### NAVAL RESERVISTS GO ON STRIKE.

Special Evening Telegram.  
MARSEILLES, April 12. The strike of the Naval Reservists which started yesterday has taken on new life. All the city is now occupied by the troops. The sympathetic strike of the tramway employees gave considerable trouble to-day, but they have decided to resume work to-morrow. The members of the store Clerks' Union also inaugurated a sympathetic strike, and this will be continued, it is announced, until the Reservists secure satisfaction. The bakers will begin a strike to-morrow, and the Prefect of Marseilles has called on the military bakers to replace them. During the course of the afternoon the strikers in an attempt to prevent the cars from running came into collision with the police and many were hurt on both sides.

### WHITNEY FOR THE ARCTIC AGAIN.

Special to Evening Telegram.  
NEW YORK, April 12. Another expedition to the Arctic, during which he expects to stop at Etah to recover the instruments of Dr. F. A. Cook, is being planned for this summer by Harry Whitney of New Haven, the first white man encountered by Cook on his return from the north, and who first heard Cook's assertion that he (Cook) had reached the North Pole. Paul Rainey, known as a horseman and yachtsman, will accompany Whitney. Negotiations commenced to-day to charter a suitable vessel, and it is expected the expedition will leave St. John's, Nfld. in July. Overtures are said to have been made to Capt. Samuel Bartlett, master of the schooner Jeanie, sent to the Arctic last year to carry relief to Commander Peary, to command the vessel. The principal object of the trip will be to obtain specimens of big game for museums and parks, and the recovery of Dr. Cook's instruments will be but incidental. Whitney is said to feel that since he left them at Etah it is incumbent upon him to see that they are brought back and delivered.

### ANOTHER LAUNCHING.

Special to Evening Telegram.  
TRIESTE, April 12. The Australian battleship Zrinyi, of 14,400 tons, was launched here to-day.

Messages must be written in plain English, code or cipher prohibited.

### MRS. MAYBRICK'S MOTHER DEAD.

Editor Evening Telegram.  
NEW YORK, April 12. A cable received here to-day states that Baroness Derouques, mother of Mrs. Maybrick, who spent many years in a British prison under a life sentence, died in Paris a few days ago in the eighty-seventh year of age, and at the expense of non-relatives. U. S. Consul Gen. Mason at Paris has been endeavoring to communicate with Mrs. Maybrick, supposing her to be in America, but has not received any reply.

### FRENCH BATTLESHIP LAUNCHED YESTERDAY.

Special to Evening Telegram.  
BORDEAUX, April 12. The 20 knot turbine battleship Vergeau was launched successfully to-day. She is the last of the series of six 18,000 ton battleships laid down in 1907, and is named after the French patriot who was executed during the reign of terror in 1793.

### RECIPROCITY IN LAND HOLDING.

Special to Evening Telegram.  
TOKIO, April 12. The recently adopted land ownership law restricting the ownership of land in Japan to such foreigners as come from a country which extends similar privileges to Japanese residents will be put through to-morrow.

### ROOSEVELT ITINERARY.

Editor Evening Telegram.

### Representatives of All Nations.

All who wish to spend a pleasant evening should not fail to hear and see the Steadfast Mission Band, at the basement of Cochrane Street Church, to-morrow (Thursday) evening, at 8 o'clock. The members of the Band have been hard at work practicing for weeks past, and are sure that the entertainment will surpass any of by-gone years. Come and see the band entertain representatives of all nations of the world. Refreshments will be served during the evening. Admission 25 cents. There will also be Ice Cream for sale. Ticket holders will oblige by coming early.

### The First Whale Taken

By the shore train last night we learn that the whaler Cabot caught her first whale yesterday at Point Verde Bank, and towed it into Placentia, the ship going away again on the search for other fish, which she reported to be fairly plentiful. The whale is a sulphur bottom which some of the passengers said measured 95ft., while others maintained that it was 105 ft. It was a large fish and Capt. Bull is to be congratulated on its capture.

### Moving Pictures for Festival of Empire.

The Daily Mirror, the big illustrated London daily of the Harnworth group, is sending one of its photographers to take pictures of the pulp and paper operations at Grand Falls, the flow of the water over the Falls, and other objects of interest. They will be utilized for a cinematograph display of Newfoundland life at the Festival of Empire to be held in the Crystal Palace, London. Efforts are being made to obtain other films of interest, such as the marching of the massed brigades, salmon fishing, etc.

### Placentia Notes

Mr. J. Phippard who was off the Argyle for the winter months, again resumed his position as pursuer, on Thursday.

Rev. Fr. St. John went to town by Friday's train. From there he left with Archbishop Howley by Sunday's express for Antigonish to attend the funeral of Bishop Cameron whose burial will take place Wednesday.

Rev. Fr. McQuay came by train on Friday; he left for Cape Shore on Saturday morning accompanied by Sgt. Kent and Magistrate O'Reilly to try a case of larceny; after all being heard the defendant won the case.

Mr. A. Piment also came by train on Friday.

Mr. A. Miller is to-day (Tuesday) going to Cape Shore with a load of lumber consigned to the different coves.

Mr. Edward Brennan is also leaving for St. Bride's to-day from where he will load fish and proceed to the city.

A vessel was in the Roads on Saturday apparently looking for bait. Her name as far as can be learned is the Huron, carrying a crew of 20 men all told.

The weather the past few days has been more like weather experienced in the Philippine Islands than in the "land of ice and fog." I am of the opinion that it is the warmest weather that has been experienced in April for a long time.

Wild animals, such as lynx, are reported being very plentiful. Mr. L. Byrne and Mr. Keefe have secured quite a number; so any person wanting a skin may notify these people.

The much talked of fog alarm at Point Verde is now in the course of completion. Mr. T. Whalen is superintending the work; and while Skipper Tom has the job you can rest assured that it will be done in quick time and an up-to-date style. "Sunny 7m" would not if he tried select a better man for the job. This alarm not alone benefits the people of this town but the Bay in general, and also all steamers or vessels passing that way. No definite answer has yet been given as to who will have charge of it, although quite a number of applications are in, too many in fact.

This year opens up to be a banner year for the Star of the Sea Association. The committee, since being elected has done grand work, and if they follow as they have started they will certainly have a record year. All the members of the committee are hard-working men, and with the captain (chairman) at the wheel, and the sailors (other members of committee) on deck, they will certainly prove themselves to be the "right men in the right place."

There passed away peacefully out of this world on Monday, the person of Miss Lizzie Tobin. The deceased, though very young, contracted that dread disease consumption, and after the best medical aid having been in attendance she was unable to be cured and succumbed on the day mentioned.

### Labour and the Tariff.

A deputation from the Trades and Labour Council yesterday afternoon interviewed the Premier as regards the existing tariff on materials imported for building purposes. It was shown that the duties in some cases were so high that they affected the trades unions. A re-adjustment was asked for, and the Premier told the deputation that he would place their views before the Government as soon as possible.
