

Fruit-a-tives

"FRUIT-A-TIVES" differ from any other remedy in the world.

They cure, absolutely, Stomach, Liver, Kidney, Bowel and Skin Troubles.

Because none of the usual remedies have given you relief, is no reason why you should not give "Fruit-a-tives" a good, honest trial. Fresh fruit acts directly on the three great eliminating organs—Bowels, Kidneys and Skin. But fruit contains only a minute quantity of the medicinal principles and in order to receive any marked benefit from fruit, one would be compelled to eat more than could be assimilated by the system.

"Fruit-a-tives" contain all the curative virtues of fruit in a wonderfully concentrated form.

In making "Fruit-a-tives," the juices of apples, oranges, figs and prunes are combined, and, by a wonderful discovery of a famous physician, a chemical change takes place in the juices, by which the medicinal action is many times increased. Then tonics are added, and the whole compressed into tablets.

"Fruit-a-tives" contain no Calomel—no Cascara—no Senna—no Morphine—no violent purgatives—only fruit juices and tonics.

"Fruit-a-tives" act directly on the Bowels, Kidneys and Skin—strengthening them—and arousing them to vigorous action.

With the Kidneys healthy—the Bowels moving regularly every day—the Liver active—and the pores of the skin doing their full share towards ridding the system of waste—there can be no disease. "Fruit-a-tives" mean health for every member of the family.

50c. a box—6 boxes for \$2.50. Sent to any address on receipt of price if your druggist does not handle them.

HARRY ORCHARD STILL ON STAND

PRISONER SHOWS NO LACK OF CONFIDENCE UNDER CROSS-EXAMINATION.

BOISE, Idaho, June 7.—Harry Orchard took the stand this morning for his last day of examination, as the principal witness against William Hayward, secretary-treasurer of the Western Federation of Miners, charged with the murder of former Governor Frank Steunenberg. The cross-examination commenced yesterday afternoon and will probably take up the entire day and may be carried over till tomorrow. The State will then again take Orchard in hand and the re-direct examination will bring out more of the details of the terrible story.

The prisoner-witness shows no sign of fatigue. When turned over to the defense he appeared to rally. He acted as though he were a man of straw and having once told in public of the murder of Steunenberg, seemed to welcome the change. His answers to Richardson's questions are delivered without hesitation. He is quick-witted and self-possessed and appears not to feel the atmosphere of abhorrence with which he is sure to end.

Cross-examination is developing into a battle of wits with Richardson and Orchard. According to those who know the facts of his early life, Orchard is not a self-satisfied citizen of the United States. His parents, of course, were Canadians, the father of English and the mother of Irish descent. Orchard himself was born Canadian.

AGRICULTURE IN THE HIGH SCHOOLS

PREMIER WHITNEY MAKES ANNOUNCEMENT TO EDUCATIONALISTS.

TORONTO, June 7.—Premier Whitney announced the policy of his government to teach agriculture in the high schools of the province, at the meeting of educationalists here today. They will start with special classes and teachers in the following six high schools and may extend the system soon, and in the meantime the government will be pleased to see other schools take up this special subject. IS LITERARY GENIUS DEAD?

Ambassador Bryce Laments the Absence of Great Writers.

Talking in his usual luminous, interesting and intelligent way about things in general and in particular about some of the characteristic features of the times in which we live and the conditions by which we are surrounded, Ambassador Bryce has called attention to the comparative sterility of this generation of literary genius. When he was a young man going to college at Oxford there were constellations of brilliant stars shining in the intellectual firmament and a lot of promising young fellows were coming forward to take the places of those whose course was sloping steeply towards the west. These newer stars have in their turn reached and passed their zenith and

KILLED BARILLAS; DOOMED TO DIE

ASSASSINS OF GUATEMALAN PRESIDENT SENTENCED TO DEATH.

MEXICO CITY, June 6.—Florence Morales and her accomplices were found guilty last night of murdering General Manuel Barillas, former president of the republic of Guatemala, in this city on the night of April 7. The jury which returned the verdict was out one hour and forty minutes.

J. H. HASLAM REPORTS SPLENDID CONDITIONS OVER LARGE AREA.

STOUGHTON, June 7.—J. H. Haslam arrived here this morning after a drive of one hundred and fifty miles from the main line at Belle Plaine to the route on the Soo line and across country to this point. He reports, after a careful investigation, that there is a larger increase in wheat than last year and the grain is progressing very favorably, oats and flax still being green. This comprises one of the best wheat districts on the continent.

CANDIDATES LARGE INCREASE

Over 1,800 Scholars Will Write on Leaving Examinations.

An increase of nearly 50 per cent is announced in the number of pupils who will write at the forthcoming examinations. The comparative figures are as follows:—

1906	1207
Standard V.	513
Standard VI.	201
Standard VII.	121
Standard VIII.	76
Total	850

In 1904 the total writing at the examinations was 453 and in 1905 the number rose to 635. Thus in these years the number has increased nearly 90 per cent. The examination for the leaving certificate will begin on Tuesday, June 25, and those for Standards VI to VIII on Tuesday, July 2.

MUSICAL GENIUSES

Carried It in His Head.

Of the musical geniuses who have delighted the world, probably more than any other, the biographies of this genius read like romances, so full are they of anecdotes of his marvellous precocity. When four years old he played minuets and learned music with facility; and at the age of six he composed a concerto for the harpsichord, a piece though written strictly in accordance with the principles and technique of his art, yet so overladen with difficulties that it could not be played.

Lamented His Fame.

Not all of the great composers have courted the constant adulation of the world. Verdi used to lament that he had to find a refuge even for a brief space, from the reputation that preceded him wherever he went.

GLOBE MAN TALKS OF CROP OUTLOOK

BUSINESS REPRESENTATIVE OF GLOBE FORECASTS PROSPEROUS YEAR.

SASKATOON, June 7.—Arthur Keyfitz, western business representative of the Globe was in the city, speaking of the crop outlook in Saskatchewan. Keyfitz is sanguine this year will surpass all previous years both in the average and total area of wheat sown and in the average yield per acre of grain. Marvellous improvement is being everywhere manifest during the past two weeks which he is assured will result in great good, not only to the west but also to the east. In regard to the numbers coming west this year, Mr. Keyfitz expressed the opinion that because of the hard winter and late spring which had detained many there would be a larger influx of people during the next few months than was usual so late in the season. Those who had made up their mind to come would surely do so when the favorable opportunity afforded itself.

TO IMPROVE THE NORTH LINE

CONTRACTOR MACKENZIE TO WORK NORTH OF LUMSDEN WITH LARGE GANG.

Archie MacKenzie, the well-known C. N. R. contractor, was in the city on Friday, having recently arrived from Winnipeg for the purpose of proceeding to work on his contract on the Prince Albert line. Mr. Mackenzie expects to have some 200 men, with about 100 teams engaged in this work, an important part of which is the effecting of a change in the route followed to get up the valley side near Disley. It is now given so much trouble on that part of the Prince Albert line.

EDMONTON HOTEL QUARANTINED.

EDMONTON, June 7.—U. A. Fish, a commercial traveler of Winnipeg, has small pox at the hotel, and all the guests are quarantined for 14 days. Fish came here several days ago from Saskatoon and the case at first was thought to be chicken pox. All steps are being taken to prevent the spread of the disease.

Proposed to get onto the north plains

at a point further east near Lumsden which will materially lessen the heavy gradient which has in the past given so much trouble on that part of the Prince Albert line.

In addition to making this change

the C. N. R. will greatly improve the track throughout its length and place it in a condition to properly handle the already great and continually increasing traffic in that section of the country.

CROPS IN GOOD SHAPE UP NORTH

REPORTS SHOW LARGE INCREASE IN AREA SOWN—SPLENDID GROWTH.

SASKATOON, June 9.—Carefully compiled reports from the immense hard wheat area, tributary to Saskatoon now justify the conclusion that the acreage under seed in June, 1907, is thirty to fifty per cent greater than in 1906 and of oats and barley fifty to sixty per cent.

While the seeding was late, the weather for the past two weeks has been propitious and crop conditions are declared by old-timers to be the very best. The severity of the winter and the late cold spring is considered by them to be the direct cause of the present growth.

The cold nights of April and May so pulverized the ground as no human efforts could do it and thus gave the grain the best possible soil bed. The wheat is up from one to four inches in height all over the country and making rapid progress and the temperature by day is warm.

There are over 16 hours of sunlight daily. East of the city at French, Woodview, Floral and Elstow, the crops are in large. Durain Bros. show 250 acres more than a year ago and individual reports show an increase of from 20 to 80 per cent.

In the 25 districts west of the city many of which have been settled for ten years, the increases are frequently sixty to eighty per cent. In a few cases there is a decrease. The acreage of oats is very much larger. On the line of the Wetaskawin branch of the C.P.R. there is a marked increase in area.

These people have a view of getting it all back and the hope of getting it all back has inspired them anew to increased activity.

ORCHARD STILL ON THE STAND

WITNESS TELLS OF MURDERING TWO OF HIS MANY VICTIMS.

BOISE, Idaho, June 9.—The cross-examination of Orchard, the self-confessed slayer of eighteen persons, will likely continue all day Monday and part of Tuesday and it is likely that he will be on the stand all of this week. The state will put the witness through a direct questioning after the defense is through and then will come the cross-examination. The defense will try to prove that Orchard was the victim of a mine-owner at the same time as he alleges he was in the company of the Federation of Miners and committed the many crimes confessed to. Witnesses will be called from half a dozen states to deny the story told by Orchard.

MINISTERS GET LESS THAN HOD CARRIERS

ASSEMBLY DISCUSS QUESTION OF SALARIES—THE CHURCH IN THE WEST.

MONTREAL, June 7.—The morning session of the Assembly was devoted to the discussion of overtures from the West asking for the establishment of an order of decemness in connection with the church. The request was favored by the Assembly.

In the afternoon augmentation was considered. Rev. Dr. Smith reported for the eastern part of the work. The fund had a surplus of \$8,950. Rev. Dr. Lyle in speaking for the West had a different tale to tell. There had been a shortage in the amount asked from the congregations. 27 charges that were not receiving became self-sustaining. 39 were added to the augmentation list. The speaker expressed the hope that soon the minimum stipend would be increased to \$2,250.

There was a report from the minister received in the poorer congregations of the Presbyterian Church. Hod-carriers got more than the church work.
