

WITH THE FARMERS

IRRIGATION CONVENTION.

A number of farmers in connection with the second annual convention of the Western Canada Irrigation Association to be held in Vernon during the week from August 10th to 17th, will be the special arrangements that are being made to give the visitors every opportunity to see the most interesting section of the country.

On the way to Vernon on the 10th, of August a stop of two or three hours will be made at Armstrong, where the citizens will provide teams and drive the delegates through the district. One special reason for this stop at Armstrong is to impress upon the delegates the strong local feeling that immediately steps should be taken in the direction of forest preservation on account of its close relation to the question of water supply.

Monday afternoon and evening and Tuesday will be devoted to business sessions at Vernon, a most comprehensive series of papers and addresses having been secured, and much important discussion arranged for.

On Wednesday, the delegates will be driven over the irrigation systems of the White Valley Power and Irrigation company and the irrigation systems of the Coldstream Ranch, Lord Selkirk, famous trout property.

For Thursday, Friday and Saturday steamer have been chartered from the C.P.R. for an excursion down Okanagan Lake, and arrangements have been made to drive the delegates over the irrigation systems at Kelowna, Peachland, Summerland and Penticton.

This opportunity to combine business with pleasure, and visit one of the most interesting sections of British Columbia, while also taking part in a Convention, which has for its object the furtherance of one of the most important movements of Canada, is an altogether unusual one.

Winnipeg, July 27.—All wheat markets closed lower on lower cables, and the general fine weather conditions all through. New York reported a good export demand and 60 loads worked throughout the Canadian West for the past 24 hours was fine, warm and dry. The degree in the West is visible, which is now down to open, dry, but what it was on the corresponding date last year, is regarded as a decidedly bullish factor for the future.

Winnipeg cash wheat—No. 1 Northern, 1.05%; No. 2 Northern, 1.02%; No. 3 Northern, 1.00%; No. 4, 98%; No. 5, 96%; No. 6, 78%; No. 1 feed, 70%; No. 2 feed, 60%; Oats—No. 2 white, 43%; No. 3 white, 42%; No. 4 white, 41%; No. 5 white, 40%; No. 6 white, 39%; No. 1 Northwestern, 1.20%; No. 1 Manitoba, 1.19%; American options—Chicago, July 29, 89%; September 88%, 89%; December 86%, 86%; Minneapolis—July 11, 111; September 96%, 96%; December 93%, 93%.

BETTER LIVE STOCK PRICES.
Live Stock Commissioner Stevens stated in the Bulletin this morning that conditions which have prevailed in the West for some time show that beef prices in the world's markets are likely to be good for some time. The value of the stock of the stock growers of Alberta will depend on the degree to which they fit their animals to command the best prices and the ease with which they can get them to market.

The C. P. Fowler, who for the past 15 years has lived in China, reports beef as selling at enormous prices in that country, and he is at present on his way to Alberta to open up a live stock trade between this province and the Orient.

The Trade Bulletin, of Montreal, says that the live stock market is on the subject of high prices of meat, and it claims to see no relief in the near future.

The Ontario Meat Trades Journal says mass meetings are being held in England to discuss the question of the high prices of beef and mutton, and freely expressed that the people of that country will some day be at the mercy of the live stock market.

In the Chicago market the best grain-fed animals brought \$8.15 per cwt. on July 24, but the best grass fed animals brought \$7.50, a difference of \$2.50, or more than enough to have shipped an animal to either Liverpool or London.

Getting to a market with the least possible loss or expense is of the greatest importance to the meat trader, but having that, the man who when one gets there is also important, and, after all, decides the question of price.

WEDNESDAY'S GRAIN MARKETS.
Winnipeg, Man., July 29.—The situation in wheat and barley markets shows fluctuations of the market are of small moment in comparison with the general market, and it is not much speculative trading, but the situation suggests plenty of it later on.

Reports of the Russian and French crops grow worse, and no matter how the Canadian surplus may be, it is not so good as it was in the past, who is not in too great a rush to sell his wheat when the big movement is on the way.

The J. Y. Griffin Co. state that the price of hogs will rise as soon as the pork packing plant is ready to commence business. It looks as if the raising of hogs is to be made profitable to farmers in order to insure a supply of hogs for the packing plant.

TO-DAY'S GRAIN MARKETS.
Winnipeg, July 28.—Liverpool 1 1/2 to 1 3/4 lower; Chicago and Winnipeg 1/2 to 3/4 lower; Minneapolis July is down 1/2; but the September is only down 1/4. Lower cables, improved weather and heavy receipts continued the decline of yesterday, until prices were a cent lower. Trading, however, was light, and when shorts started to cover they found very little wheat for sale and prices were pushed up to nearly last night's close. American wheat markets report a business going on.

Closing prices are: August—90% 1.05%; August 1.03%; October 90% No. 1 Northern, 1.05%; No. 2 Northern, 1.02%; No. 3 Northern, 1.00%; No. 4, 98%; No. 5, 96%; No. 6, 78%; No. 1 feed, 70%; No. 2 feed, 60%; Oats—No. 2 white, 43%; No. 3 white, 42%; No. 4 white, 41%; No. 5 white, 40%; No. 6 white, 39%; No. 1 Northwestern, 1.20%; No. 1 Manitoba, 1.19%; American options—Chicago, July 29, 89%; September 88%, 89%; December 86%, 86%; Minneapolis—July 11, 111; September 96%, 96%; December 93%, 93%.

CHICAGO LIVE STOCK.
Chicago, July 27.—One hundred cars of western range cattle arrived today and there is plenty of grass beef in sight for the latter part of the week. Good corn fed steers were scarce and did not suffer much. Only two strings of western lambs arrived, otherwise that stock would have been lower also.

HOG RAISING UNPROFITABLE.
The census and statistics office in connection with the Department of Agriculture, in the July monthly bulletin on the condition of the crops and live stocks in Canada, estimates that the average yield of fall wheat in the Province of Ontario at 25 bushels per acre, and out of 35

Nanton—No damage; wheat and oats dry and warm latter part light hail; report slight frost all grains headed out, wheat heads in medium condition.

TO-DAY'S GRAIN MARKETS.

Winnipeg, July 30.—Ottawa one 1/2 to 3/4 higher on unfavorable conditions (hail) and lack of offerings from America. Markets on this side of the water opened tame on the cooler weather over the Northwest and on reports coming in of damage in South and North Dakota by heavy rain they turned strong, and the futures show a good advance on the day. Some crop experts estimate the damage at 50 per cent, but it is thought if weather keeps fairly cool there will be no further injury. Shorts were squeezed again today on the Minneapolis July, as it shows an advance of 2 cents. The September is up 1/2; Chicago is 1/2 to 3/4 higher. In the Winnipeg market the October was strong, following the advance in American markets and is up 1/2, but cash wheat is quiet, the July and August closing same as yesterday.

July 1.05, August 1.04, October 92%.
Cash grain—No. 1 Northern, 1.05; No. 2 Northern, 1.02; No. 3 Northern, 1.00; No. 4, 98%; No. 5, 96%; No. 6, 77%; No. 1 feed, 69%; No. 2 feed, 60%; No. 3 white, 41; No. 2 white, 40; No. 3 white, 40; No. 4 white, 39; No. 5 white, 38; No. 6 white, 37; No. 1 Northwestern, 1.20; No. 1 Manitoba, 1.19.

BELGIAN SCULPTOR INVADES EDMONTON

Herr Schneider, of Brussels, Member of Royal Academy of Belgium, is bringing his art to Alberta's Capital while running a statue demand for his work.

To cultivate the aesthetic in the people of Alberta, to teach them to live the beautiful and the artistic, to prove that the accumulation of a fortune, should not be the sole aim of man, at the same time to win a name for himself in this new country is the aim of Henry Rymer Schneider, a young sculptor from Brussels, who has recently come to this city.

Schneider is a member of the Royal Academy of Belgium, and has a studio in Brussels. He is a German by birth, and although still a young man, has successfully demonstrated his skill and ability as a sculptor.

Herr Schneider came to Canada this summer to see the country, and expects to locate here permanently if his studies are sufficient encouragement for one of his profession. He received a communication from the provincial secretary of Ontario with reference to some work to be done in Toronto, but in arriving there he found that they were not yet ready for his work.

Herr Schneider is a member of the Belgian Club in New Jersey, Miss Louise Kruger suddenly arose and jumped from the running board to the water below. James Davis, the conductor, saw the girl make the leap and the next moment he was springing into the river in an effort to save her. When Davis struck the water it was so dark that he could not see the girl, but he swam about for several minutes until he made out her form a few feet away. As he seized her she cried "Let me die, I want to die." Although she was desperately to end her life in the murky water, the conductor brought her to shore. The girl said that she had been the victim of an unfortunate love affair and wanted to die.

Pageant Master Made Indian Chief.
Quebec, July 30.—The Duke of Norfolk and Lord Ranfurly, who expressed themselves delighted with their visit, sail for England on the Virginia tomorrow. Frank Lascelles, manager of the pageant, yesterday made an honorary Indian chief with much ceremony. His Indian name is Tchoukikouk, meaning "Man of Many Resources." A loving cup was presented by Major-General Wilson by the visiting admirals, Curzon, Howe and Jellicoe, the British fleet, and the American.

Delirious Patient Killed Here.
Toronto, July 30.—Getting rid of the bandages with which she was tied and scrambling out of the fourth story window in Grace Hospital, Annie Corbett, 70th street, New Toronto, a typhoid fever patient, at 6.30 this morning hurled herself head downwards to the ground and was almost instantly killed.

Child Brought to Death.
Estevan, Sask., July 29.—Mary Labrose, aged three years, grandchild of G. Matt, while playing upstairs in Lome, three miles from here, caught in a match with the result that her clothing caught fire. The mother, hearing her screams, was severely burned trying to rescue her daughter. Dr. Henry was called but holds no hope of recovery.

Church Unions Meeting Postponed.
Toronto, July 29.—The next meeting of the church union committee, it is rumored, will be held December, instead of September, as formerly decided upon. This will enable the Church of England at the general synod meeting to be held in September to discuss its attitude in the subject of church union and to decide whether they will take part in the conference on the subject.

LIVE HOGS WANTED.
"We wish to inform live stock raisers in and about Edmonton that our new packing plant at Edmonton will be completed about September 1st, and we shall immediately be in the market for large quantities of live hogs. Would suggest that stockmen tributary make arrangements for raising hogs in increased quantities as they are sure to find a market every day at full value at our plant."

Monument for Canadian Irishmen.
Indianapolis, July 28.—Although the national convention of the Ancient Order of Hibernians adjourned Saturday last, the board of directors continued its session here. It was decided that the order should provide a fund for the erection of a monument to the 12,000 Irish immigrants who perished during the famine in 1841 at Cross Lake, thirty miles below Quebec. This matter was left with the board by the national convention. The Canadian delegates worked hard for the monument. Under the authority vested in the board by the national convention, the directors decided to send Archbishop McFall and National President Connors to Ireland to negotiate for a closer affiliation of the Hibernians in America with those in Ireland, Scotland and England.

UNJUSTIFIABLE SHOOTING.

Police Constable Shot Down Man Attempting to Escape Arrest.

Tillbury, Ont., July 28.—The coroner's jury in this morning's shooting returned a verdict that Wm. Healey came to his death by a bullet wound discharged by the hand of Elliott Kimball while running to evade arrest, and we would recommend that some restrictions be placed upon the carrying of firearms by the constabulary of the province. Kimball was placed under arrest on a charge of manslaughter and will have a hearing on Monday. Meantime the crown attorney will ask the attorney general if bail may be granted. Kimball is 32 years old and has been a police officer 15 years. Healey was only half a dozen feet away when he fired.

Saved From Death Against Her Will.
New York, July 28.—As a trolley car was speeding through the storm and darkness of the early morning today, crossing the bridge of the Hackensack river in New Jersey, Miss Louise Kruger suddenly arose and jumped from the running board to the water below. James Davis, the conductor, saw the girl make the leap and the next moment he was springing into the river in an effort to save her. When Davis struck the water it was so dark that he could not see the girl, but he swam about for several minutes until he made out her form a few feet away.
