The DURANT and STAR Cars are built by W. C. DURANT, the man who made the Buick and the Cadillac and the Oldsmobile and the Oakland and the Chevrolet famous. Would this man be experimenting now after twenty years in the Automobile Business?

OVER 30 MILES PER GALLON

A STAR Car driven by just an average driver, made 30.8 miles per gallon on May 24th on a round trip from Dalhousie to Bathurst and return. It was necessary to change gears only once. That was getting out of Dalhousie.

The sturdiness and strength of the DURANT and STAR cars are due to the Tubular Back Bone the invention of W. C. DURANT. This Tubular Backbone (patent applied for) acts as a truss which makes the frame rigid, protecting chassis parts and the body from shocks of the road and reducing body squeaks to a minimum and preventing warping.

In two colors—Radio Blue and Maroon. Those on display were sold almost immediately, but there are more coming. This is the Standard Durant 4 equipped with about \$200.00 worth of extras and priced at only \$95.00 more than the Standard.
