HOUSE OF COMMONS.
OTTAWA, May 19.
Mr. Stirton enquired for the details of the payment of \$2,008, put as part of the sum voted for unforseen expenses, and what part of that sum was expended in connection with the assimilation of the laws.

ccs.

Hon. Mr. Rose said that, on the main bulk of the items, there would, he believed, be little or no difference. He did not apprehend much difficulty in the settlement, as a good deal of zeal and amigable feeling characterized the efforts of the arbitrators.

Several bills were advanced a stage, after which the House adjourned.

Lake Superior Route to Red River.

Mr. Kenneth McKenzie, of Puslinch, with three of his family leave to-day for the Red River. It will be remembered he visited the territory last year, and so well pleased was he with the country, quality of the land, &c., that he returns to it this year with the intention of remaining some time, and commencing farming operations on the land he took up last year. He takes with him two teams of horses, with waggons and other necessary articles. We trust that he and his young folks will have a safe and speedy journey, and that his fullest expectations will be realized in regard to his intended future home in the "Far West." He goes by the Lake Superior route, as being far less expensive and more convenient every way for parties going to the Red River from Ontario than by St. Paul. He will take the steamer Algoma at Owen Sound for Sault Ste Marie, and there take one of the American Lake Superior boats for Superior City, From thence we understand there is a good waggon road to St. Cloud, 30 miles distant. For the information of parties intending to go to the Red River, we may state that the charges on the Algoma from Owen Sound to Sault Ste Merie are, for every adult, cabin passage, \$3; deck, \$4.50; children under 13 years of age and over four, half price; under four years free. Horsee, \$8 each; weggons, \$5 each; provisions 30 cents per 100 pounds. The rates of fare and other charges from Sault Ste Marie to Superior City are about the same as the above in greenbacks.

wiser course would be to put aside such matters and confine the negotiations to affairs within the recognizance of public law."

The Daily Telegraph also pursues the same theme. It says:—"Having made our protest we may be well content to wait. It is undustrable to leave the question open, but in the present condition of American feeling in possibility of a speedy and ratisfactory settlement is apapparent, beyond the desire to act justly. This country has no interest in concluding a convention, save that such an agreement might protect our commerce hereafter from such depredations as those committed by the Alabama A convention not cordially accepted by the Americans, as a full discharge of their supposed grievances, would be valueless; and the execution of such a compact, if made at the present time, would be exceedingly doubtful. The honest and faithful expestion of the views of each nation will pave the way to a conciliation and settlement.

The anniversary meeting of the Peace Society was held to-day. Resolutions were adopted, regretting the rejection by the United States of the Alabama claims treaty, hoping, if the statesmen of the two countries are unable to grapple with the emergency, that the reason and Christianity of the two great Anglo-Saxon nations may interpose to prevent war, and rejoicing in the activity and earnestness of the peace societies in America.

DUBLIN, May 19.—An ugly riot has taken place in Tralee. It commenced in a fight between two crowds. The police interfered, when the opposing crowds joined exainst the police and threatened to overpower them. Revolvers and muskets were discharged into the crowd with fatal effect. One rioter was instantly killed, and several wounded. Hong Kong, April 28.—A placard has leen extensively posted up throughout the Chinese Empire denouncing the Christian Missionaries in violent terms. It was rumored that a Chinese official, of high rank in Pekin, in a fit of anger slapped the the French—Legation had been hauded down. The Cohere Government is very uneasy i

The news from Jamaica is very encouraging. The prosperity of the island is rapidly approximating to that enjoyed, prior to emancipation. The statistics of the first year of the new regime show that the total revenue was \$393,444; the expenditure being £333,125. The abolition of universal suffrage has been attended with excellent results; the negroes are more industrious and contented, and the crops are consequently larger than they have been for many years.

ARRIVAL OF EMIGRANTS.—A body of emigrants to the number of 707, arrived in Tofonto on Thursday They were all dockyard artizans, with their familier, sent out by the British Government in the tropship Serapis. About 300 of them were sent off to Hamilton, and next morning the greater bulk of them were despatched for all parts of the Province.

The emigration of miners from Cornwall threatens to affect the future working of the mines in the country. The emigrants consist of miners in employment, but who have been much disatisfied with the rate of wages. Another inducement for them to emigrate is the reported prosperity of mining in Australia and America.
