminished consumption. Having now had one on my premises for some time, which is working with undiminished vigour, I very confidently recommend it as being able to do all you promised for it.

To R. Alsop, Esq.

I am, &c.,

D. R. FERGUSON, 100 McGill Street.

DEAR SIR,

MONTREAL, Sept. 9, 1867.

In answer to your enquiry, it gives me much pleasure to say that Woodward's Patent Carbonizer, which you placed in my Billiard Room in Victoria Square, has so far given entire satisfaction. I have no doubt of its economy, as I am now using two foot burners, and have fully as good light as I had with four feet burners without it. I confidently recommend it to all who wish to economise in using gas, believing it will do fully as much as you promise.

Very truly yours,

HENRY McVITTIE.

Results as shown in Victoria Billiard Room.

30 days' consumption without Carbonizer, at 5.0 feet per day	18,000 ft.
" " " with Carbonizer, 3.25 feet per day	9,500 "
Saving by its use in 30 days	8,500 ft.
" " " in money, at £2.00 net cash cost of gas	\$22.02
Cost of Benzole consumed	2.00
Net saving per month, being over £3 per cent	\$20.02

DEAR SIR:

NEW HAVEN, April 24, 1868.

We put up one of Woodward's Gas Carbonizers in the St. John's Church of this city, and reduced the burners from 6 to 3 feet burners, and in some instances to 2 feet, and our lights are beautiful beyond description. The brilliancy of the light and economy of gas are beyond question; with over 14 burners we are not consuming 1 gal. of spirits a month. With great confidence we can recommend it to all gas consumers.

Yours respectfully,

To R. ALSOP.

J. R. BROWN & CO.
