**THE MILLION DOLLAR MYSTERY.**  
(By Harold McGrath.)

Cloth 60c.; if mailed, 75c. more.

At the foundation of the plot of this exciting mystery story, there is a secret organization in Russia. Then are given glimpses of country house society, the modern boarding-school, the fashionable restaurant, the enterprising twentieth century newspaper reporter, the romance and mystery that may be linked together by two halves of a bracelet, the love of a father for his daughter, the devotion of an old family servant, the intrigues of a band of thieves and blackmailers and plenty of the old love that is always new, not to mention the million dollars about which the whole thing revolves and which, in these times, has an especially pleasing ring. All these result in a story that keeps the reader with pulses tingling.

# The Eastern Trust Company.

A few reasons why an estate can be better administered by the Eastern Trust Company than by a personal executor or administrator:—

1. The Company affords the estate absolute security; it has a paid-up capital of \$351,000.00, and a reserve fund of \$229,300.00.
2. It has a long experience in the work of administering estates; it is incorporated for this business of acting as a trustee, and, unlike many other trust companies, it does no other.
3. Its existence is perpetual. Your estate, in the event of the death of a personal executor or administrator, must look around for a substitute and the work of administration is impeded during that time, and the new executor is unfamiliar with the policy of his predecessor, and confusion results. This company's existence is perpetual, and there is a continuity of policy in its administration that the death of its officers does not break.
4. It possesses the confidence of governments, universities and prominent charities and administers their funds.
5. A number of other advantages which will appear in due course.
