confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I, too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hait my finger and it gathered and threw out pieces of bone. If I hait myself so as to break the skin, if y is sure to become a running sore. I had to take hots of medicine, but nothing has doze no so much rood as Ayer's Sarapastra. It has made ne well and strong."—

AMERICAN HEREFORD RECORD.

Through the courtesy of the Secretary, Mr. C. R. Thomas, we have received a copy of the thirteenth volume of the American Hereford Record. This latest edition to our herd book literature contains 5,000 entries, being numbers 50,001 to 55,000 inclusive.

In a recent letter, Mr. Alfred Brown, of Bethel, Ont., writes that he has had a very successful year with his live stock. Correspondence has been very heavy, and he has been successful in sellinga large number of animals. He breeds Ayrshires, Yorkshires, Shropshires, borking and Wyandotte fowls and Pekin ducks. We have known him for some time and consider him a very intelligent, progressive man, possessed of a good business ability.

We are in receipt of the catalogue recently issued by Mr. A. C. Hallman, New Dundee, Ont., containing the pedigrees of a number of his newly imported Tamworth swine. Breeding Tamworths is a new department in his breeding establishment, but if the proprietor makes as great a success in breeding Tamworths as he has done in Holsteins, we will hope for something choice. At all events has taken the lists in proper style to accomplish results, as he has imported part of the foundation stock direct from the headquarters of some of England's most successful breeders, while others are prize winners at recent shows. Send for this catalogue.

Captain W. P. Couch, of the S. S. Sarnia, of the Dominion Line, having landed his Quebee passengers and cargo, left there for Montreal, Tuesday, the 12th. He reports his inward passage thus: Sailed from Liverpool 28th of October, experienced a heavy westerly sea and strong gales from the north west especially on Wednesday, November 1st. Saw two icebergs in Straits of Belle Isle. Had gales and snow on the 6th instant, which afterwards cleared and freshened to a strong gale from Father Point. The good vessel brought with her Mr. W.S. Hawkshaw, Glanworth, Ont., as a passenger, and for that gentleman seventy-six fine Shropshire sheep of fine quality, nearly all of which are young ewes, which are in lamb by one of the finest sheep in England. Mr. Hawkshaw has arrived home. He has imported a great many very valuable Shrops from England, and has never yet lost a sheep. The sheep in this consignment are said to be among the best this gentleman has ever imported, which claims a good deal for them, as Mr. Hawkshaw has brought over many of the best sheep ever imported into America.

Mr. Hawkshaw has brought over many of the best sheep ever imported into America.

The meeting of the National Swine Breeders' Association called to meet at the World's Columbian Exposition, October 13, was not held, because the executive committee deemed it unwise to do so with such small attendance. There was every reason to believe that this meeting would be very largely attended, but swine exhibitors were required by the Exposition authorities to remove their stock before the date fixed for the limit of this exhibition, so that many breeders were compelled to go with their hogs before the day fixed for the meeting of this Association, while the remainder were on that date necessarily engaged in shipping their stock. The failure to hold this meeting is to be regretted, because there are matters of interest to the swine industry that should have attention, and through no other source can these be accomplished as well as this organization. The executive committee will appoint a date for another meeting, as soonas convenient timecan be decided upon. In the meantime membership should continue to increase, and the Association kept in the best possible condition for the accomplishment of additional and greater benefits to the swine industry. By the payment of \$1 to Jno. G. Springer, Secretary, Springfield, Ill., for membership fee, new members will receive the proceedings of the Association for five preceding years.

the proceedings of the Association for five preceding years.

In addition to the large cash premiums that the American Southdown Association offered at the World's Columbian Exposition, special premiums of the four first volumes of the American Southdown Record were offered in the several States, and in the Canadas, for two recorded Southdown lambs one ram and one ewe. Believing that these offerings have been a benefit to the Southdown interests, in that it has placed these sheep prominently before the people, and their reputation for hardiness and for the best quality of mutton thus brought to the attention of farmers and small stock growers, it is with particular pleasure that the American Southdown Breeders' Association has sent a set of the volumes of its record to the following breeders, who won these premiums in their respective states: W. E. spicer, Harvard, Neb.; C. C. Shaw & Son, Newark, Ohio; F. W. Barrett, Wadsworth, N. Y.; John Jackson & Sons, Glanford Station, Ont., Can. Breeders in other states than those above mentioned who were successful in this competition should make early application to the Secretary of the American Southdown Breeders' Association for the volumes of the Record to which they may be entitled. Membership in the American Southdown Breeders' Association's continually growing, and applie ations for registry of animals for Volume V of the Record indicate that the volume and become to the printer about January 1st.

Breeders are taking advantage of the rule lately adopted that permits the registry of lamb dropped an 15% at one half price, provided they are recorded before January 1st.
