

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST.

Europe.

MADRID, Oct 8.—The Mayor of Serrua has taken command of a band of Republicans. Order has been restored at Valencia. In Galicia a conference was held yesterday between General Prim and President Rivera and Dupontes Castillar and Fluegura, at which an undersave was made to effect a compromise with the Republicans. No result was reached.

Madrid, Oct 9.—Nine hundred insurgents surrendered to-day to General Galdik. The General refused to pardon those who commended assassination.

Intelligence from Grenada says the volunteers there refused to disarm and have escaped to the open country. A body of volunteers at Sargassa fired on the troops stationed there and a sharp fight ensued. The disturbance was finally quelled but not until much blood had been shed.

The Republican insurrection in Spain continues.

PARIS, Oct. 9.—A formidable riot broke out among the miners employed by the Orleans and Paris Railway in Avignon on Thursday last. The rioters attempted to drown the Chief Engineer. During the night they fired a store-house and other buildings and the next day attacked the forges of the Company in great force; but were finally dispersed by the military, who fired upon them, killing ten and wounding many.

Spain is in a very unsettled condition. The Republicans are making strong opposition in various parts of the country. Madrid is tranquil, but the police have advised the inhabitants to arm themselves and their servants in order to defend their houses in case of riot.

The reported death of Baron Hausman is authoritatively denied.

LONDON, Oct. 10.—The funeral of Martin Fenian, who died at King's College Hospital, took place to-day and was attended by six thousand people. The parents and other relations of the deceased were present wearing green scarves.

A meeting attended by four thousand persons was held at Nottingham to-day, to advocate amnesty to Fenian prisoners. Inflammatory speeches were made. The meeting was orderly.

PARIS, Oct. 11.—Dispatches from the Department of Avignon were received up to a late hour last evening, and do not mention any outbreak among the miners, but say the strike continues. Yesterday a large meeting was forcibly dispersed. Resistance was offered and several of the rioters were wounded.

A large meeting of cotton manufacturers in the city of Mulperon on Saturday, considered the question of American cotton supply and other matters incident to the trade. The meeting denounced the commercial treaty recently concluded, and urged the substitution of a customs tariff.

LONDON, Oct. 12.—The Times, commenting on the Fenian question, says the Crown is invited to pardon rebels who do not pretend to be penitent, not because the conspiracy is crushed, but because it is still formidable enough to rally sympathisers. No one doubts the rights of Government to suppress outrages against law and order. Had the forbearance of the Crown been invoked in a becoming tone with the recognition of the right to protect loyal citizens, amnesty might be practicable. At present we see no reason to presume it would be received in that spirit by demanders. If Ireland is still Fenian at heart or hostile to the union, we believe a majority of the Irish would rejoice at the suppression of Fenianism.

At the Newmarket races to-day the Cazewich and Clearwell stakes were won by Atlantic.

PARIS, Oct. 12.—Disorders were attempted at Madrid, but were promptly quelled without serious results.

New York Oct. 13.—Specials say a considerable force of Government troops prepared for attack on the position of the Republicans at Valencia this morning. The inhabitants of the district destroyed railroad for seven leagues so that the Government now receives news from that portion by sea only. During recent battles at Sargassa there were 250 killed and wounded.

PARIS, Oct. 13.—The Official Journal has the following news: Several public reunions have been announced to take place here, and disorder threatens the Government; however, it will enforce the law by authorising the suppression of all public meetings of a character calculated to disturb the peace.

LONDON, Oct. 13.—Lord Derby's condition is much worse to-day. He has been insensible for several hours.

Eastern States.

WILMINGTON, Oct. 11.—The case of the privateer Hornet was opened this morning by the counsel for the Republic of Cuba reading the commission of Commodore Higgins as an officer of the Cuban Navy, also, a protest against the exercise of jurisdiction by Civil Courts for this ship, she being a public ship of war of a recognised nation. He declared, it is untrue that she offended against the neutrality laws of the United States. The Commission has continued the case till Saturday, to allow the Government time to procure witnesses.

PHILADELPHIA, Oct. 12.—The election is progressing satisfactorily, the registration law being enforced.

CINCINNATI, Oct. 12.—The election is quiet and there is much prospect of a heavy vote. There is much scorching, and many vote half tickets. The Temperance ticket gets nothing.

LOUISVILLE, Oct. 12.—A resolution was introduced in the Commercial Convention declaring that in the opinion of the Convention the importation of Chinamen in unlimited numbers is contrary to enlightened public policy, and that it merits the censure of all who have regard for the welfare of our common country.

COLUMBUS, Oct. 13.—The result of the election is doubtful; the House of Representatives

tives is probably Democratic and the Senate Republican. The Democrats claim that Pendleton is elected and are firing cannon and having torchlight processions.

PHILADELPHIA, Oct. 13.—Forney's Press says the Republican majority in the State may reach 10,000. The Republicans have elected both branches of the Legislature. The Republicans have carried the city by about 4500.

WASHINGTON, Oct. 13.—A general committee of 100 persons held a meeting to-night and adopted the draft of a charter to be presented to Congress for an act incorporating the International Exposition Association, with a capital of one million dollars.

COLUMBUS, Oct. 13.—The Ohio returns and opinions of both parties indicate that Hayes is elected by about 3000; the House is Democratic, the Senate Republican. The Democrats claim that the vote is so close it will require the official returns to decide the election for Governor.

CINCINNATI, Oct. 13.—The full returns of Hamilton County show Pendleton's majority to be 676.

PHILADELPHIA, Oct. 13.—The State Senate stands republican 19, democratic 15, House-republicans 63.

WASHINGTON, Oct. 13.—The President has appointed Major General William M. Belknap, of Keokuk, Iowa, Secretary of War.

TROY, Oct. 13.—Another great rainstorm and freshet has occurred here.

California.

SAN FRANCISCO, Oct. 12.—Hutchinson Kohl & Co. of this city were yesterday notified by telegraph from Washington to dispatch a vessel immediately for Alaska with the U. S. mails, under a contract which calls for a monthly mail service between San Francisco and various ports in the territory. The contract dates from 1st October. The steamer Constantine will make the first trip under the new arrangement, sailing hence on Monday, October 18th at 1 p.m. The steamer will call at Port Townsend, San Juan Island and Fort Tongas.

Arrived, Oct. 11.—British ship, Montgomery, from Liverpool; bark Gold Hunter, from Port Medison; bark Gold Hunter, from Port Medison; October 12th.—Steamer Active from Victoria.

PORTLAND, Oct. 13.—Steamer George S. Wright sails for Puget Sound to-morrow evening.

SAN FRANCISCO, Oct. 13.—The Norwegian bark Gen. Birsch, which arrived at this port from Hamburg, last night, reports having picked up at the Straits of le Maire, July 19th, the boats containing 34 persons, being officers and crew of the California bound ship Dreadnought, wrecked July 4th. They were landed at Pome, Chili, August 17th. Sailed, Oct. 12.—Steamer Oriflamme, Portland.

Arrived, Oct. 12.—Steamer Moses Taylor, Portland; ship Elizabeth Kimball, Tekeleit.

SAANICH AGRICULTURAL ASSOCIATION PLOUGHING MATCH!

THE COMMITTEE HAVE DECIDED that the competition shall take place on THURSDAY, 24 NOVEMBER, at Mr Wm Thompson's, South Saanich Ploughing to commence at 9 o'clock, a.m. precisely.

The following Prizes are established, having reference to the sum at present disposable:

1st Class—40lbs.—Five Prizes, respectively of 5, 7, 6, 5, and 4 dollars each.

2nd Class—Youths under 18 years of age—Three Prizes respectively of 4, 3½ and 2½ dollars each.

Any additional money received as subscriptions or donations previous to the distribution of the prizes will be awarded, either in addition to the above amounts in the same relative proportion, or additional prizes will be made, at the discretion of the Committee.

The conditions of the match, omitting minor details, will be as follows: The quantity of land to be ploughed by each competitor will be one-half acre, upon grass sod; the standard for comparison in judging a furrow of 4 inches depth and 12 inches breadth to be numbered and awarded by lot; each competitor to lay out his own land; to be ploughed with one span of horses or single plough, or any other implement, and to be ploughed to be completed within six hours from the time of commencement.

Open to all competitors free of entrance fee or other charge. Notices of intention to compete to be handed to Mr William Thompson, South Saanich, if possible, not later than Friday, the 29th of October.

Further subscriptions or donations in aid of the fund will be thankfully received, and will be added to the above for the occasion, North Saanich, or at the CONVENT OFFICE.

ALEX. C. ANDERSON, President. October 13th, 1860.

BEST HOTEL IN PORTLAND. A call from the Travelling Public will satisfy them that the statements above made are true.

SMITH & COOK, Proprietors. Hot and Cold Baths attached to the House for the benefit of Guests.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men, it has risen higher and higher in its estimation, until it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, inasmuch as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption, Chronic Incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it. Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. So generally are its virtues known that we need not publish the certificates of those who, more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or metallic substance, whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond number, and are well known without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected by this medicine, and when other remedies had wholly failed. Unaccompanied persons, either resident in, or travelling through malarious localities, are protected by taking the Ayer's Ague Cure daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other means had failed. Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, \$1.00 PER BOTTLE.

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly remarkable. It is a powerful purifier of the blood, and cures all the diseases which arise from impure blood, such as Scrofulous disease, where the system is generally impoverished, and where the blood is corrupted and cured by it.

Scrofulous disease, which was aggravated by the scrofulous condition of the blood, and which was cured by it, has been cured by it, and the patient restored to health.

Scrofulous disease is one of the most destructive enemies of our race. Often, this unseen and silent enemy of the human system, insidiously attacks the system, and invites the attack of embolism or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vital organs. In the latter instances may be suddenly deposited in the lungs or heart, or among the organs of the liver, or it shows its presence by eruptions on the skin, or foul ulcers on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms are apparent. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: It is a powerful purifier of the blood, and cures all the diseases which arise from impure blood, such as Scrofulous disease, where the system is generally impoverished, and where the blood is corrupted and cured by it.
