DAIRY PRODUCE.

Values on butter have advanced steadily and at Montreal finest creamery has sold at 27 1/2c to 30c. "But strange to say," reports the Trade Bulletin, "some of our large dealers and purchasers openly state that they do not believe in the maintenance of present prices." Several thousand packages of butter have been bought lately for English account the Old Country demand being strong, as Germany takes the bulk of the best butter from Ontario and the Australian butter will be late in arriving this year.

On the Toronto market, fresh made cream is at 27c; cheese, 27c to 28c; dairy prints, 25c to 26c; and bakers', 25c to 26c. An easier feeling seems to prevail in cheese circles, although there is little change in price. A factor in weaker prices has been the absence of hot weather which makes the dealers suspicious of heated cheese, and some have advanced on the market in this condition.

The Trade Bulletin of Montreal gives the total value of shipments up to Sept. 15th as 1,185,000 boxes compared with 952,517 boxes for the corresponding period in 1914, an increase of 232,483 boxes.

DAIRY BOARD SALES.

Woodstock, Sept. 25. - Nine factories boarded 1393 boxes all colored. The highest bid of 15c was refused by the board. On the curb several lots changed hands at 14 1/2c.

Kingston, Sept. 23.-1125 cheese offered; all sold, 130 boxes of white at 14 1/2c; 930 colored at 14 1/2c.

Vankleef Hill, Sept. 23.-723 white and 23 colored cheese boarded; the white sold at 14 1/2c; colored at 14 1/2c.

Brookville, Sept. 23.-2892 colored and 1130 white. The sales were 130 boxes at 14 1/2c; 1000 colored at 14 1/2c; 1000 white at 14 1/2c.

Alexandria, Ont., Sept. 23.-553 white cheese sold at 14 1/2c.

Frederic, Sept. 24.-690 white and 40 colored boarded. Price for colored 14 1/2c and for white 14 1/2c.

Victoriaville, Que., Sept. 24.-1000 boxes sold at 13 1/2c.

Quebec, Que., Sept. 25.-392 packages butter; six factories sold at 31c; three factories unsold.

St. Elizabeth, Que., Sept. 25.-350 cheese sold at 15 1/2c; 273 packages butter at 21 1/2c.

Belleville, Sept. 25.-1705 white, 50 colored sold at 14 1/2c; 149c and 14 1/2c. Colored at 14 1/2c.

Oranville, Sept. 24.-1779 colored cheese sold at 14 1/2c.

Napanee, Sept. 24.-1515 cheese sold at 14 1/2c.

The hog market is promising. Shipments have greatly increased, but so far there has been no reduction in price. This, however, should not be taken as proof that the market cannot be weakened by too heavy shipments. Last year prices were strong at this time and shipments came along so rapidly that more in less than three months prices fell from \$10 to \$7.50.

The trade movement at Montreal was similar; prices declining in the early part of the week and strengthening towards the close, largely because of cooler weather. Good steers common at \$7.50 to \$7.50; fair, \$6.25 to \$7; com., \$4.75 to \$5.75; butchers' \$5.25 to \$6.25.

Lamb are in smaller supply and strong demand. Ontario stock selling at \$7.75 to \$8; and Quebec, \$7 to \$7.25; sheep, \$4.50 to \$5.50; calves, \$5 to \$20 each. In hogs, choice selected lots brought \$9.50 to \$9.75, and rougher lots, \$9.25 to \$9.50, weighed off cars.

A NEW JERSEY RECORD LANS 64th of Hood Farm, 26735 has completed a year's trial, producing 13,448.6 lbs. milk, containing 23.7 lbs. fat, or 962.0 lbs. butter containing 85 per cent. fat. She is the world's best milk producing breed for a single year and under four and one-half years of age.

Lans 64th taking a long way from Flving Fox's Maid, 26638, the Maine cow which broke the record in this class a year ago with her production of 789.9 lbs. of fat.

Spernheld O'red's Tomlin, who just about a year ago set this class, is thus relegated to sixth place, and is no longer among even the leading five cows, showing the rapid advance in production as more cows are being tested.

Lans 54th of Hood Farm is by Hood Farm Toronto 6226 with 60 daughters in the Register of Merit. She is out of Pig's 27th of Hood Farm 19040, 407 lbs. fat at 3 yrs. 6 mos. a daughter of Hood Farm Pogia 9th 55553 with 76 daughters in the Register of Merit. She was bred and is owned by Mr. C. I. Hood, Massachusetts. Commenting on this record, Hood's Dairyman says editorially:

"She is of the type that has produced the big records and won the battles in the public demonstrations and yet, with all this, her type, the American type, has been relegated to the back ground so far as the show ring is concerned, and this place is found the most difficult, refined island type which the American dairymen as a whole have never appreciated. It is no indication that they ever will. The island type cows are beautiful and have a charm that attracts and holds the fancy of a few breeders and there are to be found many very valuable cows among them. But the American type wants them a larger, stronger and a more robust type of cow, and he is going to have it."

ANNUAL SALE OF REGISTERED HOLSTEIN BULLS AND CLYDESDALE SHIRES, ALSO HACKNEY HORSES AT PUBLIC AUCTION Thursday, October 4th, 1915

TO BE HELD AT COLONY FARM, ESSONDALE, B.C. The coming AUCTION SALE to be held at the Horse Barn Area, Colony Farm, on the above mentioned date, promises to be an event of importance to all stock breeders in the province. It is acknowledged that the cattle available are of the offspring of some of the greatest Milk Producers in the World, and of the finest Bull ever offered for sale in Canada.

Included in the list are some of "Aazrie Cornucopia Newman," whose daughters are making World's Milk Records, and whose sons offered at this sale are from World-Record milk producing cows.

Included also are Bulls from Cows of 39 to 34 lbs. of butter in 7 days; Milk, 1 day, 120 to 123.5 lbs.; also sons of Korydye Series."

The Horses are mostly all imported stock from Scotland and England, with the exception of the young stock which has been bred right on Colony Farm from imported pure bred Irish and Dams.

This important offering is scheduled to commence promptly at 10 o'clock and will not doubt be largely attended by stockmen who wish to take advantage of the opportunity to secure some good breeding stock.

She will Lay All right

Don't wonder whether your hens will lay. Decide that they shall lay. Eggs come naturally in winter, if you supply the food hens get on range in summer.

because meat contains the protein that the hens need to produce eggs. Over one-third of the solids in an egg consists of protein. Certainly the small amount of protein in grains is not enough.

You must give your hens grit, green foods, clean water, you must mix your grain foods, you must balance your rations with Beef Scrap. That is, you must, if you want winter eggs
