

## TORTURES OF SCIATICA

Relieved by Enriching And Purifying The Blood.

Sciatica is neuralgia of the sciatic nerve and the treatment should be the same as for other forms of neuralgia. Sciatica is stubborn in resisting treatment and the patient frequently suffers for years.

So many cases of sciatica have been helped by Dr. Williams' Pink Pills that every sufferer is justified in giving this treatment a thorough trial. Dr. Williams' Pink Pills do not simply relieve pain—they correct diseases caused by weak, watery blood. Thus they are beneficial in the treatment of even the most severe disorders. Their value in cases of this kind is shown by the experience of Miss Lizzie Freeman, Nogies Creek, Ont., who says: "I was confined to bed for seven weeks with sciatica. What I suffered is almost impossible to realize. The doctor did all he could for me, and yet I was not getting any better, and he told me the trouble was likely to leave me crippled. A neighbor who was in to see me, strongly advised me to try Dr. Williams' Pink Pills. I decided to do so, and after taking them for a while found they were helping me. I continued taking the pills until I had taken nine boxes, when I was able to walk as well as ever, and felt that I was fully restored. In view of what these pills have done for me I strongly recommend them to all sufferers."

If you are suffering from any condition due to poor, watery blood or weak nerves, begin taking Dr. Williams' Pink Pills now and note how your strength and health will improve. The new sales tax will not increase the price of Dr. Williams' Pink Pills, as the company pays the tax. You can still obtain the pills through any medicine dealer at 50 cents a box, or by mail, post paid, at this price, from The Dr. Williams' Medicine Co., Brockville, Ont.

## N. S. ONLY PROVINCE TO SHOW INCREASE

Ottawa.—A steady decrease in Canada's apple production during the last four years is noted in a statement issued by the Dominion Bureau of Statistics. Since 1920, when 5,828,632 barrels of apples were grown and

## WEDDING

Walker-Morse.

A very pretty but quiet wedding was solemnized at the home of Mr. and Mrs. J. P. Morse, Granville St. East, Bridgetown, N. S., on Saturday morning, January 26th, when their only daughter, Myrtle Vera, was united in the holy bonds of matrimony with Mr. Harry DeBlois Walker, also of Bridgetown.

The home was very prettily decorated for the occasion, the color scheme being yellow, white and green. The bride and groom were unattended and at 10 o'clock took their places under a most gracefully decorated arch, from which was suspended the traditional wedding bell. The bride, carrying a beautiful bridal shower bouquet of roses and carnations, was most becomingly gowned in pearl grey tulle and wore a black velvet picture hat.

The ceremony was performed by the Rev. A. H. Whitman, of Lawrencetown, while Miss Georgie Ball, of Margareville, rendered beautifully Mendelssohn's wedding march. With the exception of a few only the immediate family and school friends of the bride were present.

Following the ceremony, a very dainty breakfast was served, after which the happy couple left on the east bound train for a short wedding trip. The bride's going away costume was of navy blue polart twill, over which she wore a handsome brown velvet coat trimmed with beaver.

The bride was the recipient of many useful and costly gifts, prominent among which were several substantial checks.

A few days previous to the wedding, the bride was tendered a most unique and interesting shower at the home of Mr. and Mrs. E. C. Hall.

marketed at an average value of \$2.58 per barrel, production has decreased to 4,063,719 in 1923. No estimate can be made of the value of the 1923 crop at wholesale market prices because the marketing season is still current. Of last year's apple crop, Ontario produced 1,304,400 barrels, compared with 2,257,483 in 1920; British Columbia produced 1,124,923 barrels, compared with 1,136,202 in 1920; Nova Scotia produced 1,509,000 in 1920; New Brunswick produced 69,202 barrels, compared with 130,575 in 1920 and Quebec produced 65,094 barrels, compared with 334,645 in 1920.

## Classified Advertisements

Advertisements not exceeding one inch will be inserted under this heading at the rate of 50c. for the first insertion and 25c. per week until ordered out, cash in advance.

### FOR SALE

NEW MODERN HOUSE, CONVENIENT and up to date with garden lot. Price reasonable and terms easy. J. H. HICKS & SONS, Bridgetown, N. S.

44-1-3c.

### NO RUSH TO FARM AT \$15 A MONTH

One British Harvester Demands \$65 Plus Board and Laundry

### FAMILY FARES

Australia Would Carry Children Free or at Half Price.

Toronto.—The unemployed British harvesters have not as yet displayed any enthusiasm for the plans to secure employment for them arranged at a special meeting of their representatives and the Ontario Employment Bureau on Tuesday.

Farm work was to be provided for all single men at \$15 a month for the first or trial month, and after for twelve months at current farm rates. But three have signified their willingness to go. One was willing, provided his wages after the initial month would not be less than \$65 a month with board and washing thrown in gratis. He would not be satisfied with less.

"We are very much disappointed with the failure of the organized British harvesters to accept the farm positions we have secured for them in accordance with the agreement we reached with their representative at the beginning of the week," stated H. C. Hudson, general superintendent of the Ontario unemployment offices yesterday. There are about 5,000 men in the city now seeking employment.

### No Rush

London.—The High Commissioner for Australia has suggested a new passage-money agreement with the British Government, containing operation in aiding emigration until March 1925, each Government bearing half the cost. All so assisted are subject to the final approval of the Australian director of immigration. The fares of adults remain the same but an important modification is made in the rates for children, to encourage the migration of families. Children under 12 years will be carried free and those between 12 and 16 at half fares.

### NOTICE

SCHOOL SECTION TAX FORMS at The Monitor Office. 27-14c.

### PURE WATER

Kent & Kennedy Artesian Well Drillers, St. George, N. B.—Wells drilled any reasonable size or depth. Satisfaction guaranteed. Quotations on application. 47-14c.

### FREE RAILROAD FARE

To Nearest Branch.

A sum of money, owner can have same by proving and paying cost. George R. Whitman, Lawrencetown, N. S.

44-14c.

### Card of Thanks

Mr. Willis Gillis of Dalhousie wishes to thank all those who so generously subscribed to a fund to enable him to purchase a horse in place of the one recently lost.

Montreal is said to have more churches to the square mile than any other spot on earth.

### GENERAL NEWS

There are over a hundred thousand radio users in Canada and the problem before the Department of Marine, which supervises this service, is how to assist the broadcasting stations upon which receiving sets rely for their service. At the beginning of 1923 broadcasting stations numbered 63. Early in 1923 the number fell to 26, but at present is 38. It is figured that over \$2,000,000 is invested in receiving sets, the manufacture of which has developed into a profitable industry.

So many political prisoners had escaped recently from the fortress of St. Julian, in Spain, that an investigation was made. The authorities learned that some years ago a prisoner escaped by cutting a hole in a wall and digging a tunnel to a point outside the prison. The wall was filled up by a bricklayer among the prisoners. This man, possessed of imagination, stopped the hole with thin boards, which he covered with plaster, and announced a finished job. Subsequently he was freed, but he waited until certain of his friends were in confinement in the same fortress and then smuggled in a letter telling them the secret of the thin boards which he alone knew.

Leaving out of a bathtub in her home at London, Ontario, Sunday, to move an electric heater which stood by Mrs. David Williams, aged thirty-nine years, was electrocuted. It is claimed that the insulation had been impaired on the heater, and that when Mrs. Williams stood in the tub she was in direct contact with the earth by means of the pipes that ran to the sewers, and therefore received the full force of the current. Hearing her screams her husband ran to the bathroom and found her standing half-conscious, with the heater in her badly-burned hand. In resuscitating her, Mr. Williams also sustained a severe shock. Dr. Copeland was summoned, but Mrs. Williams died in a few minutes. She is survived by her husband and two daughters aged 11 and 13 years.

### PUBLIC HEALTH SERIES

In the second of this series we issued a "call to arms" to those who are in a grim battle but fail to realize it—the battle with disease and especially against tuberculosis. In this, the third, we are to tell you about certain "outposts of defence" which form part of the organization carrying on the fight.

As you know, this war, like any national fight, is carried on by the "government", that is by the people themselves through the men they have chosen to spend their money to best advantage and to make their laws. In short, to do the public business of the community. Instead of calling it the "War Department" or the "Militia Department", we call it the "Public Health Department". Its head office is with the other government offices in our capital city, Halifax. Our Health War Department has a lot of arms—flag, if you like—and a motto, which you will see at the head of each of these "calls" or letters of instruction appearing in your paper. The Department has its "Commander-in-Chief", so to speak, that is, a Head Officer, with a few assistants; unfortunately too few, as yet, because the people do not care to spend much money on a war when they hardly know they are in it! At Headquarters, the officers gather all the knowledge they can about tactics, and about the actions of the enemy, and from there they send out information and instructions to their lieutenants and to the whole army—that is to YOU. The officers also travel about over "the field" (all of Nova Scotia) visiting the points where a special stand is being made against the disease-enemy, such as hospitals and sanatoriums; but they visit oftenest those outposts of which we are to tell you today. These have not been very long established, not so long as the hospitals and sanatoriums, and perhaps you do not know as much about them; but they come nearer to you than either, and are easier and cheaper for you to use. They have been called "Clinics", though a better but longer name for them is Examination Stations. Have you ever been in your County Clinic? Do you know where it is held?

This letter from your Health War Headquarters is to tell you that the main purpose of these clinics is as "Outposts of Defence" for you against the enemy, disease; and that your duty, as one of the health army, is to go to the clinic for examination, and to get everyone else you can to go, especially anyone who is not so strong as they should be, any person who is under weight, or who cannot run and play and work without getting tired; anyone who has a cough, or who often takes a cold and finds it hard to get rid of; children who do not breathe freely through their nose, or who have trouble with their tonsils or adenoids; and those who do not see as well as they should. Everyone, especially the young, who is not in absolutely perfect health, is in danger from the enemy which may be creeping up to them unawares. But if you are AFRAID of that enemy,

the letter from your Health War Headquarters is to tell you that the main purpose of these clinics is as "Outposts of Defence" for you against the enemy, disease; and that your duty, as one of the health army, is to go to the clinic for examination, and to get everyone else you can to go, especially anyone who is not so strong as they should be, any person who is under weight, or who cannot run and play and work without getting tired; anyone who has a cough, or who often takes a cold and finds it hard to get rid of; children who do not breathe freely through their nose, or who have trouble with their tonsils or adenoids; and those who do not see as well as they should. ## Town of Bridgetown

### Office of Town Clerk & Treasurer

Notice is hereby given that the assessment roll for the Town of Bridgetown upon which the rates will be levied in and for the said town for the present year 1924, has been filed in the office of the undersigned, the Town Clerk, and that the said roll is open to the inspection of the ratepayers of the town.

And further take notice that any person, firm, company, association, or corporation assessed in such roll, who claims that he or it should not be assessed, or who claims that he or it is over assessed in such roll, may, on or before the tenth day of February next, give notice in writing to the undersigned, the Town Clerk, that he or it appeals from such assessment in the whole or in part, and shall in such notice state particularly the grounds of objection to such assessment.

And further take notice that if any person assessed in such rolls claims that any person, firm, company, association or corporation has been assessed too low, or has been omitted from or wrongfully inserted in such roll, he may on or before the tenth day of February, give notice in writing to the undersigned, the Town Clerk, that appeals in respect to the assessment or non-assessment of the said person, firm, company, association or corporation, and shall in such notice state particularly the grounds of his objection.

Dated at Bridgetown, N. S., this 17th day of January, 1924.

J. E. LLOYD, Town Clerk, Town of Bridgetown.

43-24c.

afraid to find out where he is, you are going to bring the consequences of cowardice upon yourself and upon others who are in the fight with you. The thing for every one of us to do is to report to the nearest outpost, that is, find out when the Examining Officer is to be at your County Clinic, and go to see him, have him examine you thoroughly and tell you just where you stand in the fight, and what you have to do. The Examining Officer will have with him a Nurse, to whom you can talk freely, and who will be able to teach you the things you have to know. And, never forget, "knowledge is power". Even people who feel well should be thoroughly examined by a doctor at least once a year. This does not mean that people should be always thinking and "fussing" about their health. Far from it. In fact it is those who have the proper examinations and put their bodies in order who do not need to worry about them. It is only common good sense, when you have in constant use a valuable piece of machinery, to have an expert look it over occasionally, and to know, yourself, exactly how to "run" it. Your body is an exquisitely constructed and complicated machine, and, so far as we know, it is the only body you will ever have. At all events, when it is "done for", you cannot, as with a motor-car or a sewing-machine, go out and buy a new one.

### UNITED CHURCH NOTES

The Pastor is continuing the special services for the third week at Granville. Meetings will be held Monday, Tuesday and Wednesday. A canvass of the envelope subscribers will be made with a view to getting as many as possible to use the two sides of the duplex envelope and give weekly to Benevolences. Benevolences include Missions and all Connexional and other funds. Why not, start with this coming Sunday and put in the amount you intend to give weekly. Mr. Archibald will enter up this amount against your name and it will save the canvassers from calling on you.

The Pastor is starting throughout the Circuit a "Moffatt Class". The objective is fifty—all readers of Moffatt's translation of the New Testament. He intends to give five minutes weekly to an outline of bible reading for the week giving historical data—or the objective of the inspired writers. Any real revival is first of all founded on the word of God. Moffatt makes it easy to read the New Testament. Send in your names to the Pastor and get a copy through him or Moffatt.

### FIREMEN NIP EARLY THREATENING BLAZE

KENTVILLE.—A fire occurred in Kentville at 2:15 a.m. Saturday morning on the block owned by K. L. Chipman, Halifax occupied by C. C. Morton's bookstore below, and tenements above and at the rear. The quick work of Fire Chief Pryor Hall and the men of the Department saved what might have been a disastrous fire. It started in the tenements above the store, burning through the roof. Small damage was done to the tenements and to the stock of C. C. Morton's store.

### GRANVILLE FERRY

Granville Ferry.—John Hardy, of Middleton, is spending a few days with his father, Douglas Hardy. Mrs. Archibald Troop, who has been visiting at the home of Mr. and Mrs. William Amherman, returned to Belleisle Saturday.

Miss Edna Wade, left last Saturday for White Rock, King's Co., where she has been engaged as teacher for a few weeks.

We are very glad to report that Wm. Amherman, is much improved in health. The Ladies' Aid will meet this week at the home of Mrs. John Dunn.
