Home for a June Bride for Sale This charming home cannot be equalled for value in the residential southwest. Will be completed this week. Lot 38x106. Sodded, fenced, and cement walks. City sewer and cement sidewalks all paid for. Purchase Price \$3,700.

NOT OUT IN THE STREET But move that old wood stove out of your kitchen for the summer months. Why? Because it keeps your kitchen hot and uncomfortable—takes more time and worry to keep in order, and costs more to run than would a bright new Gas Range, which we are selling during May at surprisingly low prices, and with each purchase is given and installed a handsome new Kitchen Gas Lamp.

TRAVEL REQUISITES IN CHINA. Passport for the Interior—Lump of Silver and Small Change.

Passports are essential to any traveler proceeding into the interior and are issued by the various consulates. Ours were issued by the British consulate, and in size they looked like small coins covered with Chinese characters, and in these a good deal was set forth both for our protection and for the Chinese. Students being regarded in China as essentially a class to be respected, the Chinese being nothing if not literary, we were classed as "men of learning," and that those with whom we came in contact were to see that so long as we were within their gates that courtesy and attention were to be shown us.

On the other hand, if we made ourselves objectionable in any way we were not to be cast into prison, placed in a box with torture awaiting us or other incident (Chinese attentions, but we were taken with all possible speed to the nearest British Consul and have our punishment meted out according to British law. But money difficulties in China are not trifling. Dollars—that is, the silver dollar or local—cannot be current after traveling long distances into the interior to take a draft on one of the Chinese banks. The comprador at the chartered bank at Hankow saw to this for us and presented us with the amount required by a draft on the Shanghai Bank and its branches in Provinces through which we are travelling. Hupei silver dollars were also taken, which at Ichang and beyond could be converted into "shoes." A "shoe" is a lump of silver from which pieces must be chipped as they are necessary when travelling long distances into the interior to take a draft on one of the Chinese banks.
