MODERATE ACTION.

The strike now in progress among the machinists and iron workers has developed some interesting facts which show what reasonable men may accomplish, when they earnestly seek to reach an agreement.

The machinists in Seattle having joined the strike, an effort was made to draw out the skilled mechanics employed by the street railway companies of that city.

It was decided, therefore, to confer with the street railway management and ascertain if an equitable arrangement could not be reached whereby it would not be necessary for the men to join the strike.

At the conclusion of the conference an agreement had been reached whereby the street railway managers agreed to abide by the results of the strike provided their own men continued at work.

At the conclusion of the conference an agreement had been reached whereby the street railway managers agreed to abide by the results of the strike provided their own men continued at work.

now is that the scow is not large enough to meet the requirements. That, however, is a difficulty which may be overcome, and in the meanwhile let it give thanks for what has been done.

When thieves fall out honest men are said to receive their dues. Likewise when steamboat companies begin cutting rates, there is a chance for the public to even up old scores.

The cleanup is progressing at a very satisfactory rate.

New Steamer Spokane. The sailing date for the initial voyage of the excursion steamer Spokane to Alaska has been changed to the 24th of this month by the Seattle office of the Pacific Coast Steamship Company.

It is probable many excursionists will come north on this new floating palace on the trip. The home office has received a great many inquiries about when the steamer was to leave and for information as to the scenic properties of the trip from the states of middle and eastern portion of the nation and quite a number of berths have been engaged.

The Spokane is now having the finishing touches put on her in the yards of the Union Iron Works at San Francisco. She will sail for Seattle the fore part of June.
