A WONDERFUL MEDICINE FOR LITTLE ONES

Baby's Own Tablets are a wonderful medicine for little ones. They never fail to give relief to the baby when his stomach or bowels are out of order, when teething is painful, when worms make their appearance or when any of the many childhood ailments seize him. What is more they are absolutely safe and cannot harm the youngest child. Mothers have the guarantee of a government analyst to this effect. Thousands of mothers, through gratefulness for what the Tablets have done for their children, strongly recommend them. Mrs. E. J. Ward, Galt, Ont., says: "I have used Baby's Own Tablets for over two years and would not be without them in the house. They are sold by medicine dealers or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

The Sun Says of Nova Scotia Official Railway Guide Enthusias Over I. C. R. Calendar.

The Railway Official Guide, a journal devoted to very solid facts regarding railways and their time schedule, finds space in its February issue to say something pleasant concerning the calendar of the Intercolonial Railway the possession of one of them no doubt inspiring the editor to pen the following:

The new calendar of the Intercolonial Railway for 1911 contains the familiar moose's head trade-mark in a new form, and also gives a glimpse of one of the sunlit bays of Nova Scotia which, in the summer beauty of the waters, shore and sky, rival the brilliant colors of the Mediterranean. The charming bit of landscape on the calendar will make a bright spot in any office throughout the year.

The I. C. R. management ought to be well pleased with such a pretty compliment from so high an authority. The I. C. R. Calendar this year is certainly a beauty, and it is little wonder that the unprecedented demand for them quickly exhausted the supply. Letters requesting them were received from all parts of Canada and the United States, from Great Britain and many of the European countries, and even from India, China, Japan and Burma. Thus it will be seen that the calendar is a medium for spreading the name and fame of the "Peoples Railway" over a good part of the civilized world.

BAD SMASHUP ON THE I. C. R.

Midnight Express Ran Into a Special Freight, but Luckily No Lives Were Lost.

Halifax, N. S., Feb. 19.—The midnight I. C. R. fast freight from Halifax in charge of Conductor Wood smashed into the rear end of Conductor McGillivray's special near Campbell's Siding, seventeen miles from Truro last night. The van of the special was broken, but the rear end men were not injured. Driver McKay and his fireman had a marvellous escape. They stuck to their posts, and their engine with five cars went over a twelve foot embankment. A wrecking crew from Stellarton was soon on the scene endeavoring to straighten things out. The wreck occurred on a bad curve.

ANOTHER CONVICTIONS

Andrew Connors was convicted this morning before Justice Maltby for violation of C. S. A.

ANOTHER MODERN MIRACLE LOCOMOTOR ATAXIA CURED

The Sufferer Had Been Given up as Incurable by Several Doctors—Hospital Treatment Also Failed—
Dr. Williams' Pink Pills Worked the Miracle.

Before the discovery of Dr. Williams' Pink Pills, locomotor ataxia was considered an incurable disease. It has been fully demonstrated however, that this disease can be cured through the use of these pills, where the treatment is persisted in, and the directions carefully followed.

Locomotor ataxia is a disease of the spinal cord, and first shows itself in an inability to stand erect when the eyes are closed, or in the dark. It is characterized by peculiar disturbances of the gait, and difficulty in governing the motions of the legs. One of the commonest and earliest signs is a tired feeling, particularly noted in the knees and ankles. This sensation is provoked by slight exertion, and is not relieved by rest. Often a numb feeling is associated with it, and these two symptoms are always present in the early stages. As the disease progresses, there is an increase in the duration and extent of the numb feelings, covering at times the foot alone, then extending to the leg. The disease is usually of slow growth, and the increase and intensity of the symptoms is not noticed, but its progress is constant, and gradually approaches a total lack of feeling in the legs, causing a wobbling gait and an entire inability to govern the steps. As the disease progresses the patient loses all control over bowels and water, and becomes utterly helpless, and has to be cared for like a child.

In proof of the power of Dr. Williams' Pink Pills to cure this terrible malady, Mrs. Sarah Jane Ruller, of Antler, Sask., says: "For seven years from 1900 to 1907, my son James was afflicted with locomotor ataxia. During that time he was treated by several of the best doctors in the west, but their treatment failed to be of any benefit and he kept growing worse and worse, till finally he lost all control of his limbs, and could not move at all. I had to carry him from his bed to a chair, where I would have to tie him, to enable him to sit up. He was as helpless as an infant; he lost all control of his kidneys and bowels, and we daily looked for death to relieve him of his suffering. In 1905 we sent him to the Brandon Hospital, hoping that the treatment there would benefit him. In this, though, we were disappointed, and the hospital doctor advised me to take him home, as they said they could do nothing for him. At this time a friend advised the use of Dr. Williams' Pink Pills. Being willing to try anything in the hope of finding relief for my boy, I bought a supply. In less than three months I noted a slight improvement in his condition. In six months he could walk once more and from that on the improvement continued, till now he is fully cured and once more able to attend school and all the chores about the house. What Dr. Williams' Pink Pills have done for him is truly wonderful, and I would strongly recommend them to all sufferers, for they most certainly saved my boy's life."

In substantiation of what Mrs. Ruller says, Mr. A. E. Steele, the well known lumber and coal dealer of Antler, writes: "With reference to what Mrs. Ruller says concerning her son's cure by Pink Pills, I have no hesitation in saying that what she says is absolutely true in every particular, as I am personally acquainted with the case."

This great cure is not the only one performed by Dr. Williams' Pink Pills. They have brought thousands back to health and strength after some of the best doctors in the country have been forced to give up the case as incurable. Not only in cases of locomotor ataxia, but in cases of partial paralysis sciatica, acute rheumatism, and many other severe ailments have they been successful. The whole secret of their wonderful success is in their power to make rich, red, health-giving blood—the one essential for good health. The pills are sold by all medicine dealers, or direct by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville Ont.
