**THE BALKAN BARGAIN SALE.**  
**PARIS, Aug. 11.**  
A despatch from Rome says that Serbia will answer the communication of the Quadruple Entente Powers by offering to cede territory for a fixed sum in order to avoid responsibility for the failure of the Allies with the Balkan States regarding the war. It is difficult to forecast the decision of Bulgaria, for Greece, apparently, is refusing to make any concession to Bulgaria.

**FRENCH REPORT.**  
**PARIS, Aug. 11.**  
The French War Office this afternoon gave out a report as follows: In Artois district there was spirited cannonading last night, and close to

Souchez the German attack with bombs was repulsed, from the Argonne there has been reported very violent bombardment of our positions to the east of the road from Vienne Chateau to Binarville. On the remainder of the front the night passed quietly.

**CANADIAN CASUALTIES.**  
**OTTAWA, Aug. 11.**  
The light casualty list of the last few days, brings the total to 1,387 dead, 6,754 wounded, 2,076 missing.

**SWABODA ACQUITTED.**

The permanent court-martial at Marseilles has sentenced Henri Racine, the millionaire perfume distiller, of Mentone, to perpetual deportation, and payment of costs of the proceedings for supplying essence of Neroli and olive oil, through a Lausanne firm to a famous perfumer of Cologne.

**ENVER ADMITS LANDING.**  
**CONSTANTINOPLE, Aug. 11.**  
Enver Pasha declared to-day, that, according to his information, the Entente Allies in their latest operations in the Dardanelles, had landed three divisions of troops comprising about 50,000 men. The losses among them, however, he asserted, had already been heavy. His statement was made in an interview with a correspondent of the Associated Press.

**EVACUATION OF KOVNO PROBABLE.**  
**LONDON, Aug. 11.**  
The German attack on the fortress of Kovno has been pressed close, according to a correspondent at Petrograd. The village of Piple, on which the Germans have retained their hold, notwithstanding the fierce counter attacks of the Russians, is only six miles west of Kovno. Preparations are under way for the possible evacuation of the fortress. All supplies and Government properties have been removed and the factories are being dismantled.

**IS PETROGRAD THREATENED?**  
**LONDON, Aug. 11.**  
Discussing the possibility of an attempt by the Germans to reach Petrograd in view of their activities in the Kovno and Dvinsk regions, the correspondent of the Evening News in the Russian capital, says: The success gained by the Russian fleet at Riga has reassured the capital, as no advance against Petrograd is likely unless the Germans obtain command of the Baltic, giving the invaders a line of communication by water as well as by land. Kovno is about 400 miles southwest of Petrograd.

Reuter's correspondent at Petrograd also discusses the chance of the German move on Petrograd. His despatch says it is evident from latest official communications that the invaders are well established with very strong forces on the forty miles bow-shaped front from Louza to Ostrow. He predicts that an effort will be made to reach Dvinsk. Military authorities expect, the correspondent

continues, that the Germans will persist in their offensive notwithstanding checks, but they express strong doubts whether an advance on Petrograd enters seriously into the German plans. Lake and marsh country in the Pokov district south of that of Petrograd is well adapted for defensive operations should the German advance extend in that direction.

**BENJAMINOW OCCUPIED.**  
**BERLIN, Aug. 11.**  
Official reports of the German War Office announced to-day the occupation of the fortress of Benjaminow, which lies east of Novo Georgievsk, a Russian stronghold on the Vistula, northwest of Warsaw.

**GERMANY ABLE TO DISPENSE WITH COTTON.**  
**LONDON, Aug. 11.**  
The announcement that Germany is now able to dispense with cotton for the manufacture of military supplies is made by the Frankfurter Zeitung, which asserts that the designation of cotton as contraband of war would not solve the Anglo-American problem, as the Germans are in a very good condition of their technical situation no cotton whatever is longer used for war purposes.

**A PEACE MANIFESTO.**  
**BERNE, Aug. 11.**  
A manifesto has been issued by a group of German professors and intellectuals, enumerating their ideas of the only acceptable peace terms. These must insure free expansion of German culture, industries and commerce in Belgium, for military and commercial purposes, subject to Germany. France must cede to Germany all the territory north of a line from Belfort to the mouth of the River Somme and pay a large indemnity. Russia must cede Poland and the greater part of the Baltic Provinces, and other territory in lieu of indemnity, which she could not pay.

**FIFTY GERMAN SUBMARINES DESTROYED SINCE THE WAR.**  
**NEW YORK, Aug. 11.**  
According to the current issue of the Army and Navy Journal about 50 German submarines have been destroyed since the beginning of the war. Owing to the policy of secrecy maintained by the British Government little mention has been made of any submarine activities.

The vessel was the British steamer Oakwood, the vessel was sunk in the North Sea, the German submarine was seen in the vicinity of the ship. **U.S.S. RAMSAY SUNK.**  
**LONDON, Aug. 11.**  
The U.S.S. Ramsay, a small patrol vessel, was sunk by a German submarine in the North Sea. The vessel was carrying a cargo of coal and was bound for England. The vessel was sunk by a torpedo.

**RESOURCES GROWING - UNDER SECRETARY'S CONFIDENCE.**  
**PARIS, To-day.**  
Albert Thomas, Under-Secretary of War in charge of munitions, tells the Petit Parisien that France's efforts to produce munitions are different in method but equal in results to those of England, which he recently viewed. Newspapers quote him as follows: "We are doing what we can at the present moment is armed so as to withstand any shock, an army which on the other hand is capable of making the most of its resources. This is good, that is to say the army is prepared to remain as it is if necessary. Every day out strength grows both in England and in France. We are studying the formidable resources at the disposal of Germany it is now possible to give the assurance that the resources of France are for the time being, of complete victory. What we have and what England has will have will assure us of supremacy. I am convinced of this because

**BEATY PROMOTED.**  
**LONDON, Aug. 11.**  
The Gazette announces to-day that Sir David Beatty has been promoted to Vice-Admiral. Sir David Beatty during the present war commanded the British fleet which in August, 1914, sank four German warships off Heligoland, and won victory over the German squadron in the North Sea in the following January. In this latter fight the German cruiser Blücher was sent to bottom. Admiral Beatty is only 45 years old, and the youngest officer ever promoted to the rank of Vice-Admiral in the British navy.

**CIVILIANS LEAVING DVINSKI.**  
**LONDON, Aug. 11.**

which adds this morning that two Austrian torpedo boat destroyers, the Senta and the Senta, were sunk by the Italian submarine U-12. The Senta was carrying a cargo of coal and was bound for England. The vessel was sunk by a torpedo.

**LONDON BUDGET.**  
**LONDON, Aug. 11.**  
While the Russians are fighting desperately to extricate themselves from the corner of Austro-German troops which is steadily pressing them more closely in Poland, the Allies are working feverishly and with considerable skill to open the Dardanelles through which they hope to pour into Russia the much needed munitions of war. Since Saturday night when fresh British forces were landed on the Gallipoli Peninsula there has been continuous fighting on the Kithria road. Operations of the Australians and New Zealanders in Anzac have co-operated with new forces to the north. Following the success of the troops on the Kithria roads and those north of Anzac zone, the Australians and New Zealanders took the offensive yesterday and succeeded in trebling the area formerly held by them. Their comrades to the north who assisted them, made no further progress, however. Simultaneously the French battleship St. Louis continued to bombard the Turkish batteries on the Asiatic coast. The Germans have been bombarding the allied position on the peninsula, and put a few of the guns out of commission. These actions are believed to be preliminary to a much more ambitious attempt which has been planned by the Anglo-French commanders to sweep the Turks before them. The very heavy losses, which already have been inflicted on the Turks, have had a discouraging effect upon the Ottoman troops, according to reports from Greece.

On the eastern front Kovno is the danger point in the Russian lines. The armies of Grand Duke Nicholas have apparently arrested the German offensive against Riga and Dvinsk, but are being hard pressed here. The Kovno front which the Germans attacked with guns of all calibre, which no fortress has hitherto been able to withstand.

On the western front little has happened beyond the usual artillery engagements. German submarines show renewed activity and during the last three days sunk eight British merchant ships, which were British travelers, and four belonged to neutral countries.

Negotiations with the Balkan States in the form of them into the war, continues, but without any further developments.

The employees are forbidden to drink, yet they are not permitted to make any effort to have the temptation to drink removed from their home town.

**Britain's Ideal.**  
Dr. Inge, the Dean of St. Paul's, writes in the Quarterly Review: "What Britain stands for is what Britain is. We have long known in our hearts what Britain stands for; but we have now been driven to search our thoughts and make our ideals explicit to ourselves and others. The Englishman has become a philosopher, mature. Whatever the world thinks, writes Bishop Berkeley, 'he who hath not much meditation upon God, the human soul, and the summum bonum (highest good), may possibly make a thriving earthworm, but will most indubitably make a sorry patriot and a sorry statesman.'"  
"These words, which were quoted by Mr. Arthur Balfour a few years ago, may seem to make a large demand on the average citizen; but in our quiet way we have all been meditating on these things since last August, and we know pretty well what our summum bonum is for our country. We believe in chivalry and fair play and kindness—these things first and foremost; and we believe, if not exactly in democracy, yet in a government under which a man may think and speak the thing he wills. We do not believe in war, and we do not believe in bullying. We do not flatter ourselves that we are the supermen."  
"But we are convinced that the ideas which we stand for, and which we have on the whole tried to carry out, are essential to the peaceful progress and happiness of humanity; and for these ideas we have drawn the sword. The great words of Abraham Lincoln have been on the lips of many and in the hearts of all since the beginning of the great contest: 'With malice towards none; with charity for all; with firmness in the right as God gives us to see the right—let us strive on to finish the work we are in.' Patriotism thus spiritualised and moralised is the true patriotism."
