Reserved His Opinion.

Hubb: "Don't you think that some of the modern dresses are rather indiscreet?"
 Hubb: "No; but I'll reserve my opinion of their wearers." — Boston Transcript.

"I have here," said the young inventor, "a device that will be a boon to typists."
 "What is it?" asked the manufacturer.
 "It's an extra key. Whenever the printer can't find a word she presses this key and it makes a blurr!" — New York Times.

"They say my son is a credit to me,"
 "Mine," said an friend, "has never in anything but a liability." — London Daily Mail.

A Clincher.
 The American chorus girl, who is invading London with great success, is making it hot up to date. Mr. Jones, a well-known performer in the city, is so impressed with her talent that he has written her a note. "You are the most beautiful thing I have ever seen," he writes. "I wish I could see you every day." — London Daily Mail.

Revenge.
 "I'll be back! How are you and Nan?"
 "She played me a mean trick, and I'll be back!"
 "How was that?"
 "She married another fellow!"

Lots of Trouble.
 Conductor: Madam, that child looks like a three-year-old.
 Mother: Yes, indeed he does, conductor. That child has had a lot of trouble—Everybody's.

Appreciation.
 Elsie: I didn't know he could afford to give you such an expensive engagement ring.
 Ezeriah: He couldn't—but wasn't it worth it to him? — Life.

Couldn't Matter Much.
 Mrs. Brown had talked enthusiastically of the fur-trimmed hat she had bought at the downtown department store. That evening when her husband came home he looked about at a number of ladies which were lying on a table.
 "Well, Mabel, what did you find at that wonderful fire sale?" he inquired.
 "Oh, Will, I got some of the loveliest silk stockings at 24 cents a pair! Here isn't a thing the matter with them except that the feet are burned off!" — Harper's Magazine.

His Tact.
 "Oh," she said, "your conduct is enough to make an angel weep."
 "I don't see you shedding any tears," he returned, and his tact saved the day.

PRECAUTION.
 Neighbor—"My! what a big muzzle. Does he bite?"
 Boy—"Naw; that's to keep him from gettin' bit." — Fun.

LADY CUNARD'S GUESTS TOOK OFF SHOES; ROMPED

Turned Out the Lights, Raced in Hotel's Corridor and Danced Ragtime.

VOTED MOST ENJOYABLE PARTY

Yet Some Are Likely to Feel Shocked at the Event.

BRANTFORD, Aug. 2.—Lady Cunard's most sensational party of the season at a big hotel here, on the occasion she had more than 100 guests at dinner at eight tables. The table was decorated in different colors of flowers of one color, heaped profusely that only the edge of the table was left for plates. The guests were in high spirits.

After dinner, Lady Cunard's guests cleared the tables of flowers and seated themselves out in them. Many floral goddesses. Then the opera singers and Russian entertainers, the company and the music and dancing the guests took off their shoes, turned on the lights in the rooms and corridors and danced ragtime. The children and danced ragtime until they were tired out.

They all voted it the most enjoyable party of the season, for though the first of its kind, the others were not carried out on such a grand scale. All the notable Anglo-American beauties were present, as well as the noted English girls. Some said the party was to celebrate Lady Randolph Churchill's divorce, as she was there to receive congratulations from her friends.

Lady Cunard wore a brilliant gown of emerald green and gold, with a few diamonds. Mrs. Astor was in silver with blues. Mrs. Cecil Bingham wore a creation of turquoise brocade with turquoises and diamonds worn in an order across her corsage and diamond and turquoise crown. Mrs. Snow was in sea green chiffon and silver cloth. Lady Randolph Churchill wore deep sea blue with ornaments in her hair.

**"YOUR HEALTH IS—
 —YOUR WEALTH"**

DO NOT TRIFLE WITH THE HEALTH OF YOUR FAMILY

THE BROOM NO LONGER IS GOOD FOR ANYTHING BUT FUEL. INSTEAD OF CLEANING, IT JUST STIRS DIRT UP INTO THE AIR. THE DIRT NATURALLY SETTLES BACK ON THE FLOOR OR FURNITURE, THEN YOU MUST "DUST"—A TERRIBLE, STRAINING PROCESS.

THEN, TOO, THIS DIRT YOU STIR INTO THE AIR IS VERY DANGEROUS. IT IS LADEN WITH DISEASE GERMS AND YOU AND YOUR TOTS BREATHE THEM. THINK OF THAT!

THINK WHAT IT MEANS to the housewife to have the Cleaner run over her floors once or twice a week instead of sweeping them with a broom or carpet sweeper. Realize how absolutely clean she will keep every inch of her carpets with less effort than the old efforts require, dispensing forever with house-cleaning days, keeping her home clean ALL THE TIME, just the same as it was right after house-cleaning time of yore.

**Men's Work Has Been Lightened and Systematized
 by Means of Labor-Saving Machinery
 Why Not a Woman's?**

Dr. Kellog, President of the Battle Creek Sanitarium in One of His Lectures, Stated:

"Excessive loss of life of infants, aged from three months to four years, is caused mainly by the mother permitting the child to play on a carpeted floor, filled with street dirt, which contains millions of microbes that are brought in on the feet and ground into the carpet. It is criminal to let a child play on a carpet unless it has been 'vacuum' cleaned."

Prof Rodugres, United States Expert Consulting Engineer, After Thoroughly Examining Our Machine Says:

"It is the first hand-power cleaner that I have examined that pleases me. The principal is mechanically correct: the construction is based on exact scientific principles. It not only removes all dirt and dust, but, on account of the excessive air displacement and continuous suction, removes the dirt and filth from under as well as from the top of the carpet with less effort than any other vacuum cleaner I have ever examined. In fact, it is the most complete dirt eater I have ever seen. The material used and the construction are both so nearly perfect that it is practically indestructible. If you will think for a minute, you will realize that a number of diseases are caused by germs and microbes in the filth brought into the house by dogs, cats, rats, flies, and the filth off your feet. Among the diseases that can be mentioned are diphtheria, typhoid fever, smallpox, scarlet fever, measles, whooping cough, grippe, spinal meningitis, pneumonia, erysipelas, cholera, yellow fever, malarial fever, tuberculosis, tonsillitis, cholera infantum, and a number of others. Were it possible to show you by means of the magnifying glass the filth and germs that are lodged in your carpets and rugs, you should be so frightened that you would immediately order a vacuum cleaner or abandon your carpets and rugs. Do not trifle with the health of your family!"

If you have no vacuum cleaner, in justice to your family's health, have a demonstrator call to-day. It will cost you nothing, and you will have a sanitary home. It is a health saver, labor saver, and money saver. It can be used every day, and does not wear the nap off the carpet, like ordinary sweeping; nothing to get out of order, runs quietly, a child can run it, and will last for years.

J. M. Werzke, A.M., M.D., the world's recognized authority on bacteriology, in a recent lecture, said:

"If all carpets and rugs were kept thoroughly cleaned, and all windows and doors thoroughly screened, our mortality from infectious diseases would be reduced 90 per cent; in fact, all Municipalities should enact laws to compel each householder to adopt and use a vacuum cleaner."

The Brantford Daily Courier has made arrangements to place a number of 1913 WIRELESS VACUUM CLEANERS. These cleaners are equipped with three bellows which are operated from backward and forward motion of the machine. For free demonstration telephone the Courier Office. Both phones 139.
