The British Tory Government Worsted an Adverse Majority of

Sixty-Six Votes. The Liberal Amendment to the Factory Bill Carried.

'A Damaging and Ignominious Blow Secretary Matthews' Blunder.

LONDON, June 19. - In the debate in the House of Commons to day on the Factory Bill the amendment of Sydney Buxton (Liberal) to prohibit children under 11 years of age from working was adopted by vote of 202 to 136. The Government was thus defeated. The majority included a few Conservative members. Buxton's amendment will affect 150,000 to 200,000 children in the kingdom now employed in the manufacturing district as half-timers. It is a humanitarian reform, and was opposed by the bulk of the operatives, who benefit by the labor of their offspring. The Liberals argued that the abolishing of child-labor would provide more work for

adults.

Sir J. E. Corst explained that the proposal had been agreed to at the Berlin Labor Conference in order to bring England into harmony with other nations on the only point on which she was behindhand, but it was distinctly understood that the signing of the conference protocol did not bind England to legislative action on the subject.

Mr. Morley challenged the Government o say whether they opposed Buxton's mendment or not.

Home Secretary Matthews intimated that

amendment.
Sir J. E. Gorst, who was a delegate to the Berlin Conference, abstanced from voting. Lord Harrington, Sir Henry James and a few other dissidents voted with the minority, while Mr. Chamberlain and the fulk of the dissidents voted with the majority.

milk of the dissidents voted with the majerity.

The object of the Buxton clause might till be defeated by an amendment, but it is expected the Government will accept the situation.

PRESS COMMENTS.

The News (Gladstonian), commenting on the matter, says the blow is both damaging and ignominious, and that net even the resignation of Home Secretary Matthews will save the Government from discredit and disgrace.

Mrs. Duncan, whose husband attempted to murder her soveral weeks age at the two-y-color to murder her soveral weeks age at the two-y-color than the Government will accept the situation.

The police levied upon goods belonging to the Tipperary sureties of Messrs. Dillou and O'Brien, and the goods were sold at anction to-say, one owner buying in for 2550 the amount of his liabilities. The Chronicle says: "Truly Secretary Methews is a costly luxury to the State. The defeat of the Government will seriously damage the prospects of every Unionist candidate in the next general election." LOST IN THE CLOUDS

Three Frenchmen Make a Fatal Belleon Voyage—A Professional Acronaut Paris, Jun. 18.—A fatal balloon trip, re-

sulting almost to a certainty in the loss of three lives, occurred at the La Villette yesterday afternoon. A balloon containing a professional acronaut and two other persons made an acronaut and two other persons made an ascent about midday from La Villette, the serial venture being watched by crowds of people. When the balloon had reached a height of not more than 50 feet from the ground the acronaut, who had been busily engaged about the outside of the cave engaged.

Algeria.

Thrilling stories come from Algeria of the ravages of the locusts. In many districts not a sprig remains on a farm, and the inhabitants are in a famishing condition. Their only resource for food is the acronaut, engaged about the outside of the cave. about the outside of the car, was seen to

suddenly lose his balance, make a desperate effort to regain it and then fall to the effort to regain it and then fall to the earth. He was picked up so terribly in-jured that it is said there are no prospects of saving his life.

of saving his life.

In the meantime the balloon and its two remaining occupants, both of whom were utterly ignorant of the manner in which a balloon is handled, mounted up higher and higher into the air, until completely out of sight of the crowd. The Government officials have telegraphed to the prefects in surrounding departments to make all the inquiries possible in regard to the fate of the two occupants of the balloon, but up to this morning nothing has been heard of their whereabouts.

Fell Into a Shark's Mouth.

Norfolk, June 18.—Information has been received in this city of the death of John Howard, the colored cook of the schooner Silver Queen, at the mouth of the Chesapeake Bay, by being swallowed by a shark. He with others of the crew saw a school of sharks following close after the vessel. Upon the suggestion of one of the men an improvised net was made to capture one of the monsters. Howard became entangled in the meshes of the net and fell over the vessel's side. The foremost of the wharks was not more than ten feet away and the man was seen no more.

Brave Mrs. Grimwood. Fell Into a Shark's Mouth.

sharks was not more than ten feet away and the man was seen no more.

Brave Mrs. Grimwood.

New York, June 18.—Mr. Edmund Yates in his cable letter says: "Both the Queen and the Princess of Wales are much interested in Mrs. Grimwood, who is now staying with her mother, Mrs. Moore. The Queen sent Lord Cross to see her the other day, and the Princess of Wales has invited her to luncheon, as she is most anxious to hear from her own lips the account of her terrible journey. In crossing the river Mrs. Grimwood injured the sinews of one of her feet, and is extremely lame in consequence; indeed, it is feared that she will always be a little so, and she has some slight bullet wounds in her arm. One man was shot when standing within an inch of her while she was attending to the wounded and fell against her, yet she still continued to work undaunted. Mrs. Grimwood is only 23 and had been married three years. I am able to confirm on the best authority the statements which have been published as to the probability of Mrs. Grimwood receiving the Victoria Cross in addition to the Red Cross."

Tory

OTTAWA,

Act. The fi

On the motion for the second reading of Col. Amyot's bill to make voting compulsory a debate sprung up. The promoter of the bill explained that its provisions would compel an elector to go to the polls, but it did not attempt to compel him to vote. If an elector did not wish to vote for either of the candidates he might destroy either of the candidates he might destroy his ballot by putting more than one cross on it or in any other way he saw fit. All the bill required was that he go to the poll, take a ballot, retire to the ante-room and returning hand back his ballot to the re-turning officer.

Sir John Thompson criticized the bill and noved that the debate be postponed for

nsideration. Sir Richard Cartwright said it wasa harsh construction the Minister of Justice had put upon the bill when he said that it in-vited fraud. His experience had been that the conveyance of voters from a distance was a prolific source of corruption, and anthese would be largely removed by the principle of one man one vote, and that resident in the county in which it was cast. A good deal could be said for the principle of the bill. homestead ques-the 1887 amend-red to 1889

the bill.

Mr. Mills (Bothwell) said the member for Bellechasse had done an important service in bringing the principle of the bill under consideration. The bill involved a change Is might not have five years had eading. Another nomesteads being consideration. The bill involved a change in the policy of the Government and the present election laws. It involved the adoption of "one man one vote," because it could hardly be required of an elector to

Sharp Attack on the Society of Chris-

tian Endeavor

Compremise Resolution-Utterance on the Temperance Reform Question-The Summer College Scheme.

KINGSTON, June 17 .- The foreign mission

AINGSTON, June 17.—The foreign mission report was taken up and finally disposed of. A regulation was adopted placing ordained and medical missions is on equal terms on the aged and infirm ministers' fund, with present beneficiaries. Incapacitated missionaries retiring after ten years' service are pensioned \$100, with an additional \$10 per year to 40 years, when additional \$10 per year to 40 years, when the maximum of \$400 is reached. Lady missionaries to be pensioned at half these

rates.

The report on state of religion was presented by Rev. John Pringle, of Port Arthur, who referred to the very buoyant nature of all reports received from the Atlantic to the Pacific. The one cloud applications of the control Atlantic to the Pacific. The one cloud appeared to be that elders were losing their grip. The attendance at church services was 75 to 90 per cent. of congregations; 90 per cent. of young people attended Christian Endeavor metrings and Bible class, but in the prayer meeting the attendance was going down. The greatest hindrance to the workeverywhere was the giantintemperance. The report showed a hopeful improvement in every department, and full and satisfactory replies to the great majority of the inquiries sent out. The report recommended that a Young People's Society of Christian Endeavor, or similar organization, be formed in all congregations.

Dr. A. B. MacKay, Montreal, seconded the report in an hour's speech. In the

the report in an hour's speech. In the course of his remarks regarding work among the young, he said instruction in divine truth was of the greatest importance. That instruction, too, should look towards developing workers, not talkers; doers, not hearers only. It was easier to recite pretty verses at a society meeting than stay at home and wash dishes. The direction of young people in social work, as take for instance Christian Endeavor societies, was to develop talkers, and members often did not want pastor or elder present. They could teach one another, and this tended to foster a want of respect for the pastor. C stood for courting as well as Christian, and this was often the neet to which these meetings were put. Let e to which these meetings were put. Let use to which these meetings were part. Factive it be Christian courting, "not unequally yoked with unbelievers." (Applause.) Intemperance had been spoken of as the greatest hindrance, but Dr. MacKay namediolatory of mammon as the greatest drawback to higher life, and the dreadful revelations of machine in the control of the control of

MacKay had referred to Christian Endeavor societies. (Applause.)

J. B. Duval, of Winnipeg Presbytery, was

particularly emphatic in his denunciation of the "ghastly, carnal language" of Dr. McKay, terms which brought forth lcud cries of disapproval, and induced the speaker finally to withdraw and applogize. Rev. C. H. Cook, Smith's Falls, on the other hand claimed that the Christian Endeavor Society was an impertinence in its deavor Society was an impertinence in its very existence, seeking to usurp the work

of the church; that it was unpresbyterian, that it dishonored the Church of Christ. Rev. Robert Johnson, of Lindsay, asserted that either the Christian Endeavor Society was to be the greatest strength to the church or it was a viper she was nursing

Finally a resolution was moved as fol-

"That as a means of developing the gifts and graces of the young people, a Young People's Society of Christian Endeavor or similar organization be organized in all

congregations."
An amendment was submitted: "That An amendment was submitted:
in order to develop their gifts and graces,
the young people of our congregations be
more thoroughly organized for Christian
work." The amendment was carried on a
vote of 56 to 53.

2. Expressing satisfaction at the success of petitions favoring prohibition.

3. Approving of temperance organization in the church similar to that working in the Church of Ireland.

4. Directing that local church authorities see that the principles of temperance are properly advocated in the public schools.

The question of establishing a summer collegiate course for the benefit of workers in the mission field was warmly debated, the Assembly being about evenly divided as to the feasibility of the scheme. By a close vote the question was referred to the different Presbyteries for an opinion.

"THOU SHALT NOT."

Interesting Discussion on Prohibition in MONTREAL, Juno 18.—The second day of the Anglican Synod was well attended. The principal discussion was the temperance question. It arose on the report of the Church of England Temperance Society, presented by the Rev. J. Ker. The three objects of the society were the reformation of the intemperate, promotion of temperance and the removal of the cause which led to intemperance. It recommended that branches of the society and Bands of Hope be organized in every parish. Mr. Kurmoved its adoption in a brief speech, in which he avowed himself a prohibitionist. He once thought them cranks, but since he had seen the evil of the traffic he was ready for any measure that would put an end to it. He had no patience with such a traffic. Mr. E. L. Bond supported Mr. Ker. In the Diocese of Montreal the Church of England was not behind in temperance work, and the remarks recently made in the Toronto Synod respecting the Dominion Alliance were not deserved. Mr. Bond referred to the efforts being made to MONTREAL, June 18 .- The second day of

ion Alliance were not deserved. Mr. Bond referred to the efforts being made to Bond referred to the endrs being made to stop the sale of liquor in the public parks, and was pleased to state that the Quebec Government was improving the enforcement of the license laws.

Rev. G. Osborne Troop, in his academic

gown and a cane in one hand, got up and stated his views against prohibition. There were thousands of God-fearing men, he said, who did not believe in prohibition. "I do not, but no Christian can say he is in favor of the liquor traffic. We must remove not the temptation but the desire. Men could not be saved by prohibition, but by divine grace. The sin was not in the use but in the abuse of liquor; but the saloon existed only for the abuse, and there

Archdeacon Lindsay was on his feet in an instant to reply, and in his deliberate, solemn manner he gave expression to views directly the opposite to those of his brother. He was a prohibitionist because it was taught by God's commandment. Did they not read "Thou shalt not?" "I bethey not read "Thou shalt not?" "I be-lieve in stopping this torrible evil. Human society is made up of prohibitions, and the cure of these things is in our own hands." He assured them that the washins was not behind in this matter. Several other speakers expressed similar views, and the report of the society was finally adopted.

BREAKERS AHEAD!

The Conservative Ship Is Not Going to The Conservative Ship Is Not Going to Enjoy Continuous Smooth Sailing.
OTTAWA, June 18.—The Conservative press here is not confident that the Cabinet can hold out for long even with Mr. Chapleau placated. Le Canada, an independent Conservative journal, says Mr. Abbott will no doubt be made a knight on Dominion Day, in order to give him prestige; but it adds that this will not save the Government. The ruin of the Abbott Cabinet, it says, is imminent, because, instead of being a Government having principles to guide it, it is simply a convention of gentlemen bent upon keeping in office.

office.

The Journal, another semi-independent The Journal, another semi-independent Conservative paper, says: "The one feature of the situation, which is plain to the most superficial observer, is the weakness of the Cabinet with Ontario. Even a greenhorn in politics can see that Ontario, the Conservative ship, is moving amid rocks which call for another strong man to help at the wheel. If the Cabinet does not strengthen itself in Ontario it will meet and will merit a speedy disaster." The Journal thinks Mr. Meredith would make things safer. things safer.

The peculiar enervating effect of summer weather is driven off by Hood's Sarsaparilla, which "makes the weak strong."
