**KODAK**

means more than a mere vacation accessory. It means home pictures, portraits of one's family and friends, intimate pictures that become priceless as the years go by.

And picture making is very simple by the Kodak system. Ask your dealer or write us for "At Home with the Kodak," a beautifully illustrated booklet about home picture making, that not only shows the pleasing results that can easily be obtained, but shows *how they are made*.

**Handles Twelve Tons of Silage an Hour**

Cuts corn any length, from 3/8 of an inch to an inch-and-a-half, and elevates it forty feet at the rate of twelve tons an hour. Yet the Thom's Ensilage Cutter uses no more power than the ordinary cutter of far less capacity. You want this machine for filling your silo. Its price is moderate.

There's strength and satisfaction built into every detail of

**Thom's Ensilage Cutter and Silo Filler**

Picture shows Model 13B, for general farm use—8 to 12 tons an hour. Style 16A handles 25 tons an hour—great for threshermen!

**Equipped with Knives that STAY Sharp**

Specially-tempered knives made for us in Sheffield, England, by Spear & Jackson—knives that hold a keen edge longer than you would think possible. Model, pictured here, uses only 4 to 8 horse-power to cut and elevate 400 pounds a minute. And it is mighty hard to get it out of order—it's built to stand the racket.

**Does its Work with Least Fuss**

Every part that must endure strain is built with surplus strength—bottom drum, for instance, of ten gauge steel. Keep the Thom's going at top speed with no fear of a smash. Year after year satisfaction in this machine. Why not ask us NOW for particulars, proofs and price?
