THIRTEENTH YEAR.

WIFE MURDER AT BRAMPTON.

JAMES LUNDY DELIBERATELY SHOTS DOWN HIS WIFE.

But is Prevented From Killing Himself—Twenty Years of Bickering Ends in an Awful Tragedy—Jealousy, Whisky and a Pistol Shot as the Final Culmination.

BRAMPTON, Ont., April 22.—Last January James Lundy and his family came to Brampton from their farm on the first line West Chicago road, and they made their home in a three-story brick tenement known here as the "Brampton House," in Main-street. Shortly after their arrival people began to talk of the unhappy relationship existing between Lundy and his wife, frequently. Money matters formed a large part of the trouble and to escape having his property seized for debt it is said Lundy decided his wife and her brother were trying to encroach him out of it and turn him adrift.

The Green-Isoled Monster Also. Jealousy was another factor in their trouble. It is reported he drank to excess. The celebration was reached at 8:15 to night. In the handsomely furnished parlor were gathered Mrs. Lundy, her daughter, a young woman, and two sons, one of whom is a man and the other a small boy.

Besides these there were James McKinnon, Mrs. Lundy's brother, Sellwood and his wife and William Tenny and wife.

All were spending a pleasant evening, piano going and the usual good time. The story told by one of the guests was that Lundy had been in the room behind the parlor, hidden by curtains, and began muttering in undertones, and Mrs. Lundy went over to him and said: "Please don't come in now, and the couple withdrew to the kitchen, further back, Lundy all the while growling in an undertone.

A Pistol Shot Rang Out. They had not got beyond the hearing of the company when a pistol shot rang out, followed by a woman's scream, and your informant rushed into the hall leading to the kitchen and another shot followed. He dashed into the kitchen and was nearly blinded by the flash of a third report.

Throwing himself on Lundy the witness held him fast. Help came quickly and the revolver was secured. Lying on the floor was the dead body of Mrs. Lundy. One wall entered the left temple and another just below the chin on the same side, penetrating the jugular vein and death must have been almost instantaneous. That one scream was the only utterance of the victim.

The dead body lay parallel with the wall of the kitchen, her feet slightly apart, touching the floor with the right hand, reaching straight—in a flash of blood.

The Murderer Arrested. Lundy was placed under arrest and taken to jail by Chief Constable. He was calm and perfectly sober. The murdered woman, whose maiden name was Mary Lundy, was a striking and stylish woman on the streets. She was about 49 years of age.

The only explanation given by Lundy was that he had stood it for 22 years and this thing had to come. He regretted that he had not been allowed to use the remaining two shots on himself.

The third bullet has been found in the wall of the kitchen. A touching scene, which drew a large number of people, was witnessed when the body was taken from the kitchen.

Coroner Mullin and Crown Attorney McFadden conducted the inquest, which opened at 11 p.m. and adjourned until 2 p.m. Saturday, when the inquest will be continued.

Lundy's family connection in Peel is very large and the utmost excitement exists over the affair.

Clories in His Head. It appears Lundy has not been living at home for several weeks, but had been staying at the Revere Hotel and about 10:30 the murderer entered the Royal Hotel and asked for some supper and he got it. It was noticed he was very pale. He then proceeded to the Revere and got a drink and afterwards proceeded to his home, entering the house noiselessly.

The only explanation given by Lundy was that he had stood it for 22 years and this thing had to come. He regretted that he had not been allowed to use the remaining two shots on himself.

JAEGER STOLE 1,700,000 MARKS.

The Money Used in Speculation by the Frankfurt Rothschilds' Cashier.

BERLIN, April 22.—It has been learned that the sum stolen by Jaeger, the defuncting chief cashier of the Rothschilds at Frankfurt, amounts to 1,700,000 marks. He had used the greater part of the proceeds of his robberies in speculating in the stock market and in other ways. These speculations turned out badly, and when he thought they would probably be discovered he fled. The opinion gains strength that he has committed suicide. Search is being made for him in every direction. It is being made to his lackluster ventures, he speculated in corn, and much of the stolen money was lost in this way.

Jaeger's friends have extended over a series of years. He falsified his accounts, and, as no regular examination of his books was ever made, he escaped detection. He also appropriated to his own use the money of two widows.

Jaeger mailed a letter to the house of Darmstadt acknowledging his guilt and saying he was about to commit suicide. The police have been unable to find any trace of him, living or dead. There is a strong suspicion that Jaeger had fled from Darmstadt in order to throw the authorities off the scent while he sought refuge in another direction. Rothschilds do not apparently believe Jaeger had any intention of killing himself. On the contrary, his confident air is still alive, that he has offered a reward of 1000 marks for his arrest.

DEATH CAME IN THEIR PLAY.

THE WEST END THE SCENE OF A TRAGIC CALAMITY.

Three Children of Well-Known Citizens Smothered by Tons of Sand—Efforts of Medical Men Unavailing—Two of the Victims Are Brothers—Grief of the Families Intense—Inquest Tomorrow at 11 o'clock.

One of the saddest accidents that has happened in this city for some years occurred yesterday afternoon about 3:30 o'clock. On the north side of Shannon-street there are several vacant lots, in one of which excavation had been made for the purpose of erecting a house. The unfortunate lady dug into the northeast bank of the cellar for the purpose of making a cave.

How it Happened. The two sons of Mr. Lucas, 300 College-street, Ernest and Alfred, aged respectively 11 and 9 years, started in their childish glee to build the playhouse in the bank, and were followed by their little brother, William H. Fritze, 49 Shannon-street.

The children were at the excavation when they reached the bottom, where they found a mass of sand completely covered the unfortunate lady.

The Airtight Discovery. The accident was first noticed at the time and it was some minutes afterwards that Mr. Fritze's brother had his attention called to the fact that the children's playhouse had disappeared. He immediately summoned the assistance of some plumbers who were engaged at work in his house and they were directed to dig down to the level of the cellar.

The children were found in a mass of sand, which had completely covered them. They were dead when they were discovered. The bodies were removed to the morgue and an inquest was held at 11 o'clock tomorrow.

MOST FAVORED NATION CLAUSES.

Lord Kauterford "Politely But Firmly" Declines to Enter into the Proposal for an Abrogation Thereof.

OTAWA, April 22.—A despatch from Lord Kauterford in reply to the address of both Houses of Parliament last session, regarding the abrogation of the most favored nation clauses in the treaties with the German Zollverein and Belgium, was laid on the table today.

The despatch very politely but very firmly declines to entertain the proposal. It is admitted that Canada has the right to equalize her foreign tariffs but not to discriminate in favor of the Mother Country, and it is pointed out that the most favored nation clause is embodied in many treaties between foreign countries and Great Britain and her colonies and its abrogation would seriously injure Canada.

It is also pointed out that recent treaties with Germany reduce duties on cereals, meats and other goods, and that Canada gets the benefit of this.

Notes of the House. In the House to-day Mr. Tupper's bill giving the Governor-General power to renew the modvivi for Atlantic fisheries from year to year passed through the House by a large majority.

Mr. Cestiga introduced his bill amending the Inland Revenue Act, which extends the act to the Northwest Territories on account of the adoption of the metric system. The act is also amended so that manufacturers of cigars are allowed to sell cigars in packages of three, six or ten.

The House has been in supply all evening on the Department of Agriculture estimates. A long discussion took place on immigration issues, and the Opposition gave over its previous attitude on the Government's account of the census.

It is not to be wondered at that thousands find their way to quinn's great city on the night of Thursday and Saturday. Those who attend the party are well received and strangers were astonished at the multitudinous number of people who were present. Choice of any tie in the store for fifty cents. Come early for the best.

Bandage of all description for men and women. In the Canadian Dominion business is not very active. At Toronto the volume is not large, with an advance in dyed cottons and limited demand for wheat to export.

The outlook is more favorable than usual at Montreal, owing to the opening of the navigation. Bank clearings at four Canadian cities aggregate \$15,810,000, a decrease of 22 per cent. contrasted with the week before.

There were 21 Canadian business failures reported to Bradstreet's this week, in the week last year the total was 60 and last week it was 23.

With the advent of electric cars and increased suburban service no place will benefit more than Parkdale. Everything is in readiness that way at present. A disinterested party, looking over that part of the city, remarked that in less than five years there would not be a vacant lot left in the city.
