J. J. ST. JOHN.

The Tale of Perfect Time in a Watch

D. A. McRAE,
WATCHMAKER and JEWELLER,
295 Water Street,
St. John's.
June 18, 12

From Mainspring to Hairspring, between them lies the secret.
The Mainspring is the power which it transmits to the active parts of the watch. The Hairspring has the control and regulates the motion. The setting is most delicate; imagine a 100th part of a hair. (Impossible to see!) Yet it is enough to interfere in its performance, so wonderful is the adjustment. The friction from accumulating dirt; lack of oil, etc., destroy these perfect springs. Do not let your watch run to ruin from neglect. Remember your business is the care of watches, and not gaudy gold-plating.

PERHAPS
