TTE ENGLISH HARVEST,-The remarkably fine weather experienced in most parts of the United kingdom since about the 20th ult., has had considerable influence upon the Corn Trade. The demand for wheat has fallen off, and prices have given way about 2s. per quarter. The late advance in the quotation has, therefore, been partly lost, and some of the large buyers of grain are of opinion that even present rates can not be supported.

As regards the new crop of wheat as a whole

we may observe that it is nearly or quite equal to last season. With very few exceptions, the weight of the grain is a full average; but not a weight of the grain is a full average; but not a few of the growers will suffer considerable inconvenience from the damp state in which a portion of their crops was carried.

British Periodicals! The London Quarterly.(Conservative)
The Edinburgh Regiew. (Whig).
The North British Regiew (Free Church)
The Westminster Regiew (Isberal)
Blackwood's Edinburgh Magazine (Tory)

The American Publishers continue to reprint the above named Periodicals, but as the cost of printing has doubled, the price of paper nearly trebled and taxes, duties, licences, etc., largely increased they are compelled to advance their terms as follows:

TERMS FOR 1865. For any one of the Reviews For any two of the Reviews For any three of the Reviews For all four of the Reviews For Blackwood's Magazine For Blackwood and one Review r Blackwood and three Reviews, r Blackwood and four Reviews, or Blackwood and four Reviews,
*ubscribers in the British Provinces will remit
addition to these prices 24 cents a year for
lackwood, and 8 cents a year for each Review, lackwood, and 8 cents a year for each to cover U S Postage.

The works will be printed on greatly improved quality of paper, and while nearly all American Periodicals are either advanced in price or reduced

in size—and very generally both—we shall continue to give faithful copies of all matter contained in the original editions. Hence our present prices will be found as cheap, for the amount of matter farnishd, as those of any of the competing periodicals in Compared with the cost of the original editions, which at the present premium on gold would be about \$100 a year, our prices (\$15) are exceeded by low. Add to this the fact that we make our annual payments to the British Publishers for early sheets nd copyright in gold-\$1 costing us at this time, (Jan. 1865) nearly \$2.50 in currency—and we trust that in the scale we have adopted we shall be entirey justified by our subscribers and the reading pube

readers is rather increased than dominished by the articles they contain on our Civil War, and, though sometimes tinged with prejudice, they may suil, considering their great ability and the different stand-points from which they are written, be read and studied with advantage by the people of this ountry, of every creed and party. The Four Reviews for 1863. A few copies of the above remain on hand, and be sold at \$5 for the whole four, or \$2 for any

one. We also publish the FARMER'S GUIDE. By Henry Stephens of Edinburg, and the late J. Norton, of Yale College, 2 vols. Rayaf Octavo 500 pages and numerous Engravings:
