

It is when you climb a hill like the one here pictured, that your car shows the kind of a heart it possesses. The long ascent to a short curve, terminating in a still steeper incline, tests the engine severely.

## The Briscoe Triumphs on Severe Hill Tests

The average car—slowed down to make a curve half-way up a hill—will not "pick up" again on the final ascent. But the Briscoe will. The Briscoe Motor responds to your call for a spurt—and up, up, up you go—a steady flow of power answering your foot pressure on the gas lever—and you finish that long climb triumphantly "on high."

The efficiency of the Briscoe Motor has been demonstrated in several ten-day, non-stop test runs, in one of which a record of over 29 miles to the gallon was established.

In less spectacular fashion, the Briscoe Motor is proving its economy and efficiency by year-in, year-out service, on all sorts of roads, and under all sorts of conditions.
