WOLFVILLE, N.S., SEPT. 20, 1907.

Sanctum Suggestions.

Mr Justice Longley has given a dedecision in the legal fight between the Dominion Coal Company and the Dominion Iron and Steel Company, awarding the contest to the first named corporation. The action was for alleged breach of contract on the part of the coal company. The action immediately involved \$8,000,000, and incidentally \$15,000,000. It was tried at \$3/drey about one month ago. The lawyers for the Coal Company say they will appeal the case at once.

The horses will require 48000 lbs. of ofst, 72000 lbs. of of breeding purposes. This, along with the sheep sale to be held his fall, is in line with the general policy of the department to assist in the improvement of live stock owned in the province and thus help upbuild a system of agriculture which the province is thoroughly fitted to sustain.

Squeezing the Lemon.

There is no scarcity of money in Canada for legitimate business purposes. There is just as much money in the banks, as last year. But there is an ingreased demand for capital in the United States to take up many millions of securities that have been issued by corporations whose credit has been lessened by the demands of Socialists and the denunciation of the President, and out banks are senting our money (money the)

The Question of Flour.

Not the least of the many problems which puzzle the young housekeeper, is the selection of the flour. Cook books are often indefinite; one, recommoney, but they want big interest for it. The talk of scarcity is a mere pretense. The outspoken bank officials frankly say: "We have plenty of money; we can place it abroad at 7 per cent.; if you want it on gilt edged security you can have it that figure and no less." This is the whole monetary situation in a nut-shell. The basiness public is looked upon as a lemon, and they are squeezing it for all they can. Business men may object to such treatment by banks in which they have kept their accounts for years, but what can they do about it? One St. John man threatment to remove trust funds from a bank that, and have to man accepted 6 per cent. Others have no deflour, as miled by the Ontario flur rises well, but absorbs much was term and requires much kneading, the submit to the squeeze.—Ex.

Those who attended the lecture in the Baptist church on Tuesday evening by Mrs C. E. Chittick were much pleased with the talented speaker's address. It is to be regretted that the attendance was not much larger. Mrs Walter Mitchell, president of the W. C. T.
