THE TORONTO WORLD

THURSDAY MORNING, JULY 26, 1888.

THE OBLIGATIONS OF RAILWAY AND TELE GRAPH COMPANIES Last summer there was an extensiv

strike of freight-handlers in New York, by

which the shipment of goods and merchan dise westwards was delayed for week together, causing an enormous aggregate of south. The strike began early in June. we believe, and it is a circumstance to be noted that some short time before that the railway companies, formerly at war with each other on the question of west-bound freight from the seaboard, had adjusted no one will gainsay. To attempt the feat their differences, and had agreed upon an advanced scale of freight charges, to take a wild bid for undying fame. Had it succeeded the captain would have effect on the first of July. While merchants were suffering severely because of the doubtless have lost their lives. It failed, delay, the companies had the satisfaction of knowing that all freight left over until strated to an absolute certainty that it is after thaf day would pay the higher rates. It cannot certainly be said that this was a motive for their action, for motives are very In the eyes of the guides and moneydifficult to determine; but that they prof- grabbers of the district additional interest ited by a delay which caused immense has been lent to the locality by the tales loss to merchants is sure enough. Several they will now be able to tell of the suits to test the liability of the railway famous swimmer and the way in which, to companies for losses thus incurred were satisfy his personal pride merely, he dared up its total disbu'sements to \$463,422. Of brought, and the supreme court decided what no man had been reckless enough to the English companies the City of London that the railways were liable. "We can- dare before, or since. The exact spot where not bring our minds to entertain a doubt," the rash captain made his terrible plunge said the court, "that a railroad corporation will be pointed out with all the gusto that North British and Mercantile \$65,000, the is compellable by mandamus to exercise its | characterizes the unctuous guide or hackduties as a carrier of freight and passengers, man, the manner in which in full view of and that the power so to compel it rests the appalled and breathless crowds of spec-equally firmly on the ground that that tators he sturdily breasted the raging, boilduty is a public trust, which, having been ingrapids will be glowingly depicted, and conferred by the state and accepted by the then will be told how he was swept onward corporation, may be enforced for the public and lost forever in the deadly embrace of can only very slightly affect the final rebenefit." As to the strike, the court held the whirlpool. It will make an exciting sult. The United States is the main field that so long as the workmen committed tale to pour into the eager ears of the awe- of conflict, what is going on here is merely "no unlawful act, no violence, no riot and stricken visitor, and that is all. fuse or neglect to perform their public duties upon a controversy with their employes over the cost or expense of doing but one answer. The excuse has in law no | tempt. Soulless corporations as the railway validity. The duties imposed must be discharged, at whatever cost."

strike in New York, one of the Western Union counsel said: "Our position is not | placing obstac'es in the way of the venture like that of the railroad companies when the he aided and aberted it by affording such freight handlers struck. We are expressly allowed by statute to establish at any time sr ch reasonable rules as are necessary to enable us to handle the business. Any court

would hold that in this emergency it is reasonable to say that, we can only take messages subject to delay." To which the Herald thus replies:

"The legal position of the telegraph companies in this strike is precisely like that of the railroad companies last summer. The reilroad companies were expressly empowed above the time and the railroad companies were expressly empowed above the time and the railroad companies were expressly empowed an that this statute gave them power to deal with their traffic as they pleased in the case side this objetion, and said that the

condition which the railroad companies in-corporated in their bills of lading—that

work at a less price. The companies fixed a price for the same labor and refused to pay more. In doing this neither did an act violative of any law or subjecting either to any penalty. The companies had a lawful right to take their ground in respect of the price to be paid, and adhere to it if they chose: but if the consequence of their doing so were an inability to exercise their corporate franchise to the great injury of the public they cannot be heard to assert that such consequences must be shouldered and borne by an innocent public who neither directly per indirectly participated in their

"This is as true of the telegraph companies in the present strike as it was of the rail-road companies in the strike of last

What the American press-the New York press, especially—says on the great issue now pending is important, because it ndicates not only the drift of public opinon at present, but also the course of action that will probably be taken in the future, in behalf of the people and against the monopolists. The Herald says further: "A telegraph or railroad company is not like an ironmaster or cigarmaker. These have no duties to the public. They may,

have no duties to the public. They may, if they choose, cease to make iron or cigars rather than come to terms with their dissatisfied workmen. But telegraph and railroad companies have obtained certain privileges from the public on certain conditions, one of which is, as the courts have decided, that they shall serve the public effectively and constantly. We repeat what we said a few days ago: The corporation came into existence and exists only by leave of the state. It derived from the people its valuable franchises and privileges—the right to plant its poles and construct its lines on public and private property, to un its wires across navigable waters and through the streets of cities. It was chartered to serve the people and to do a public business. There are imposed upon a great telegraph company obligations to the public which cannot be disregarded and duties which cannot be neglected. It is bound to give the people glected. It is bound to give the people never failing facilities for communication. It cannot close its offices and stop its in-struments for any cause which human foresight and diligence can overcome. A strike of its employes is no excuse in law for any unreasonable cessation of its service. It may refuse the demands of the strikers, but it must procure other operators to take their place without unreasonable delay. It is not only bound to fulfil its paramount obligations and discharge its duties to the public by keeping up its service, but it can

public by keeping up its service, but it can be compelled to do so by the courts." After the Western Union has got through an aggrieved public. And if some of the who have neglected them. wealthy men who are bears on Western Union and opposed to the Jay Gould clique choose to make the case of the public their own, as the law certainly allows them to do, they may make it very hot for that corporation before, long time has passed. Which contingency may yet-who knows?loss to business men-east, west, north and prove an important factor in deciding the present contest.

Capt. Webb made his fatal plunge into the irresistible swirling waters of the Niagara | whisky, as some men do with theirs. and b wond the fact that it has demonimpossible for a human being to swim the dreadful whirlpool little has been gained no unlawful interference with other em. For that what might have been New York, is, of course, the battle centre, ployes" they had a right to strike. "Can a useful life has been sacrirailroad corporations," it then asked, "re- ficed, a wife has been made a widow, and ever party wins there wins the fight all children have been made orphans, with the connivance of at least one interested speculator, who when approached had the them? We think this question admits of power to prevent the senselers mad atcompanies are they at least declined to make capital out of the sure and certain death of a brave foolhardy man, but Presi. the low walls surrounding the Horticulin the course of discussion of the present | dent Neilson of Prospect park could not withstand the temptation, and instead of

facilities as he could.

trance into America cannot be prevented ! in this way, he thinks, and he cites the outbreak of cholers on this continent in

the wind and carried by breezes from one

Atlantic with the express purpose of shooting him, as he was an informer. McDer-mett is the individual denounced by Mich-ael Davitt for giving information whereby O'Herlihy, Featherston, Dalton, Deasy, and others were arrested in Cork, The man who is charged with the shooting is James Gaynor, aged 25, a recently arrived Irish emigrant. McDermott has disappeared, and some trouble will therefore be experienced in bringing the charge home. An interesting feature of the effair is that directly McDermott left the saloon where the firing took place a scrap of paper was found

with the following written on it : with the following written on it:

This is the body of James McDermott, the English spy, who left New York for Ireland last January in the pay of the British government, and wormed himself into the confidence of Irish nationalists in ireland, England and Scotland and betrayed them for £10,000, for which he now dies at the hands of the Irish Avenger, who followed him 3,000 miles to punish him as a warning to others.

(Signed), CAPTAIN DAYLIGHT.

At the lord mayor's banquet to the riflemen in London on Tuesday night the cable tersely says, Col. Otter remarked that he hoped the Canadians would win some future contest. So say all of us, although it wasn't a very original or weighty remark to cable about.

Epidemics are raging in different parts of the world. Whether Canada will maintain a clean bill of health all through the summer remains to be seen, but at any rate it will be as well to observe the following simple rules : Keep the body in as robust health as possible by all natural means; bathe often; eat well, sleep well and exercise well; avoid nostrums, liquor and draughts; shield the head from the direct rays of the sun as much as possible and the bowels from sudden cold, and keep a level head and a clear conscience. Then if the cholers or other disease comes he who has taken the above precautions will at least know that if he is taken down he will be with the strikers, it has still to reckon with better able to resist the attack than those

Mr. Labouchere, in London Truth, obiscts to the enfranchisement of women on the singular ground that it would throw too much power in the hands of the clergy. Political principles, he fears, would take their hue from the pulpits, which more than ever would resemble electioneering platforms. Labby is a trifle too anxious. There That a brave man sacrificed his life when would mix a little religion with their politice, but it would be better than mixing

> nadian) doing business in the United States, The figures are for the half-year ending June 30, 1883. The business was not very satisfactory to a great many of them. Of the two Canadian companies the British America of Toronto received as fire premiums \$281,079, and paid out for management and losses \$322 886 ; the Western of Toronto received \$401,901 and paid out

THOSE SPIKES.

To the Editor of The World. SIR: In your paper of to-day a Sherbourne Street Mother writes an appropriate letter respecting the "spikes" placed upon tural gardens fountain. The sooner the insane man who breeched the idea is placed behind the spiked windows of the Mailding controlled by Dr. Clark in the

of existence.

In the oldest and proadest cities of the world, London and Paris, I do not remember

A forcible question has been already put by the public prints. How is all the gate

money checked? Has there ever been a detailed statemen; of the sums received at detailed statement of the sums received as the monster gatherings which occur there weekly? Why should not the people have a satement in detail, properly created, of Doctor, C. M. Summerlin of Sun Hill, Ga. "Her these sums, and what becomes of shear fatter the contained mucus, pus, and was sometimes bloody. Physician's prescriptions—my owner included—and domestic remedies only palliated ber pains. Kidney-Wort, however, has entirely cured as the monster gatherings which occur there is the monster gathering which occur there is the monster gathering which occur there is the monster gathering which is the monster gathering

be a comparatively easy matter to put a good pavement and sidewalk on that short street as a local improvement.

Montreal is somewhat excited over the fact that James McDermott, of Brooklyn, N. Y., an alleged Irish spy, who was recently in that city, has been shot in a barroom in New York by a man who stated that he had followed McDermott cross the Atlantic with the express purpose of shoot.

Rossin House.

The Rossin is the largest hotel in Canada, only two blocks from Union station, corner King and York streets, finest situation in Toronto. Its thoroughly first-class appointments, large corridors, lofty ceilings, spacious, clean and well ventilated rooms. (the whole house having been painted, frescoed and decorated this spring), detached and ensuite, polite and attentive employees in every apartment, together with unexcelled culsine, make it specially attractive to the travelling public. Elevator running day and night. Hot and cold baths on each floor. Electric bells in rooms. Fire escape in each bed-room. Prices graduated.

Himalaya (the abode of snow from the Sanscrit "hima," snow, and "alays," abode) is the most elevated and stupendous system on the globe. The tea plant can be cultivated along the entire southern face of the Himalaya to an elevation of 5000 feet, but the best is produced at from 2000 to 3000 feet above the sea, and the best only is sold by the Li-Quor Tea company at 39 cents per lb.

Perbaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for catarrh. Out of two thousand patients treated during the past sx months fully nuivity per cent have been cured of this stubborn maindy. This is none the less start ling when litis, remembered that not five per cent of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this scoomplished, he claims the externination—this scoomplished, he claims the extern practically cured and she permanency is unquestioned, as cures effected by hin two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 305 and 307 King street west, Togonto, Canada, and enclose stamp for his treatise on catarrh.

If so, don't delay too long. We have cured hundreds of pitients suffering from consumption, bronchitis, laryngitis, asthma, catarrh and catarrhal deafness, who could not have been helped had they delayed one month longer. And we have refused treatment to over 100 esses during the last year who delayed one month too long. By the use of cold inhalations conveyed to the diseased parts by the spirometers, the wonde full invention of br. M. Souvielle, of Paris, ex-aide surgeon of the French army, and other proper local and constitutional treatment, we are curing thousands of cases of the above-named diseases every year. Write, enclosing stamp for list of questions and copy of International News, published monthly, which will give you full information and reliable references. Address International Throat & Lung Institute, 173 Church street, Toronto; 18 Philip's square, Montreal, P. Q.; Si Lafayette avenue, Detroit, Mich.; or 106 Alexander street, Winnipeg, Man. Do You Expect a Cure ?

SAID HE. THIS IS HORRIBLE, BILIOUS Spring Weathe .. "

Said She, "I know it, almost every one, no matter how well ordinarily, needs a thorough course of physic in the spring to clearse the system of the accumulated humors caused by the indoor life of the winter months; no other remedy is so good as Kidhey-Worf for this purpose. It is a mild but efficient cathartic, and acting at the same time on the Liver, Bow. is and Kidneys it relieves all the corg is and enables them to perform their duties perfectly; Headaches, Billousness, Jaundice and all such spring diseases yield at once to its curative power."

SAID HE, AFTER ARGUING AWHILE, KIDNEY - WORT! YES, I WILL GET IT AT ONCE."

have a deficit of over \$30,000, the Fire Insurance Association of London \$40,000, the Lyndon and Lancashire \$60,000, the North British and Mercantile \$65,000, the Norwich Union \$10,000, the Queer, Liverpool, \$65,000, Standar I Fire, London, \$110,000.

A point to be remembered is that the course of the telegraphers' strike in Canada can only very slightly affect the final result. The United States is the main field of conflict, what is going on here is merely skirmishing in comparison. The city of some state of the state

500 SHARES OF \$100 EACH UNALLOTTED STOCK

OF TORONTO, LIMITED, AT PAR.

This is one of Toronto's most important manufactories, giving employment to a large number of men and attracting to the City a large trade that formerly went elsewhere.

Capital (Authorized) 250,000 Issued to los off he rolls. 

Now offered to the public - 50,000 at par The New Works are fireproof and cover an acre of ground. The men and machintherein are all in sight of the manager.

A Railway siding runs along the front of the works to facilitate the receiving, dling and shipping of goods. The estimated saving in labor alone will be over \$5000 a year.

The works being fireproof may afford a saving in insurance of \$4000 a year.

Rent, water rates, city texes, gas, etc., a saving of \$3600 a year. Fuel delivered ex-cars instead of as heretofore ex-yard will save near \$2500 a year. The Building being specially constructed for the business, every evil attaching to other premises in which leakage, waste and tinkering expenses were unavoidable, will effect a very large saving that cannot be fully estimated in figures.

Every convenience exists for doing more and better work, as well as greater variety, than heretofore, at a less cost of production and with more satisfaction to all concerned.

The Company have on hand extensive orders from the following Railways : The Canadian Pacific Ry. The Grand Trunk Ry. The Canada Southern Ry. The Great Western Ry. The Ontario and Quebec Ry. The Michigan Central Ry,

The Kingston & Pembroke Ry. The Manitoba & Northwestern Ry. And Other Companies. The permaneut, fixed and steadily increasing portion of the business is with Hardware and other manufacturers all over the Dominion in Carriage, Stove, Tire, Fancy and other Bolts, now aggregating 30,000,000 a year. The trade with Railways at the present is about one car load each of Track Bolts and Spikes per day. This extent of trade slackens some portions of the year, but with the opening of the Northwest it will largely increase, and the track repairs with renewals will alone constitute a large trade.

The Works are a necessity in the country almost as much so now, as the Telegraph or Telephone Companies, the Railways being in absolute need of the Works, without which Railways would not be built as fast as they are now being rushed through the

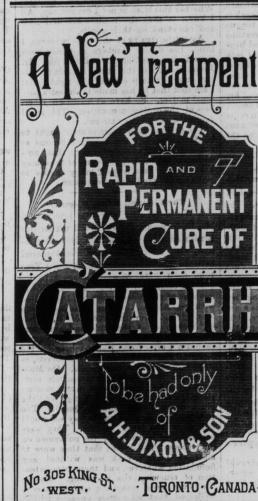

The Agricultural Implement Works throughout the Dominion depend for their supplies upon this Factory, other Works also look to this Factory for their supplies, making its products as staple as cottons; and each kind of Bolts are sold in every town in all the Provinces of the Dominion on the name alone without call for samples which are now

The Company own a large lot of land bought at a low price within the proposed City Limits, portions of which have already been sold at Four Hundred per cent profit, and sites as well are allotted for other Factories.

The annual meeting was held on the 13th iostant for the first six months' business of the Company, at which a Dividend was declared at the rate of ten per cent per annum for the half year ending on the 1st of May last.
