LOCAL GERMAN HAS INHERITED MANY MILLIONS

FORTY-FOURTH YEAR

Joseph Simon, 28 Marlboro Street Gets Notice by Wire Today.

Joseph Simon, who is employed at the American Radiator Company, has dropped into a windfall. He is one of three heirs to a fortune estimated at \$163,000,000, which was left bf a wealthy uncle who has just died in San Francisco. Mr. Simon, while naturally elated at his good luck, went back to work as usual this morning after hearing the good news, from his wife, and he says he will continue to work, although he may take up lighter labour. He is a German and came to Brantford seven years ago from his native land and he has since corres ponded at intervals with his rich relative, who made his fortune in the shipping industry. Seen to-day Mrs. Simon said she did not think they would leave their little cottage which is a neat looking and modest little structure of one storey. She smiled when it was suggested that she would take a house commensurate with her new fortunes and said she did not intend to leave Brantford as it was like home to her. Her four children are all brought up to speak both their mother tongue and the English and they looked a happy family. The daughter, a smart girl of some sixteen summers shrugged her shoulders suggestively when a trip to the Old ountry was mentioned, for all her

friends are Brantfordites. Thus it seems if all is officially confirmed that another millionaire may be added to the number
