BABY'S OWN TABLETS OF GREAT VALUE

Mrs. J. A. Lagace, Ste. Perpetue, Que.,
writes:—"Baby's Own Tablets have been
of great value to me and I would strongly
recommend them to other mothers."
Thousands of other mothers say the same
thing. They have become convinced
through actual use of the Tablets that
nothing can equal them in regulating the
bowels and stomach; driving out con-
stipation and indigestion; breaking up
colds and simple fevers; expelling worms
and curing colic. The Tablets are sold
by medicine dealers or by mail at 25 cents
a box from The Dr. Williams' Medicine
Co., Brockville, Ont.

Will Drive Ambulance in France

The Toledo Blade of a recent date
says:—"J. F. Spalding, member of the
new business department of the Rail-
Light, is going to drive an ambulance
on the French front.
The car he will drive was donated to
the French army by Henry L. Doherty,
& Co.
Spalding leaves for New York Friday.
It is expected he will leave for the
French battlefields on July 1st.
Spalding is 34 years old and started to
work for Light-Rail 14 years ago. He
was one of the thousands of Doherty &
Co's employees to contribute toward the
purchase of two ambulances, one of
which he is to drive. The machines will
be placed in service at once. One will
be named "Henry Doherty" and the
other "Frank W. Freusuff" in honor of
the firm's members of Henry L. Doherty
& Co.
Mr. Spalding is well known here being
a native of Warwick township, the son
of the late James Spalding.

A Peculiar Incident

Last Monday Howard Ripley, who was
going out in Camden to deliver a corn
cultivator, had a peculiar experience.
He had the cultivator tied on behind the
buggy, and when just over the bridge a
swarm of bees decided that the buggy
was a good place to alight on, and the
whole bunch dropped right in on
Howard. The horse was stung badly,
and Howard had all he could do to keep
him from getting away, and at the same
time the bees were all over him, but he
might have got off without much damage
being done, only that in trying to con-
trol the horse he leaned heavily against
the back of the buggy, and "believe me"
he says "I got it in the back in a dozen
places." In the mixup the cultivator

Traced to White Lead

A few weeks ago Bray Willey of the
Longwoods Road, Elfrid, lost two valu-
able cows and a third narrowly escaped
death from poisoning. Investigation as
to how the cows came by the poison re-
sulted a few days ago in the discovery
in a wire fence corner on the roadside
of a pall which had contained white lead.
Telephone lineman had left the pall there
when doing some painting. The cows
were pasturing on the roadside and
licked out what lead had been left in the
pall and for which they appeared to have
a strong liking.

A similar case of lead poisoning oc-
curred on the farm of R. C. Twiss last
week, when two of his cows died and
another is not expected to recover. In
this instance the cows consumed a
quantity of paint dregs that had been
thrown away and partly covered up when
Mr. Twiss was doing some painting at
his house a year ago. So ravenous were
the cows for the lead that they devoured
a quantity of wire screening that had been
used in straining the paint, large pieces
of it being found in the stomach of one of them.

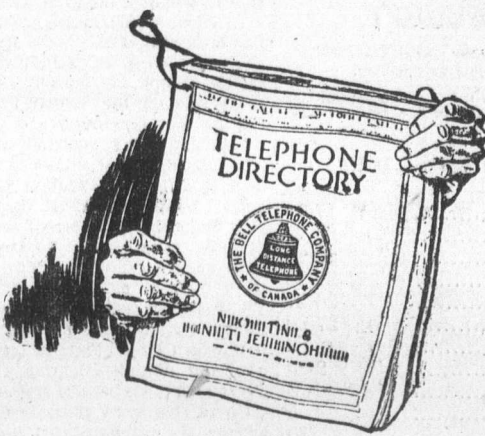

Major C. O. Fairbank who has been
stationed in Windsor as Major of the
21st H. D. Battalion for several weeks
past is being transferred to London for
military duty as a Staff Field Officer at
Carlisle's Heights, and will report there
for duty at once.

Within the bounds of the Synod of
Huron women have now the privilege
of sitting and voting as members of the
vestry of the Anglican church. The
long continued discussions on the ques-
tion terminated Thursday, when by a
very large majority the clergy and lay-
men decided that women should be
members of the vestry on the same terms
as men, that is on payment of the sum of
at least \$5 a year to the funds of the
church, but without the privilege of be-
ing eligible for the office of church-
warden.
