### A HOUSEHOLD MOTTO.

No longer do we graspt with admir ation at the woman who tells us that the things she had in her house came from more than half the civilized countries in the world. It's all very well for the hunter to point to the heads on the walls of his den and tell you that he shot them in nine provin-ces, or on three continents, in lands of almost eternal snow and lands of trop ical heat, on mountain, moor and plain over a whole atlas of maps. It's very interesting to listen to the aged athlete tell you from how many sporting associations and under how many flags he gathered his great mugs and shields and illuminated addresses. But the man or woman who strikes a thrill into us nowadays is the man or woman who can take us over the house and demonstrate that from garret to cellar. from front verandah to the steps at the back kitchen door. and even out into the woodshed, the things which make that Louse a home were made in Canada, the land of omes and under one flag, the Union Jack 1 There should be in every home a "Made-in-Canada" society whose ousiness it is to increase the number of things in that home made in Can-Some may call it patriotism. "It is a pleasure to me to inform you that after suffering from Chronic Constipation for 2½ years, I have been cured by "Fruit-a-tives". While I was a student at Berthier College, T became so ill I was forced to leave the the college. Severe pains across the intestines continually tortured me and it came to a point when I could not stoop down at all, and my Digestion became paralyzed. Some one advised me to take "Fruit-a-tives" and at once felt a great improvement. After I had taken four or five boxes, I realized that I was completely cured and what made me glad, also, was that they were acting gently, causing no pain whatever to the bowels. All those who suffer with Chronic Constipation should follow my example and take "Fruit-a-tives" for they are the medicine that cures".
