

TURKISH TROOPS DESTROY A SUSPECTED VILLAGE.

Police Capture Quantities of Explosives Hid at Salonica.

Uskub, European Turkey, May 18.—Turkish troops have destroyed the village of Warkovo, near Schelgipe, where they suspected bombs were concealed.

An Important Capture. Salonica, May 18.—The police have unearthed 700 pounds of dynamite and quantities of gunpowder.

Troubles in Croatia. Buda Pest, May 18.—There was recently a serious peasant demonstration in Croatia, especially in the Kreuz district where the castles and houses of Hungarian landowners were attacked and pillaged.

Martial law was declared. Similar disorders have occurred at Brod, Sissek and other places.

Premier De Szell has had an audience of Emperor Francis Joseph, who arrived here to-day. After this interview the Premier announced in the Lower House that troops would be sent to every place where a breach of the peace was threatened.

A special army corps has been placed at the disposal of the Ban of Croatia for that purpose, in addition to the ordinary garrisons. The peasants are accused by absurd rumors of the effect that the late Crown Prince Rudolph is alive, that he is coming to help the peasant get his own, and that the Emperor has forbidden his soldiers to shoot at them.

Massacre Story Denied. St. Petersburg, May 18.—The report published in the United States that a massacre of Jews, similar to the one which took place recently at Kishineff, capital of Bessarabia, had occurred at Tirozol, seven miles from Kishineff, is officially denied and is universally discredited.

The Story Misrelated. St. Petersburg, May 18.—Additional details of the Kishineff massacre of Jews are printed here daily. The correspondents give the number of victims thus far buried in the Jewish cemetery as 44, and say that 24 persons seriously wounded are still in the Jewish Hospital. The horrors reported scarcely bear repetition. In one instance spikes were driven through a woman's head into the floor, and cases of boy mutilation have been authenticated. About 800 to 1000 persons were arrested, an official having been sent from Odessa to deal with the situation. The apathy of the local authorities during two days of riot and murder has been fully established.

Trouble Feared To-morrow. Rostoff-in-the-Don, Russia, May 18.—The Social Democrats are doing their utmost to induce the public to co-operate in starting disturbances on labor day, to-morrow. The agitators are alleged to possess arms and boxes of dynamite. The authorities have posted placards announcing that stringent measures will be adopted for the preservation of order.

Constantinople, May 12.—The Sultan has warned the Governors of

the provinces of European Turkey that they will be held personally responsible in the event of massacres occurring in the territories under their jurisdiction.

Turkey Hard Up. London, May 18.—The resources of Turkey are said to be so strained as to compel the advance against the Albanians to be suspended. It is believed the mobilization of 100,000 men was only effected with the aid of the Sultan's private purse.

The Sultan has just consulted the former Vizier, Said Pacha, on the situation, and it is reported that a financial commission to consider means to effect the payment of troops in Macedonia and Albania, the army contractors having refused further supplies.

Bulgaria Denies Responsibility. London, May 18.—Cabling from Sofia, the correspondent of the Daily News says he has had a long interview with Premier Danef. The Premier repudiated Bulgaria's responsibility for the Macedonian outbreaks, which, he said, were the work of a war involving Bulgaria, but Bulgaria would not be the aggressor, and in the event of such a disaster it would not be her fault.

In conclusion, the correspondent quotes Premier Danef as saying he counselled Prince Ferdinand to issue an appeal to the powers to intervene in behalf of Macedonia. Bulgaria has no ambition to annex Macedonia, he said, "and the existing reform scheme is quite illusory."

Statement in British House. London, May 18.—The Under Foreign Secretary, Lord Cranborne, in the House of Commons to-day read a telegram from the British Consul at Monastir, European Turkey, saying that while several Christians had been killed during the recent disturbances, there had been no further disturbances during the last few days, and adding that business is proceeding as usual. The telegram also reported that the loss of life was exaggerated.

Slaughterers Arouse Bitterness. London, May 18.—The correspondent of the Times at Sofia says in a despatch: "Some of the worst outrages during the recent outbreak at Monastir were perpetrated by Jews, who, anxious to show their sympathy with the stronger side, joined the Bashi-Bazouks in maltreating Bulgarians. According to official accounts the slaughter of Bulgarians in neighboring villages was considerably greater than at first was supposed. At Zapari thirty were killed or wounded, the Bashi-Bazouks participating in the slaughter. It is useless to conceal the fact that these occurrences are arousing an extremely bitter spirit in Bulgaria, and if they are allowed to continue the dangers of a conflict with Turkey will be greatly increased."

and strongly guarded. The next day there were a few small outbreaks in other portions of the town, and a few more Bulgarians were killed. The Greek villagers living in the Bulgarian quarter were warned by their Turkish friends to leave town, as a general massacre would undoubtedly be brought on if the committees should begin throwing bombs. There were cavalry patrols going about the streets that day, and 4,000 troops were massed in the town.

Slain by Bashi-Bazouks. Bulgarians Killed on Streets of Monastir.

A PANIC STRICKEN TOWN. Monastir, Macedonia, via London, May 18.—Hearing from a secret source that something of great importance was likely to happen here, I came from Salonica by train. The predicted movement did not occur, but the unexpected happened. A miniature massacre took place, of which exaggerated accounts probably have been telegraphed from the coast. It was begun entirely by Bashi Bazouks, was carried on by them, and was only stopped by Turkish troops, under the direction of the Governor, Al Riza Pasha. There was a quarrel between a Bulgarian and a Turk. The Bulgarian, much to the astonishment of the Turk, was armed. When several Turks came to the rescue of their comrade, the Bulgarian drew a revolver and shot one of them. As the news spread a crowd collected, and the Bashi Bazouks, when the outcry to kill was raised, swarmed into the Bulgarian quarter, shooting right and left, and beating the unfortunate persons whom they overhauled.

Thirty victims were reported killed and several hundreds were beaten unmercifully. Knocked senseless and their bones broken, before the troops could arrive in sufficient strength to drive off the Mussulman population. The troops made it a point neither to kill nor hurt a Moslem, but drove into their homes all the Bulgarians found on the streets. They did not allow Turkish civilians to enter the houses of the Bulgarians, nor did they go themselves. The rioting began at half-past twelve and was quelled by three o'clock. The bodies were taken off in carts, as was done in Salonica. Even the Consul was stopped by the soldiers from going to the scene of the disturbance and making investigations.

The town fell into a panic. The shops were shut, and the news branch of the Ottoman Bank closed

township, East Durham. The ceremony will take place on Monday, June 1st.

The Grand Trunk Company has begun the work of lowering the tracks of their Harrisburg-Trenton division at the junction with the Buffalo and Goderich division, so that they will pass under the latter tracks. This will greatly lessen the danger of accidents and will also greatly facilitate work in the yards.

Smallpox has reappeared in Ottawa. The victim is Mrs. Beaucage. Last night she was taken to Port Hope Island, but as she lived only a short distance away, returned home again. She was taken back and will be kept under strict surveillance.

TO HONOR MACDONALD. Ottawa Scots Would Have a Canadian Memorial.

Ottawa, May 18.—At a joint meeting of St. Andrew's Society and the Sons of Scotland last night a committee introduced a resolution embodying a panegyric on the late Gen. Hector Macdonald, and recommending that a committee be appointed to secure expressions of opinion from representative Scottish bodies throughout Canada as to the advisability of erecting a monument in the capital of the Dominion in commemoration of the achievement of this lamented Scottish hero.

The idea of erecting a distinct Canadian monument seemed to prevail, and eloquent speeches were made in support of it by Rev. Mr. McMillan and others. The committee which drew up the resolution was again appointed to carry on the work.

MADMAN IN VESSEL'S HOLD. Has Been There Nineteen Days and Scares the Crew.

Halifax, N. S., May 18.—The Norwegian barque Emigrant, Capt. T. Erolsen, arrived to-night from Bermuda with a madman in her hold, who has been there for the past 19 days. The Emigrant left Bermuda for Halifax on the 16th of April, and has therefore been 26 days on the passage. A few days out one of the crew, the carpenter, who had been shipped at Bermuda, showed signs of insanity, and got into the hold, where he said he would stay. He kept his word for three days. He kept his word for three days. He kept his word for three days.

Not long afterwards, with superhuman strength, he broke his fetters, dashed down the door, and again rushed into the hold. This was 10 days ago. Every effort was made to capture him, but none of these were successful. As a last attempt, the mate and one of the crew went down to see what they could do. They beat a retreat and turned when fired upon by the madman, who had, no one knew how, procured a revolver. The crew were afraid to go near him again, and he was allowed to remain. This time everybody on board was thoroughly afraid, so they fastened down both hatches, and that women and children were gathered out, some victims had their arms pulled from the body, and that scores of children were thrown out of windows and killed. The condition of those who are left is terrible, and at least four thousand families are in absolute want.

Some men who have more money than brains are not burdened with pity here.

NIAGARA FALLS TO BOOM; GREAT SCHEMES PROJECTED.

Capitalists With \$10,000,000 Going Into Vast Projects.

Niagara Falls despatch: A. J. Wright, of Buffalo, has purchased between 2,000 and 3,000 acres of land on the Canadian side of the Niagara River, between Slater's Point and Drummondville. Mr. Wright is presumed to represent a syndicate which desires to control all the property in the vicinity of the big generator plants now being proposed or being constructed on the Canadian side.

The new syndicate, it is said, will construct a large number of manufacturing plants to take part of the electrical energy generated there. The first of these is to be a mammoth steel converting plant and roller mill. One will be brought down from the upper lakes to a point near Chippewa. The Hennepin Securities Company, recently incorporated at Albany, is slated to take charge of the manufacturing developments.

The reason that the Canadian side of the river has been chosen lies, it is claimed, in the difference in land values. With precisely similar opportunities for advancement, land on the American side is worth \$6,000 an acre and on the Canadian side but \$100 to \$200 an acre.

These capitalists have \$10,000,000 to spend in obtaining and developing the immense area of factory sites which has been secured. Already several big plants are practically arranged for, the biggest being a steel converter plant.

The plan involves the building of big docks along the Canadian side of the river, the channel on the Canadian side being superior to that on the United States side. The organization of the Hennepin Securities Company recently is said to be a part of the scheme. J. F. MacDonald, the local agent at A. J. Wright, would not talk for publication, but admitted that Mr. Wright was behind the big land deals which have excited interest in Canada for the last six months.

Taken in connection with the 350 acre shipbuilding plant to be built by the Toronto & Niagara Power Company at Bridgeburg, it is evident that the Canadian side of the river, which has been dormant since 1812, is to have a general development under the impetus of electric power similar to that on the American side.

Another plan which is spoken of is the possibility of deepening the Chippewa River channel to the Welland Canal, which will admit big lake vessels to reach industries using Niagara power on the Canadian side at little expense.

Later—Mr. Wright says the land bought is near Hamilton.

VICTORIAN STRIKE OVER. Railway Employees Call it Off Unconditionally.

Melbourne, Victoria, May 18.—Premier Irvine announced in the Legislative Assembly to-day that he had received a letter from the officials of the Engine Drivers' Association declaring the strike off and submitting unconditionally.

The President of the Engine Drivers' Association, in an interview, said the surrender was due to the drastic nature of the strike bill which was sure of adoption.

LONDON PASTOR CHEERED. Dr. Campbell Declares He Will Resist Education Bill.

London, May 18.—There was a remarkable scene in the City Temple at the midday service to-day, when the pastor, the Rev. R. J. Campbell, the successor of the late Dr. Parker, announced his adhesion to the "passive resistance" movement against the new Education Bill. Rev. Mr. Campbell is regarded as the head of the Nonconformists in this country. As a consequence, numbering about 3,000 persons, stood up and cheered lustily for several minutes.

The pastor added that he had heard that Colonial Secretary Chamberlain is likely to advocate the imprisonment of those who participate in the "passive resistance" movement, but he believed, should Mr. Chamberlain imprison him, his days as a Colonial Secretary will be numbered, for the Nonconformity represents half the religious life of the nation.

A TERRIBLE STORY. Woman Terribly Tortured and Children Killed.

New York, May 18.—The American, which has sent Michael Davitt to Kishineff to report upon the recent anti-Semitic outbreak there, publishes the following special from St. Petersburg: The papers here at last published the horrible details of the Jewish massacres at Kishineff. It is admitted that a carpenter had both hands sawn off, that women had their eyes gouged out, that some victims had their arms pulled from the body, and that scores of children were thrown out of windows and killed. The condition of those who are left is terrible, and at least four thousand families are in absolute want.

The management is investigating the sudden departure with the hospital full of patients.

CHEATED THE GALLOW. Wife-Murderer Poisons Himself With Morphine.

Lexington, Ky., May 18.—William McCarty, wife murderer, who was to have been hanged at 9 o'clock this morning, took morphine some time during the night, and died this morning. The death watch, Alexander McKeever, sat within three feet of McCarty all night, but says he is absolutely at a loss to know how or when McCarty took the drug. At 10 o'clock McCarty became restless. Jailor Robert Wallace was in the cell at the time. McCarty called for whiskey, but Wallace brought him coffee instead. He drank the coffee and went into violent convulsions.

A running fight ensued, and three of the officers, securing a team driven to this city with the prisoner. It is not known whether any of the mob was injured or not. There are fears of a lynching.

SUNK BY DYNAMITERS. Evidence in Papers of Another Cunard Plot.

New York, May 18.—Among the effects of the men who seat the infernal machine to the Cunard Line dock last week was a piece of paper on which was written in French: "The destruction of the Naronic was complete. Mr. Le Brun, who made the box, has this moment gone to Chicago."

The Naronic left Liverpool, February 11th, 1892, with 4,000 tons of freight, a crew of 55 men, and fifteen passengers, who had gone to England on the previous trip in charge of a cargo of cattle. She was never seen after she left the Mersey.

MESSAGE RESTORES LIFE. New York Doctor Announces Startling Discovery to Profession.

New York, May 18.—Dr. Robert Coleman Kemp, of No. 107 East 57th street, has proved that scientific massage can restore a patient, apparently dead, to life. This was his startling announcement to the New York Academy of Medicine at its meeting last night. Dr. Kemp's method is to cut a small incision between the ribs, insert the finger behind the heart, and, with a few gentle, rhythmic pressures, revive the circulation. In conjunction with this process is an artificial respiration produced with a pump. Experiments made on dogs have proved successful.

London, May 18.—The Chancery Court to-day ordered the execution of the deed by which H. S. Cavendish, the explorer, provided that his property should go to Mrs. Strutt, wife of Major C. H. Strutt, and her children, to the exclusion of the plaintiff's own wife, who was Isabella Jay, formerly leading lady of the Savoy Theatre. Mr. Cavendish, in his appeal to the Chancery Court, charged Major Strutt and Mrs. Strutt with influencing him through tableting, and claimed that Mrs. Strutt obtained the deed by pretending to be the ghost of his (the plaintiff's) mother, and by representing that she was speaking from Heaven and advising him to dispose of his property.

SENTENCED TO DEATH. The Veronica Mutineers Found Guilty.

St. John, May 18.—A cable to William Thomson & Co. this evening brings word from Liverpool that the Veronica mutineers were convicted of murder to-day in the Liverpool court, and were sentenced to death. The principal mutineers were four. The Veronica was a barque, owned by William Thomson & Co. On the high seas last December some of her crew mutinied, and then ensued one of the most atrocious series of murders which have been chronicled in the annals of the modern merchant marine. Captain Shaw, who was a Prince Edward Islander; his mate and five of his crew were shot or driven overboard. Then the mutineers provisioned a boat, fired the barque and left. They were picked up and taken to Liverpool, but the story of the awful crime was given out by one of the number, and the trial of four of the men followed.
