#### RANFIELD CREEK LIFEBOAT ARRIVES

N. J., for West Coast Life-

(From Sunday's Daily.) Banfield creek lifeboat built by ectric Launch works of Bayonne. Jersey, U.S.A., at a cost of \$10,-delivered to the marine depart-at New Jersey November 11, eached port at noon yesterday oxswain Gillen at the tiller. for the marine department, d her from the wharf. R. J. of Hinton & Co., an expert Sidney by the marine depart-o instruct S. Saunders, the en-how to work the 40 horse-Holmes engine fitted to the C. B. Jameson and several made the trip from Sidney, which the lifeboat showed to oat is whalebacked fore and aft bulkheads, the Holmes engine

placed in the space aft, which, a watertight door, is made tight at if the boat turns over no can reach the engine, which, ver, in such a circumstance d stop automatically. The craft built of mahogany throughout, hall the patented fittings which in-tigation of the types of lifeboats d in the nations which have carried struction to the most modern construction to the most modern dels has shown to be requisite. The lding of the vessel was supervised Capt. C. H. McLellan, who was merly in charge of the United tes revenue cutter Manning, when igineer of the marine department, by o quote from a description which boat is 36 feet over all, 3 feet 14 h beam, built almost entirely of hogany and fastened with gun two layers with canvas between and i

self-bailing and self-righting with the crew lashed to the thwarts. It is divided into eight water-tight compartments below the deck, and each compartment is filled with copper aircases, eighty-two in all. It is lug rigged with foresail, mainsail and jib, with below the deck and each compartment is filled with copper aircases, eighty-two in all. It is lug rigged with foresail, mainsail and jib, with below the compartment of the with hollow masts, guametal centre-board, and is also fitted for ten oars. A 35-40 horse-power Holmes Auto-Marine, six-cylinder, four-cycle gasome motor is installed in the after and compartment which gives a speed f 9% miles per hour with 659 revoluns. The controls are so arranged the outside of the compartment on the outside of the compartment bulkhead in recessed boxes, that the motor can be readily managed from the outside when the compartment is closed water-tight. A fuel tank of 125 gallons capacity is located in the lower hold just forward of the centre-board trunk and an auxiliary fuel tank of 25 gallons capacity is placed under the turtle back of the forward end compartment, into which the fuel is purposed from the main tank as required.

pumped from the main tank as required. This supply is enough for about forty acurs, running. The fuel pipe to the motor leads from the auxiliary tank, outside along the garboard. A glass in the forward bulkhead enables the height of the fuel to be seen in the sight tube attached to the auxiliary tank. It is fitted with pump spark ignition, the current being supplied by the Apple Ignition apparatus, which also furnishes current for a stationary and drop light in the motor room, and a light by the sight tube of the auxiliary tank forward. The whistle is op-

er after her arrival yesterday.
The lifeboat will probably arly in the week for Banfield to start service at the first life saving station established by the Do-minion of Canada on the Pacific ocean. The surf boat now at Ban-field will be transferred to Clayoquot. There are also surf boats at Cloose and Ucluelet, but owing to the failure f the marine department to

made up as follows: Capt. W. Gil-n, coxswain in charge; Sidney coxswain in charge; eir term of service in the Canadian

Will Further Consider Request. (From Sunday's Daily.)
The application of the Oak Bay

the roads ridges committee of the Oak Bay cil yesterday morning, and laid after considerable discussion to next meeting, pending information from the solicitors concerning ertain technical points which will be nvolved. While the council realized he value of having a strong organization such as the kind proposed at Oak Bay, the privilege was deemed too valuable to be awarded without he fullest consideration. Some of the ouncil are inclined to the belief that municipal boathouse would be a ofitable investment, but it is hardly ely that the council will go into boat renting business. Nothing will done in the matter until the report

ached to the staff of any hospital in he city met in the Temple building and ormed an association. The object of the association is to build by subscripon, a new hospital which will be an ntirely separate affair from any mediheir own patients in to the hospital

### ADJUTANT WAKEFIELD ON IMMIGRATION

Power Craft Built at Bayonne, Tells What the Army is Doing The South Saanich Municipal For the Province of Brit-

(From Sunday's Daily.)

"Not a solitary one of the unem was brought out by the Salvation army. None but emigrants coming out as farm or domestic laborers wil be brought out by the Salvation army These will be conveyed directly to billets arranged for them so that there can be no possibility of congestion in the cities, either of British Columbi or of Eastern Canada from this source."
The speaker was Adjutant Wake-field, of the Salvation army department of immigration in charge of the work in British Columbia. The ad-jutant attended the army meeting last evening, and will be present at the various meetings today, and tomorro evening he will speak at the barracks He will also give in detail the army's plans for supplying domestic labor to Victorians and he will point out

first vessel chartered by the army will sail from Liverpool about Feb. 20, and such immigrants as are con-signed to this province will arrive here about the 10th of May. will be brought right through from Halifax upon a special train in two sections and will be met by Mr. Wakefield en route. He will arrange the billets of all and they will be distributed to their different stations along the line.

In all, from 200 to 250 girls for do-

mestic service will arrive in this ship load. Some 50 families and some 150 single men for farm service are also expected. Positions for all will be found in advance.... No misrepresentations are

by the army agents. They ask the farmer frankly whether he wants ex-perienced or inexperienced labor and what he is prepared to pay. They grade the classes of labor submitting itself and endeavor to fit billets to the capabilities of the men. No aggravation of the present prob-lems of British Columbia will be met with from the army. On the contrary two of the questions which have been a source of trouble will be ameliorated.

Toronto, Dec. 28.-The Toronto he telkeepers met and decided to increase the rates about fifty cents a day all round at those hotels having accom-

## DATE IS SET FOR VICTORIA FALL FAIR

It Will Be Open Sept. 26 and Close Three Days

(From Sunday's Daily.)

The annual Provincial exhibition date was arranged at a meeting of the secretaries of the various agricultural societies of British Columbia held in New Westminster on Friday after noon. Representatives from eight prising Langley, Mission, Agassiz Richmond, Coquitlam, Chilliwack, New Westminster and Victoria. J. E. Smart, who represented this city, re-turned home last evening from Van-couver on the Princess Victoria.

Dates were considered for the en-tire circuit of fall exhibitions, but the list was not completed. The two big fairs, Victoria and New Westminster, will follow each other as this year, New Westminster coming the week after the local show, the dates being from Sept. 29 to Oct. 3 There will be no exhibition at Vapcouver next year, the time being considered too short to prepare the grounds and get

as follows: Ward One, Christopher J. McRae; Ward Two, William Graham; Ward Three, A. Strachan; Ward Four, P. D. Goepel; Ward Five, Walter F. Loveland; Ward Six, Henry Tanner.

J. Saul addressed the council in find strict exhibits, one confidence with the route of the council in find strict exhibits, one confidence will be two classes. J. Saul addressed the council in person on the need of something being done at once to prevent the flow of water which every year at this date has occasioned considerable loss to him on his property on the extension of Quadra street. Mr. Saul declared that he had been put to great expense in endeavoring to drain the surface water off his land, and he asked J. Saul addressed the council in

Mr. Smart states that all the delegates of the societies spoke in highly complimentary terms of the New Westminster fair and the Provincial exhibition in this city, commending

name of God I protest." Gray's unexpected address against the prevailing social conditions, made to a fashionable and wealthy congregation, created a great stir. The service was stopped, ushers seized Gray in the pulpit, forcibly removed him and ejected him from the cathedral. This occurrence sheds a sidelight upon the real conditions in the great cities in England, where the poverty of the

OANFA TAKES LARGE CARGO FOR LIVERPOOL

Sailed From Outer Wharf Yesterday Morning With Freight Worth Nearly \$1,000,000

(From Sunday's Daily.) Loaded deep with a heavy and valuable cargo, the big Blue Funnel line steamer Oanfa, sailed from the outer wharf yesterday morning after embarking a number of steerage passengers. The cargo was valued at nearly a million dollars. Included were salted herrings worth \$20,000. There was also 20,000 cases of salmon from British Columbia ports valued at \$150,000.

Oanfa has stowed in her immense holds. This commodity is worth nearly \$500,000. It is consigned to various Japanese ports, most of it to be discharged at Kobe, where it will be used in the adjacent spinning mills. Osaka, the Manchester of Japan, adjoins Kobe and much of this cotton will be delivered at these factories.

In addition to cotton the Oanfa took nearly \$100,000 worth of flour, machinery, aides, boots and shoes, steel scrap, fish, oil, tallow, lumber and many other staple articles of export. When the Oanfa departed she was filled

to her capacity with over 11,000 tons, Of the cargo Kobe takes the most valuable portion, the share of this Japanese port amounting to \$186,281 or Yokohama freight valued at \$97, 787 is consigned. Hongkong's saare nts to \$66,674, Moti \$40,589, Shang-

San Francisco's Corruption New York, Dec. 28.—After a con-ference with President Roosevelt, durng which it is said the coming prosdiscussed, Special Attorney Francis J. Heney, of the department of justice arrived in New York. Heney was a guest at the City club and in an im-promptu address said that the causes of corruption in San Francisco and other western cities were the same which incited crusades in eastern citles. "Special privileges are at the bottom of the trouble," he said. "The condition which exists in all cities is that vice and public service corpora ions join hands. The remedy is solution to appoint or elect business men to places formerly held by politicians, because the business man al-ready is brought up in advance by his interests.'

Higher Wages Asked Scranton, Pa., Dec. 28.-Following he lead of the switch men, the freight and coal conductors, engineers and firemen of the Delaware, Lackawanna & Western Railroad company, are asking for an increase in wages. The conductors ask for an advance of sixty cents a day, while the engineers and firemen demand an increase of forty cents per day. A committee rep-Gray, the famous advocate and land resenting the conductors has already law reformer, who until recently was waited upon the officials of the company, and an answer is expected be-
