**NOTICE**  
Professor F. J. Liscombe has  
opened a Studio in St. James'  
Hall and will take a limited num-  
ber of pupils in Voice Culture and  
Piano. Enquire at Mrs. J. H.  
Troy's residence, t. f.

**AGENTS WANTED**  
To Sell "MAGIC GAS"  
in Counties of Northumber-  
land and Gloucester.  
\$1.00 worth will save you  
331-3 gallons of gasoline.  
Apply to  
**JOHN W. McKAY**  
District Distributor,  
Millston, N. B.

**For Sale**  
**BUSHVILLE**  
That most desirable property  
known as Bushville, the residence  
of the late Judge Wilkinson, with  
its cultivated Acreage, magnif-  
icent Pine Grove and Bathing  
facilities. This property is one  
of the beauty spots of the Mir-  
amichi.  
For further particulars apply to  
**G. P. BURCHILL,**  
NELSON, N. B.

**DEED FORMS**  
We have in stock, Deed Forms,  
Teacher's Agreements, School District  
School Tax Books, Dog Tax Books,  
Assessment Lists, Road Tax Books,  
Poor and County Rates.

**Duke of York  
Not Coming Out**  
London, Aug 6-It is learned by  
the Canadian press that there is  
absolutely no foundation for the sug-  
gestion that the Duke of York will  
accompany the Prince of Wales on  
his forthcoming trip to the United  
States and Canada, on which the  
Prince sails for New York on  
August 23rd.

## MAN'S SKULL MENDED WITH SECTION OF SKIN

Success of two unusual operations  
in which a section of a man's shin-  
bone was used to fill a hole in his  
skull, with the subsequent recovery  
of his speech, was announced at the  
Ann May Hospital to-day.

John Hansen, forty-five, of Mana-  
squan, a year ago was struck on the  
head by a policeman arresting him  
for being drunk. A part of Hansen's  
fractured skull as large as a half  
dollar was removed last October after  
the injury had caused him to lose  
speech. Later he partly recovered his  
speech, but Dr. B. H. Garrison of  
Red Bank, who performed the opera-  
tions, decided pressure on the spot  
was preventing complete recovery.  
Last week the section of the shin-  
bone and a section of fat tissue from  
Hansen's abdomen were grafted in-  
to the hole.

Hansen's power of speech is now  
entirely restored, except for a slight  
lisp, which is expected to pass away  
within a month.

## A Problem Which Confronts U

At a recent conference of the Can-  
adian Association of Child Protec-  
tion officers, the question as to what  
to do with our unfit was freely dis-  
cussed. In the main, our criminal  
and general incompetents are coming  
from two sources; those who enter  
our ports with their criminal in-  
stincts already well developed, such  
for instance as that group of Ital-  
ians who were recently tried and  
sentenced to death on the charge of  
murder in connection with the Ho-  
chelaga Bank car hold-up in Mont-  
real. And in the second category  
come those who are born in this  
country of parents tainted in their  
mental or physical make-up or in both.

In addressing the meeting men-  
tioned above, Mr. K. C. McLeod re-  
ferred to two well-known and even  
historical examples of what good  
and bad blood mean to a nation.  
From one couple in New England  
there were after seven generations  
1,394 descendants, and out of that  
number no less than 1,295 were  
college graduates and practically  
all were fine citizens. From the  
other couple, after seven generations  
there were approximately the  
same number of descendants, and  
they were nearly all criminals. Of  
the whole number only twenty had  
ever learned trades and of that num-  
ber ten had learned their trades in  
a State penitentiary. Mr. McLeod  
felt that the proper thing  
to do in this matter was to have  
had the State function in this mat-  
ter and see to it that these crimin-  
als did not reproduce their like.

Sooner or later we must realize  
that the State can no longer afford  
to take care of mental units, and  
moreover that those who are of un-  
questioned character should not be  
allowed to reproduce their kind. Mr.  
McLeod complained, and rightly,  
that if we paid as much attention to  
the class of children reared as  
we do to the class of live stock  
produced the whole question would  
be solved in one generation.

In the speaker's opinion there  
were two ways to attack the problem.  
The first was to sort over the under-  
capacitated children and pick out  
those who could be socialized; and  
the second was to take those who  
could not be socialized and chloro-  
form them. Then he would take parents  
who produced that type of child and  
make it impossible for them to add  
to the country's population of units.

A little attention along that line  
he felt, would speedily solve Can-  
ada's problem in that direction.  
Mr. McLeod felt that in view of  
the popular opinion swinging against  
institutionalism and against the  
high taxes which had to be paid to  
keep up such places of detention,  
it would be well if some drastic ac-  
tion were taken. (Saturday Night

## PREDICTS LOT OF DISASTERS IN AUGUST

Railroad disasters, explosions  
with loss of life and a volcanic eru-  
ption are predicted for the next  
three weeks by the Rev. Arthur  
Brooks, an assistant Minister at  
St. George's church in Stuyvesant  
Square, New York who makes fre-  
quent astrological predictions. There  
will be a total eclipse of the moon  
August 14th and partial eclipse of  
the sun August 30th.

Mr. Brooks predicted the nomina-  
tion of Mr. John W. Davis.

"August will be marked by a series  
of railroad disasters, also explosions  
underground in mines and loss of  
life at sea because of explosions on  
ships. A volcanic eruption is likely  
to take place in the vicinity of  
Mount Vesuvius, Mount Etna and  
Mount Stromboli. Relations be-  
tween the several nations will be  
severely strained, and they will be  
brought to the verge of display of  
both military and naval strength.  
However, cautious diplomatic proce-  
dure may avert the danger of ac-  
tual warfare.

"The partial eclipse of the sun  
which takes place at 8:37 a.m.  
(Greenwich mean time) on August  
30th in the first pecan of Virgo is  
taken to indicate the death of a king  
or some person in high governmen-  
tal circles. It will tend to dis-  
turb political affairs in Persia, Asia  
Minor and East Africa."

## Support The Schools

In all this welter of opinion and  
comment on economy in govern-  
ment it is well that we retain a  
healthy sense of values. That the  
tax burden is a heavy one in these  
critical and stressful days goes  
without saying. But so long as we  
continue to pay golden tribute to  
automobile manufacturers to filling  
stations, to moving picture places;  
to ice cream parlors; to cigar stands,  
and to hosts of other dealers in  
luxuries there is but little sanity;  
good citizenship in any movement  
that looks toward a curtailment of  
school revenues. So long as this  
government purposes to be a  
government of the people, for the  
people and by the people, just so  
long must this government have  
and loyally support, at no matter  
now great a sacrifice, its public  
school system. So there should be  
no thought of reduction in teachers'  
salaries, or other retrenchment  
which would impair the efficiency  
of our schools. Perhaps we should  
declare a holiday in the voting of  
bonds for public buildings, for road  
building and for other forms of  
fiscal improvements but whatever  
course we may be forced to make  
along these lines, it should not be  
permitted to interfere with the es-  
sential and indispensable work of  
any community which, when all is  
said and done, is that community's  
best investment.

## "BUY AT HOME"

## FRUIT TREATMENT FOR CONSTIPATION

Quick and Permanent Relief  
By Taking "Fruit-a-tives"

What a glorious feeling it is to be  
well! What a relief to be free of  
cathartics, salts, laxatives and purga-  
tives that merely aggravate consti-  
pation and are so unpleasant to take  
and so weakening in their effect!  
What a satisfaction to know that  
the juices of apples, oranges, figs and  
prunes will absolutely and perma-  
nently relieve constipation. By a  
certain process, the juices of these  
fruits can be concentrated and  
combined with tonics—and it is these  
intensified fruit juices that correct  
constipation, relieve headaches and  
biliousness, and make you well and  
keep you well.  
"Fruit-a-tives" are sold every-  
where at 25c. and 50c. a box—or sent  
postpaid by Fruit-a-tives Limited,  
Ottawa, Ont.

## Good And Bad In All Of Us

If our faults were put in one side  
of a scale and our merits on the  
other side, which would go down, or  
other words would the scale be  
evenly balanced?

While we are alive people study  
us and emphasize our faults.

When we are dead our merits are  
over praised.

Criticism while we are living  
spurs us on. Praise after death may  
stir up ambition in the young, but  
it does us no good.

A wise man said, "The world re-  
wards the appearance of merit often  
or than merit itself."

The same famous writer of max-  
ims says there is much merit  
never recognized, but never any  
real recognition without some merit.  
Many a man considered by some  
siders by others an angel of per-  
fection.

To criticize a man while he lives  
is to spur him on to greater efforts.  
Ridicule which blasts and withers  
weak souls—and harsh criticisms,  
which is supposed to have killed the  
poet Keats, but did not—are the  
best tonics for a strong character.

Benjamin Disraeli went through  
all stages of ridicule and criticism  
in the House of Commons in Eng-  
land. He was a Jew, and that  
was against him in those days. He  
was dandy with curly hair, and a  
failure and full of defects is con-  
vey a fancy waistcoat of crimson and  
gold. They laughed him down, and  
made it impossible for him to con-  
tinue his speech.

He said as he took his seat: "The  
day will come when you will hear  
me."

Later as Prime Minister he made  
Queen Victoria Empress of India, he  
represented England in the famous  
Berlin Conference and returned  
"bringing peace and honor."

He also brought with him the  
beautiful Island of Cyprus which  
he added to the British Empire, ad-  
hering to the good old English mot-  
to "Always pick up a little some-  
thing when peace is made."

Those who criticize should remem-  
ber Disraeli's saying "It is much  
easier to be critical than to be  
correct."

## Here and There

Radio stations are to be established  
near Montreal and Vancouver as  
links in the Empire wireless station  
program as the result of arrange-  
ments just completed between the  
British Government, the Department  
of Marine and Fisheries of Canada  
and the affiliated Marconi com-  
panies.

The Manitoba Pulp and Paper  
Company will, it is understood,  
shortly establish a plant at St. Boni-  
face, near Winnipeg, Man. The  
company plans to expend \$5,000,000  
of its \$5,000,000 capital on imme-  
diate operations, and to build a 200-  
ton newsprint mill, employing about  
700 men.

Canada's trade is growing at a  
faster ratio than ever before, de-  
spite the war. She now sells to 100  
and buys from 77 countries. Her  
total foreign trade, in the calendar  
year 1923, reached \$1,918,264,789,  
an increase of 16 per cent in one  
year, and her interchange of com-  
merce increased 70 per cent between  
1913-14 and the past year.

John B. Thompson, noted sports-  
man and writer on the out-of-doors,  
widely and popularly known by his  
pen name of "Ozark Ripley," is  
visiting the Canadian Pacific bun-  
galow camps in Ontario, giving  
demonstrations of his skill as a fly  
and bait caster, as well as free  
casting lessons to guests and infor-  
mal talks on fishing and other out-  
door subjects.

Creating a new record for the 15  
years it has been in business, the  
Saskatchewan Co-operative Eleva-  
tor Company will have handled 59-  
000,000 bushels of grain through its  
commission department in the 1923-  
4 season, it is announced. The es-  
timate of grain handled through  
terminal elevators for the 1923-4  
season is 58,000,000 bushels.

The steel superstructure of the  
new Ste. Anne de Beaupre Basilica,  
which is to replace the destroyed  
edifice at the famous shrine, has  
now been completed and it is ex-  
pected that by next July the ex-  
terior of the church will be nearly  
finished. It is not anticipated, how-  
ever, that the building will be en-  
tirely ready until July, 1926. In  
the meantime, thousands of pil-  
grims continue to visit the shrine  
and several miracles have been re-  
cently reported.

Figures issued by the Department  
of Agriculture for the Province of  
Quebec show that there has been  
a marked improvement in the con-  
dition of farmers of the province  
over last year, due to good crops, to  
such an extent that, instead of dis-  
tributing grain seeds to the value  
of over \$125,000 as was the case last  
year, only \$60,000 worth was neces-  
sary to meet this year's require-  
ments. Hon. J. E. Caron, Minister  
of Agriculture for the province,  
basing his anticipations on present  
crop prospects, expects a still fur-  
ther improvement in the near fu-  
ture.

"Never has the opportunity for  
Canadian business in the Orient  
been so good as it is today," said  
Allan Cameron, Oriental Manager  
of the Canadian Pacific Railway,  
in Montreal recently. "It is true  
that the general volume of business  
in China and Japan is somewhat be-  
low normal owing to both local and  
world conditions but if Canadian  
manufacturers and producers now  
fail to make an effort to secure a  
large share of Oriental trade that  
would naturally come to them, the  
opportunity will pass and someone  
else will get the business."

Following its success at the Brit-  
ish Empire Exhibition, the Cana-  
dian Pacific Railway is arranging  
unusually fine displays for fall ex-  
hibitions in Canada. At Toronto,  
the exhibits will include a Northern  
Ontario hunting scene, having a  
painted background sixty by six-  
teen feet, a feature of which will  
be moose and deer moving through  
the forest and an attendant guide  
to give information to enquirers. A  
full-sized model of the front of a  
Canadian Pacific engine and other  
displays illustrative of the Com-  
pany's many activities will also be  
shown in Toronto. Wonderful elec-  
trical models depicting Canadian  
winter sports, round-the-world  
cruises, etc., are slated for Quebec,  
Sherbrooke, London and North Bay.
